Sample Schemes of Work & Lesson Plans

Tusome Early Literacy Programme

Introduction

These sample schemes of work and lesson plans for English and Kiswahili Grades 1, 2 and 3, have been developed by the Tusome team to guide teachers to create their own. They provide detailed week by week and day by day example activities that can be used to teach learners using Tusome materials, while ensuring that the teachers follow the new curriculum designs developed by the Kenya Institute of Curriculum Development (KICD).

The schemes of work and lesson plans have been developed based on templates provided by the KICD and contain all the components of the Competence Based Curriculum designs.

Key areas highlighted in the sample schemes of work and lesson plans include the following:

Strand/Substrand	These are the general topics and sub topics of each learning area in the KICD Curriculum Designs. They give the specific skills and sub skills that learners should attain at the end of a lesson. The teacher should ensure that each lesson has a reference to a sub strand and strand picked from the curriculum designs. In English and Kiswahili language, the four main skills, listening, speaking, reading and writing are covered as strands. Since skills build on each other, these four strands should not be taught in isolation. Tusome ensures that all these strands are covered in each lesson.
Specific Learning Outcomes	The Competence Based Curriculum has moved from objective based learning to outcome based learning. The teacher is expected to list down what will be achieved at the end of each lesson. Learning outcomes focus on learner's achievement rather than what the teacher is expected to teach.
Key Inquiry Questions	These are the questions that will guide the teachers as they teach. These questions are meant to help with learning and are not a form of assessment. Key inquiry questions should enhance inquiry learning where learners and the teacher engage in discussions to achieve learning outcomes.
Core Competencies	A core competence refers to the ability to apply appropriate knowledge, skill and attitude to perform a function successfully. The seven core competencies to be achieved by every learner in basic education are: communication and collaboration, selfefficacy, critical thinking and problem solving, creativity and imagination, citizenship, digital literacy and learning to learn.
Values:	Values are principles or morals obligations. They make one of the key pillars of basic education. Education should promote acquisition of national values as enshrined in the Kenya Constitution. It should be geared towards developing a selfdisciplined and ethical citizen with sound moral and religious values.
Pertinent and Contemporary issues (PCIs)	The Competence Based Curriculum ensures that pertinent and contemporary issues (PCIS) facing the society form part of the curriculum. PCIs are society challenges experienced as a result of dynamism in various aspects of the society ranging from social, technological, economic, and cultural changes. There are 6 main PCIs covered in the Competence Based Curriculum include citizenship, health education, life skills and values education, nonformal programs and community service and parental engagement.

Sample lesson plans

The sample lesson plans are divided into four main areas:

Introduction: During introduction, the teacher is expected to review previous lessons. They should state the objective of the lesson and link this lesson to previous lesson. Introduction should be captivating and should elicit learner's interest.

1. **Lesson Development:** During lesson development, the teacher provides content of the lesson. Lesson development involve taking the learners carefully through every step to ensure that they are able to achieve the learning outcomes anticipated at the end of the lesson.
2. **Conclusion:** During conclusion, the teacher assesses if learners have gained from the lesson. It is also the time that learners are given an opportunity to ask questions and given classwork and homework.
3. **Summary:** The summary highlights the key points in the lesson. It is a recap of the lesson.
Teachers are expected to closely study the sample schemes of work and lesson plans and then using the Tusome materials and other resources create their own schemes of work and lesson plans.

TUSOME TEACHER'S GUIDE

Vocabulary

Write the following words on the board: **block, bring, able**

We do: Let's start by looking at the picture on page 1.

What do you see in the picture? What do you know about school?

We do: Now let's look at our new words. The first word is **block**. Does anyone know what this word means? Give feedback or clarify as necessary. If no one knows the meaning, give a child friendly definition.

I do: Make a sentence that brings out the meaning of the word.

You do: Ask learners to tell their partner what they think the word means in their own words. Ask 2 or 3 learners to share and give feedback.

You do: Now it's your turn. Use the word in a sentence.

Tell your partner. Call on learners to share and give feedback.

We/You do: Repeat with each of the other words.

You do: Now look on page 2 of your book. Find the vocabulary words. Let's read the words.

Text Reading

Narrative

We do: Read the title with the learners.

We do: Now remember what we talked about when we looked at the picture. What do you think the story is about? What do you know about school?

You do: Turn to your partner and tell them one thing you think will happen or you will learn from the story. Ask 2-4 learners to share.

We do: Teacher and learners to read the story.

You do: Learners to read on their own.

You do: Tell your partner if your prediction was correct and if not tell what happened instead. Raise your hand if your prediction was correct. Now we will do our comprehension activity to help us understand the text better.

Comprehension

Questioning

I do: Model how to read the question and look for the answer in the text. Question 1. Who will go to a new school?

I do: First I go back to the text to look for the answer.

I do: If I find the answer, I read the sentence that answers the question. If not, I think about how to answer from my experience.

I do: I state the answer in a complete sentence. Kobe will go to a new school.

We do: Question 2. What games can Kobe play?

We do: Is the answer in the text?

We do: Read the sentence or think of an answer from what you know about the text and the topic.

Strand: Listening, speaking, reading, writing (Activities at home and at school)

Sub-strand: Listening, pronunciation, language structures and functions, word and text reading, fluency; comprehension, hand-writing

Specific Learning Outcomes

By the end of the lesson, the learner should be able to:

1. explain meaning of vocabulary; 'block', 'bring', 'able' for self-expression
2. construct meaningful sentences using the vocabulary in variety of contexts
3. read and answer question on the text, 'Kobe's new school' for comprehension
4. use verbs correctly to show singular and plural subjects for effective communication.

Key Inquiry Questions

1. How do you sit while reading?
2. What do you see in the pictures?
3. What do you think will happen in the story?

Core competences: Communication and collaboration, creativity and imagination, critical thinking and problem solving

Values: Sharing, love, responsibility

PCIs: Education for sustainable development (ESD); animal welfare appreciating wildlife and forests.

KICD DESIGN

Introduction: The example lesson has been drawn from the Tusome English Grade 3 Teacher's Guide page 3 and 4. The lesson focuses on the four skills in language. These are developed in a functional way through the learning experiences. Each lesson focuses on all the strands, namely: **listening and speaking, reading, writing**.

Each lesson in the Tusome teacher's guide has in built assessments that are expected to take place throughout the lesson. The assessments are mainly formative and include teacher's observations as the learner practices in groups or pairs in response to instruction. These have also included learner's written work.

Example key enquiry questions have been provided within the Tusome teacher's guide for use to enrich the learning experiences.

For the teacher to meet the learning needs of the learner, the teacher is allowed flexibility on how to assess the learner progressively during the lesson. The excerpts below are from the KICD Design document by sub strand matched to the suggested learning experiences.

Core Competences to be developed:

- Communication and collaboration as learners share predictions with partners.
- Learning to learn as the learners practice correct sentences with subject verb agreement.
- Critical thinking and problem solving is developed through answering comprehension questions.

Specific learning outcome (Page 285)

- c) Appreciate the combination of sounds in reading

We do: State the answer as a sentence. Kobe likes to play skip rope and spell words.

You do: Learners answer the question. Teacher gives formative feedback.

You do: Repeat with the rest of the questions

3. What do boy scouts and girl guides do at assembly?
(Boy scouts and girl guides raise the flag.)
4. Who woke Kobe up? (His mother)
5. What do you think Kobe did when he woke up?
(Accept any correct answer)

Grammar

Doing words

I do: Today, we are going to learn about doing words. Doing words are words that show an action. They are also called verbs. Examples of verbs are eat, drink, dream and walk. A sentence has a verb and a subject. A subject is a person or thing that does something. Examples of subjects are pupils, she, he, they and them. In every sentence, the verb and the subject must be in agreement.

We do: Now let's read some examples from the passage. (Read the highlighted sentences in the text with the learners.)

We do: Let's try to write a sentence that has a plural subject. (Help learners to create a sentence as a class.)

You do: Now write the same sentence when the subject is singular. Ask for volunteers to share. Give feedback as needed.

Suggested Homework

Arrange the letters to write the words correctly and write a sentence with the word.

1. llspe – spell: I can spell my name.
2. paly
3. leba
4. sikip
5. sctuos

Introduction (Assessment for Learning)

Guide learners to sing a song about a school then ask them to name the activities that they do at school.

Lesson Development (Assessment for Learning)

Step 1: Vocabulary

Guide learners to explain the vocabulary; *block*, *bring* and *able* using the Direct Instruction Model (DIM)

Step 2: Comprehension

Inquiry Question: How do you sit while reading?

1. Before Reading

Guide learners to read and discuss the title, pictures and make prediction in pairs using DIM.

2. During Reading

Guide learners to read the text, 'Kobe's new school using DIM.

3. After Reading

Guide learners to answer question on the text using DIM.

Step 3: Grammar

Guide learners to make sentences using verbs that show singular and plural subjects using DIM

Conclusion (Assessment of Learning)

Ask learners to make their own sentences using the verbs that show singular and plural subjects.

Check the learners work. Allow learners to ask questions for clarification. Gives homework activity.

Summary

Highlights key points of the lesson.

Extension Activities

Construct sentences based on the following words: *block*, *bring*, *able* and read to the parents at home.

(Page 285)

- a) Construct sentences about daily activities using subject-verb agreement correctly.

Learning Experiences

Attentive Listening (Page 268)

- Learners to respond to instructions through actions, orally and in writing.

Word reading (Page 287)

- Learners read words on print or digital format to get correct pronunciation as the teacher models.

Connected text and fluency (Page 288)

- Learners are guided to read in small groups and pairs

Language structures and functions

(Page 271 - 272)

- Learners construct sentences using singular and plural subjects for things at home and around their environment like animals and utensils.

Word reading (Page 287)

- Learners are guided on the five steps of the writing process: planning, drafting, revising editing and writing the final piece
- Learners filling in gaps correctly and sensibly
