

Computer Studies Paper

- Table 1 and Table 2 are extracts of records kept in a health centre for patients and consultations respectively.

Patients Numbers	Names	Year of Birth	Gender
0001	Jean	1985	Female
0002	Paul	1980	Male
0003	Alice	1985	Female
0004	Allan	1980	Male

- Table 1

Doctors Numbers	Names
001	Charles
002	Beatrice
003	James
004	Isaac

- Table 2

Consultation Number	Consultation Date	Patient Number	Doctor Number	Ailment
001	2000/01/01	0001	001	flu
002	2000/01/02	0002	002	malaria
003	2000/01/03	0003	003	cough
004	2000/01/04	0004	004	flu
005	2000/01/05	0001	001	cough
006	2000/01/06	0002	002	malaria
007	2000/01/07	0003	003	measles
008	2000/01/08	0004	004	cough
009	2000/01/09	0001	001	malaria
010	2000/01/10	0002	002	measles

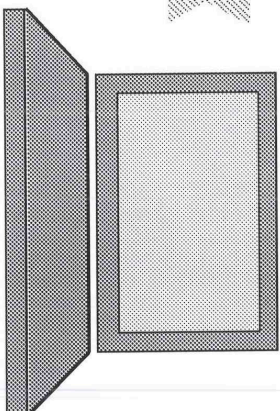

- Table 3

- (a) (i) Using a database application package, create a database file named PATIENTSINFO. (3 marks)
- (ii) Create three tables named PATIENTS, DOCTORS and CONSULTATIONS that will be used to store the data in Table 1, Table 2 and Table 3 respectively. (4 marks)
- (iii) Set the primary key for each table. (3 marks)
- (iv) Create the relationships among the tables. (3 marks)

1	10	10	Create a data entry form for each table.	1	1	1	10 marks
2	1	10	Enter the data in Table 1, Table 2 and Table 3 into the Patients, Doctors and Consultations tables respectively.	1	1	1	10 marks
3	1	1	(c) (i) Create a query named PatientAge to display Patients' Names, Gender and Age on the Year of Visit.	1	1	1	10 marks
			(ii) Create a query named Beatricedetails to display Patients' Names, Ailment and Consultation Dates for patients treated by Doctor Beatrice. (3 marks)				
4	1	1	(d) (i) Create a report to display the Patients' Names, Consultation Dates, Ailments and the Names of the Doctors consulted. The records in the report should be grouped by Patients' Names and the number of consultations by each patient should be displayed.	1	1	1	10 marks
5	1	10	Title the report as "Consultations Per Patient" and save it as Consultations.	1	1	1	10 marks
6	10		Print the following:				
7	1	10	Tables: Patients, Doctors and Consultations.	1	1	1	10 mark
8	1	10	Queries: PatientAge and Beatricedetails.	1	1	1	10 mark
9	1	10	Report: Consultations.	1	1	1	10 mark
10	1	10	Form: Consultations.	1	1	1	10 mark
11	The figure on page 1 shows the design of the cover page of a book. It comprises of the front, the back and space in between where book pages will be attached. Use a desktop publishing package to design the cover page as follows.						
12	10	Create a new publication named Book Cover with the following page layout:					
13	1	10	paper size: A4				
14	1	10	orientation: landscape				
15	1	10	margins: 10mm or 1000thches all round				
16	1	1		1	1	1	10 marks
17	10	Enter the text and objects and format them as they appear in the figure. The front and back sections of the book cover each measures 100mm or 1000thches by 100mm or 1000thches and the space between them measures 100mm or 1000thches.					
18	10	Save and print the publication.					
19	1	1	1	1	1	1	10 mark

BEGINNING COMPUTER STUDIES

QUICK REVISION GUIDE

Nyota Publishing Press

REVISED EDITION
2012

Beginning Computer Studies
A Quick Revision Guide

Beginning Computer Studies is one in a series of books published by Nyota Publishing Press to comprehensively cover introductory Computer Studies.

The content in the book is skilfully developed to enable the learners understand the concepts and skills expected at every stage of learning.

Exercises are provided at the end of each topic. The exercises are varied in terms of depth and scope.

Other books in this series are:

- ◆ An Easy Way to Teach Yourself Wordprocessing
- ◆ Management Information Systems
- ◆ Data Communication Essentials Dummies
- ◆ How To Do Everything With Spreadsheet
