LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number *concept (sorting and grouping)*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to sort and group objects according to size.

KEY INQUIRY QUESTION (s)

How do you sort and group objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Balls.

Books.

Pencils of all different sizes.

Mathematics pupil's book 1 pg.2.

Mathematics teachers guide grade 1 pg. 3.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sing a song on sorting and grouping.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using pencils of two different sizes show the learners how to sort and group objects according to size.

Step 2: Guide Learner in pairs or groups to sort and group objects according to size. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 2.

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to sort and group objects according to size.

EXTENSION OF ACTIVITIES

Learners to sort and group objects according to size in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:_____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept (sorting and grouping)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to sort and group objects according to shape.

KEY INQUIRY QUESTION (s)

How do you sort and group objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of rectangles, triangles, circles.

Mathematics pupil's book 1 pg.3

Mathematics teachers guide grade 1 pg. 4

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sort and group objects according to size.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using different cut-outs, show learners how to sort and group objects according to shape.

Step 2: Guide Learner in pairs or groups to sort and group objects according to shape. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 3.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to sort and group objects according to shape.

EXTENSION OF ACTIVITIES

Learners to sort and group objects according to shape in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Week:____________ **Lesson: __________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number ***concept (pairing and matching)***

Specific lesson learning outcome.

By the end of the lesson, the learner should be to pair and match objects according to size.

KEY INQUIRY QUESTION (s)

How do you pair and match objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Bottles.

Blocks of wood.

Mathematics pupil's book 1 pg.4.

Mathematics teachers guide grade 1 pg. 5.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their daily experiences on pairing and matching.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using two groups of objects, show learners how to pair and match according to size of group.

Step 2: Guide Learner in pairs or groups to pair and match objects. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 4.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to pair and match objects.

EXTENSION OF ACTIVITIES

Learners to practice pairing and matching of objects in school and home environment.

REFLECTION ON THE LESSON/SELF-REMARKS

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number *concept (Making patterns)*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to make patterns using objects of different sizes.

KEY INQUIRY QUESTION (s)

How do you make patterns using objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Bottles.

Marbles.

Balls all of different sizes.

Mathematics pupil's book 1 pg.5.

Mathematics teachers guide grade 1 pg. 6.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to pair and match objects.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using two groups of balls show learners how to make patterns according to size.

Step 2: Guide Learner in pairs or groups to make patterns using objects according to size. Learners to share their findings with the other groups.

Step 3: Learners to do activities in pupil's book page 5.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to display and discuss their patterns

EXTENSION OF ACTIVITIES

Learners to make patterns using objects according to size in school and at home, for example during play activities.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: __________

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number *concept (Number names)*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to recite number names in order up to 20

KEY INQUIRY QUESTION (s)

How do you recite number names in order?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Videos.

Audios.

Mathematics pupil's book 1 pg.6.

Mathematics teachers guide grade 1 pg. 7.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners sing a song on number names.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to recite number names 1 up to 20.

Step 2: Guide Learner in pairs or groups to recite number names in order, 1 up to 20.

Step 3: Learners to do activities in pupil's book page 6.

SUMMARY

Review the lesson and make summary notes.

CONCLUSION (Assessment of Learning)

Learners to sing a song on number names.

EXTENSION OF ACTIVITIES

Learners to sing songs involving number names in order, in school and at home, for example during play activities

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number *concept (Numbers using objects)*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to represent numbers up to 10 using objects

KEY INQUIRY QUESTION (s)

How do you represent numbers using objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Books.

Pencils.

Balls, bottles.

Number cards, beads, buttons.

Mathematics pupil's book 1 pg.7-8.

Mathematics teachers guide grade 1 pg. 8.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners sing a song on number names.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to represent numbers up to 10 using objects. Draw a two column table to represent the number and corresponding objects.

Step 2: Guide Learner in pairs or groups to represent numbers up to 10 using objects. Guide learners to fill in the table.

Step 3: Learners to do activities in pupil's book page 7.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to represent numbers up to 10 using objects.

EXTENSION OF ACTIVITIES

Learners to practice representing numbers up to 10 using objects in school and at home.

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole Numbers (Tens and ones)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify place value of digits in numbers up to tens.

KEY INQUIRY QUESTION (s)

How do you identify the place value of a digit in a number?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Sticks.

Straws.

Place value tins, place value trays, abacus, bottle tops.

Mathematics pupil's book 1 pg.12.

Mathematics teachers guide grade 1 pg. 13.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to discuss items found in bundles. For example, s bunch of bananas, a bundle of kales, and a bundle of firewood.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to represent 12 using bundles of sticks. Count 12 sticks. Tie 10 sticks to make a bundle of ten and 2 loose sticks. 12 is 1 ten 2 ones.

Step 2: Guide Learner in pairs or groups to represent place value of digits in numbers using bundles of sticks.

Step 3: Learners to do activities in pupil's book page 12.

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to identify place value of digits in numbers.

EXTENSION OF ACTIVITIES

Learners to practice representing place value of digits in numbers using bundles of sticks.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole Numbers (Reading numbers)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to read number symbols up to 20.

KEY INQUIRY QUESTION (s)

How do you read number symbols?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Number chart.

Number cards.

Video clips.

Mathematics pupil's book 1 pg.13.

Mathematics teachers guide grade 1 pg. 14.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Sing a song on reading numbers

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read number symbols 1 up to 20 using number charts, video or number cards.

Step 2: Guide Learner in pairs or groups to read number symbols 1 to 20.

Step 3: Learners to do activities in pupil's book page 13.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to arrange in order and read jumbled number cards.

EXTENSION OF ACTIVITIES

Learners to read number symbols on calendars, wall clocks, classroom doors and mobile phones among others in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

STRAND/THEME/TOPIC: ***NUMBERS***

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole Numbers (Writing numbers)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to write number symbols up to 20.

KEY INQUIRY QUESTION (s)

How do you write number symbols?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number chart.

Number cards.

Video clips.

Mathematics pupil's book 1 pg.14.

Mathematics teachers guide grade 1 pg. 15.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Sing a song on reading numbers.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read number and write number symbols 1 up to 20 using number charts and number cards.

Step 2: Guide Learner in pairs or groups to read and write number symbols 1 up to 20 using number cards, such as jumbled numbers in a box, learners play a fishing game of reading and writing.

Step 3: Learners to do activities in pupil's book page 14.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to pick numbers from a box, read and write them.

EXTENSION OF ACTIVITIES

Learners to read and write number symbols 1 up to 20 in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole Numbers (Number patterns)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to work out missing numbers in patterns up to 5 in 1's

KEY INQUIRY QUESTION (s)

How do you work out missing numbers in a pattern?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number cards with numerals.

Video clips.

Mathematics pupil's book 1 pg.15.

Mathematics teachers guide grade 1 pg. 16.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count in 1's up to 5 forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write 1, 2, 3, ____, 5 and 2, 3, 4, _____. Show learners how to identify the rule of the patterns and work out the missing number in the patterns.

Step 2: Guide Learner in pairs or groups to work out missing numbers in patterns.

Step 3: Learners to do activities in pupil's book page 15.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Arrange 5 learners in front of the class. Each learner to hold a number 1, 2, 3, 4, 5. As the rest display their numbers, the one holding number 3 hides. The rest of the class to identify the rule of the pattern and say the missing number.

EXTENSION OF ACTIVITIES

Learners to play games involving number patterns both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:_____________ Lesson: ____________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole Numbers (Number patterns)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to create number patterns up to 10.

KEY INQUIRY QUESTION (s)

How do you create number patterns?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number cards with numerals.

Video clips.

Mathematics pupil's book 1 pg.16.

Mathematics teachers guide grade 1 pg. 17.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to work out missing numbers in patterns up to 5.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to create number patterns up to 10 by identifying a rule for the pattern and choosing a starting point.

Step 2: Guide Learner in pairs or groups to create number patterns up to 10.

Step 3: Learners to do activities in pupil's book page 16.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Put 10 numbers in a basket on the teacher's table. Having a rule of increasing by 2 starting at 3, create a number pattern. Stick number 3 on the wall. Learners to identify the next number pick the number and stick it next to number 3. The process continues in turns until the pattern is created.

EXTENSION OF ACTIVITIES

Learners to play games involving number patterns both in school and at home.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

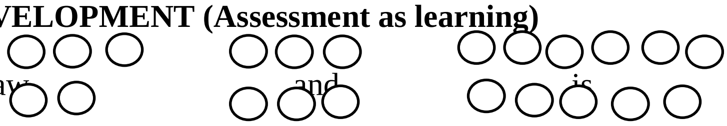
Learners to represent "putting together" using the addition sign with sum up to 20.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Draw and is



Show learners that 5 objects added to 6 objects is 11

Explain to the learner that "is" it means the same as equal sign, written using the sign "="

Write the addition sentence using the equals sign. 5+6 = 11

Step 2: Guide Learner in pairs or groups to use the sign "=" in putting groups of objects together.

Step 3: Learners to do activities in pupil's book page 22.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to put together objects and write the corresponding addition sentence using “=” sign.

EXTENSION OF ACTIVITIES

Learners to discuss with their family members where the concept of addition is used at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Addition

Specific lesson learning outcome.

By the end of the lesson, the learner should be to write addition sentences.

KEY INQUIRY QUESTION (s)

How do you write addition sentences?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counters.

Mathematics pupil's book 1 pg.23.

Mathematics teachers guide grade 1 pg. 25.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to represent "putting together" using the equal sign (=) with sum up to 20.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Draw ○○ and ○○○ is ○○○○○

2 plus 3 is 5

2 + 3 = 5

Show learners how to represent putting together using the addition "+" and equals."=" sign

Step 2: Guide Learner in pairs or groups to write addition sentences to represent putting together.

Step 3: Learners to do activities in pupil's book page 21.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to write addition sentences.

EXTENSION OF ACTIVITIES

Learners to find out when and where the word equals is used in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Addition

Specific lesson learning outcome.

By the end of the lesson, the learner should be to work out missing numbers in number patterns involving addition up to 10.

KEY INQUIRY QUESTION (s)

How do you work out missing numbers in patterns?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counters.

Mathematics pupil's book 1 pg.28.

Mathematics teachers guide grade 1 pg. 30.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count by 1 and 2 up to 10.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Write the pattern 1, 2, 3, _____, ______, ______

Show learners how to work out the missing numbers in the pattern through addition as

1 + 2 = 2

2 + 1 = 3

3 + 1 = 4

4 + 1 = 5

5 + 1 = 6

Missing numbers are 4, 5, 6

The pattern is 1, 2, 3, 4, 5,6

Step 2: Guide Learner in pairs or groups to work out missing numbers in number patterns involving addition up to 10.

Step 3: Learners to do activities in pupil's book page 28.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to work out missing numbers in patterns involving addition up to 10

EXTENSION OF ACTIVITIES

Learners to practice working out missing numbers in patterns involving addition up to 10 at home.

By the end of the lesson, the learner should be to work out missing numbers involving subtraction up to 10.

KEY INQUIRY QUESTION (s)

How do you work out missing numbers in patterns?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Counters.

Number cards.

Mathematics pupil's book 1 pg.36.

Mathematics teachers guide grade 1 pg. 42.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to arrange number cards from 1 to 10 in order.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Write 8, 6, 4, ______

Show learners how to subtract 2 from a number to get the next number as

8 – 2 = 6

6 – 2 = 4

4 – 2 = 2

The next number is 2. Therefore the pattern is 8, 6, 4, **2**

Step 2: Write 7, 6, 5, ____. Guide Learner in pairs or groups to subtract 1 from a number to get the next number.

Step 3: Learners to do activities in pupil's book page 36.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to work out missing numbers in patterns involving subtraction up to 10.

EXTENSION OF ACTIVITIES

Learners to practice working out missing numbers in patterns involving subtraction up to 10 with family members.

Learners to name objects they can make using Plascticine or clay.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Balance two Plascticine balls on a beam balance. Roll one of the balls into a flat shape and compare its mass with the other ball. Explain that the mass of the ball remains the same even after flattening.

Step 2: Guide Learner in pairs or groups to make other pairs of Plascticine balls that balance on a beam balance. Learners to roll one ball into a flat shape and compare its mass with the other ball. Learners compare their results with other groups.

Step 3: Learners to do activities in pupil's book page 42.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions on conservation of mass.

EXTENSION OF ACTIVITIES

Learners to compare mass of an object when in different shapes at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: MASS

Specific lesson learning outcome.

By the end of the lesson, the learner should be to measure mass using arbitrary units.

KEY INQUIRY QUESTION (s)

How can you find the mass of an object?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Beam balance.

Bottle tops.

Exercise books, textbooks, marbles, and ruler.

Mathematics pupil's book 1 pg.43.

Mathematics teachers guide grade 1 pg. 51.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to compare mass of objects directly.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to measure the mass of an exercise book using bottle tops. Write the number of bottle tops used to balance the ruler. Explain to the learners the mass of the ruler in terms of the bottle tops.

Step 2: Guide Learner in pairs or groups to measure the mass of an exercise book using marbles. Learners compare their results with other groups.

Step 3: Learners to do activities in pupil's book page 43.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to measure mass using arbitrary units.

EXTENSION OF ACTIVITIES

Learners to use arbitrary units to measure mass of objects in the environment.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: CAPACITY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to compare capacity of containers directly.

KEY INQUIRY QUESTION (s)

How do you compare capacity of two containers?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Water.

Basin.

Bottles, jugs, sufuria, cup, tins.

Mathematics pupil's book 1 pg.44.

Mathematics teachers guide grade 1 pg. 53.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to name different containers found at home.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to compare the capacity of a jug and a cup by filling and emptying. Describe the capacity of the containers identifying which container holds more or holds less.

Step 2: Guide Learner in pairs or groups to fill and empty containers identifying which container holds more or holds less. Learners compare their results with other groups.

Step 3: Learners to do activities in pupil's book page 44.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to compare capacities of different containers.

EXTENSION OF ACTIVITIES

Learners to practice comparing capacity of containers in the environment.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ **Lesson: ___________**

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: CAPACITY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to conserve capacity through manipulation.

KEY INQUIRY QUESTION (s)

What happens to the amount of water in a container when it is poured into a bigger container?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Water.

Bottles.

Jugs, tins.

Mathematics pupil's book 1 pg.45.

Mathematics teachers guide grade 1 pg. 54.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to name containers that hold the same amount of water.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Through filling and emptying activities, explain to the learners that the amount of water in a container remain the same even when it is transferred to another container.

Step 2: Guide Learner in pairs or groups to fill and empty different containers to establish that the amount of water in a container remain the same even when it is transferred to another container. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 45.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions on conservation of capacity.

EXTENSION OF ACTIVITIES

Learners to discuss conservation of capacity with family members.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: CAPACITY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to find out which containers hold the same amount of water.

KEY INQUIRY QUESTION (s)

How can you establish that containers can hold the same amount of water?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Water.

Bottles, bucket.

Jugs, tins.

Mathematics pupil's book 1 pg.46.

Mathematics teachers guide grade 1 pg. 55

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to name containers used in daily life.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Through filling and emptying activities, explain to the learners how to find out which containers hold the same amount of water.

Step 2: Guide Learner in pairs or groups to fill and empty different containers to find out which container holds the same amount of water.

Step 3: Learners to do activities in pupil's book page 46.

SUMMARY

Review the lesson and make summary points of the lesson.

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions on conservation of capacity.

EXTENSION OF ACTIVITIES

Learners to discuss conservation of capacity with family members.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: __________

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: CAPACITY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to measure the capacity of a given container using smaller containers.

KEY INQUIRY QUESTION (s)

How can you measure how much a container can hold?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Water.

Bottles, bucket.

Jugs, tins.

Mathematics pupil's book 1 pg.47.

Mathematics teachers guide grade 1 pg. 56.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share experiences on filling larger containers using smaller containers.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Through filling and emptying activities, establish the number of times each containers can fill the bucket.

Step 2: Guide Learner in pairs or groups to fill a smaller container and empty into a large container. Repeat with other small containers. Count to find out the number of times it takes each of the smaller containers to fill the larger container. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 47.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to measure capacity of containers using smaller containers.

EXTENSION OF ACTIVITIES

Learners to practice measuring capacity of containers in the environment.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: TIME

Specific lesson learning outcome.

By the end of the lesson, the learner should be to tell the daily activities at home.

KEY INQUIRY QUESTION (s)

What activities are carried out at home?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Picture of a homestead.

Mathematics pupil's book 1 pg.48.

Mathematics teachers guide grade 1 pg. 58.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share experiences on their daily activities at home.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Explain to the learners the activities that take place at your home every day. Write the activities.

Step 2: Guide Learner in pairs or groups to discuss their daily activities at home. Learners to share on their daily activities at home with other groups.

Step 3: Learners to do activities in pupil's book page 48.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to name the daily activities at home.

EXTENSION OF ACTIVITIES

Learners to undertake various activities at home and note the time they take place.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL

Specific lesson learning outcome.

By the end of the lesson, the learner should be to tell the daily activities at school.

KEY INQUIRY QUESTION (s)

What activities are carried out at school?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Picture of a school environment.

Mathematics pupil's book 1 pg.49.

Mathematics teachers guide grade 1 pg. 59.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share experiences on their daily activities at school.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Explain to the learners the activities that take place at school every day. Write the activities.

Step 2: Guide Learner in pairs or groups to discuss their daily activities at school. Learners to share on their daily activities at school with other groups.

Step 3: Learners to do activities in pupil's book page 49.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to name the daily activities at school.

EXTENSION OF ACTIVITIES

Learners to participate in the activities in the school community.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: ___________

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: TIME

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify the times of the day.

KEY INQUIRY QUESTION (s)

How do you tell the times of the day?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Picture of a school environment.

Mathematics pupil's book 1 pg.50.

Mathematics teachers guide grade 1 pg. 60.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share on how they tell the times of the day.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Tell learners the times of the day. Write morning, noon, afternoon and evening.

Step 2: Guide Learner in pairs or groups to discuss the times of the day. Learners to discuss on the times of the day with other groups.

Step 3: Learners to do activities in pupil's book page 50.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to name the times of the day.

EXTENSION OF ACTIVITIES

Learners to observe and describe the times of the day.

Week:____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: MONEY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify and sort Kenyan currency coins and notes up to sh. 100.

KEY INQUIRY QUESTION (s)

How do you identify Kenyan money?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Real money in notes and coins.

Mathematics pupil's book 1 pg.51.

Mathematics teachers guide grade 1 pg. 62.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences with money.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners Kenyan currency in coins and notes and discuss the features of the coins.

Step 2: Guide Learner in pairs or groups to sort and identify the coins by their features. Learners to share their observations with the other groups.

Step 3: Learners to do activities in pupil's book page 51.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to sort Kenyan currency coins and notes up to 100.

EXTENSION OF ACTIVITIES

Learners to participate in buying and selling activities at home and in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: MONEY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify goods and services.

KEY INQUIRY QUESTION (s)

How do you spend money?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Picture of goods and services.

Mathematics pupil's book 1 pg.52.

Mathematics teachers guide grade 1 pg. 63.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences on spending money.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Show and explain to the learners pictures on goods and services. Write examples of goods and services on the boar.

Step 2: Guide Learner in pairs or groups to sort and identify goods and services. Learners to share their list of goods and services with the other groups.

Step 3: Learners to do activities in pupil's book page 52.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to name goods and services.

EXTENSION OF ACTIVITIES

Learners to participate in buying and selling of goods and pay for service using coins and notes at home.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON PLAN MATHEMATICS ACTIVITIES

Week:_____________ Lesson: ___________

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *MEASUREMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: MONEY

Specific lesson learning outcome.

By the end of the lesson, the learner should be to relate money to goods and services up to sh. 100 in shopping activities.

KEY INQUIRY QUESTION (s)

What can you buy with money?

Core competencies	Values	PCIs
• **Learning to learn** • **Communication and collaboration** • **Imagination and creativity** • **Problem solving**	• **Unity** • **Respect** • **Patriotism** • **responsibility**	**Self-awareness** **Self-esteem**

LEARNING RESOURCES

Classroom shop.

Mathematics pupil's book 1 pg.53.

Mathematics teachers guide grade 1 pg. 64.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences on buying and selling with regards to goods or services and the amount of money spent.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Explain to the learners how goods and services are related to money. Write on the board goods and services a given amount of money can buy.

Step 2: Guide Learner in pairs or groups to discuss goods and services and how much they could pay for them. Write goods and services and their costs on the chalkboard.

Step 3: Learners to do activities in pupil's book page 53.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to relate money to goods and services.

EXTENSION OF ACTIVITIES

Learners to participate in buying and selling using coins and notes.

STRAND/THEME/TOPIC: *GEOMETRY*

SUBSTRAND/SUB-THEME/SUB-TOPIC: LINES

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify straight lines.

KEY INQUIRY QUESTION (s)

How do you identify straight line?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Books.

Pieces of sticks.

Crayons, chalk, charcoal.

Mathematics pupil's book 1 pg.54

Mathematics teachers guide grade 1 pg. 66.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences with lines. For example, lining up during assembly, in the hospital, religious activities, at the poshomill, at the water collection point.

ESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to form a straight line using toy cars. Draw a line along the formation.

Step 2: Guide Learner in pairs or groups to identify straight lines.

Step 3: Learners to do activities in pupil's book page 54.

SUMMARY

Review the lesson on straight lines and make summary.

CONCLUSION (Assessment of Learning)

Learners to identify straight lines within the classroom.

EXTENSION OF ACTIVITIES

Learners to identify straight lines in school, at home and in the community.

STRAND/THEME/TOPIC: GEOMETRY

SUBSTRAND/SUB-THEME/SUB-TOPIC: SHAPES

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify rectangles within the environment.

KEY INQUIRY QUESTION (s)

How do rectangles look like?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Objects with different shapes,

Rectangular cut-outs.

Mathematics pupil's book 1 pg.56.

Mathematics teachers guide grade 1 pg. 69.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to name different items in the classroom.

ESSON DEVELOPMENT (Assessment as learning)

Step 1:* *Dra

Show learners items with rectangular shape within the classroom and the environment. Tell the learners that a shape that looks like the one drawn is called a rectangle.

Step 2: Guide Learner in pairs or groups to identify objects with rectangular shapes within the classroom and outside. Guide learners in drawing rectangles.

Step 3: Learners to do activities in pupil's book page 56.

SUMMARY

Review the lesson on shapes and drawing.

CONCLUSION (Assessment of Learning)

Learners to draw rectangles.

EXTENSION OF ACTIVITIES

Learners to identify objects with rectangular shapes within their homes and share with others.
