

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Weather- responding to different weather conditions

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- State different weather conditions
- State ways of responding to different weather conditions
- Respond appropriately to different weather conditions to limit risk to self, others and the environment.
- Appreciate differences in weather conditions

KEY INQUIRY QUESTION (s)

- ❖ What are the different weather conditions?
- ❖ How could we respond to different weather conditions?

Core competencies	Values	PCIs
• Communication and collaboration • Imagination and creativity	• Respect • Unity • integrity	Health education Life skills Disaster risk education

LEARNING RESOURCES

Local environment, crayons and Coloured pencils

Real objects e.g. umbrella

Flash cards, video clips, learner's tablets

Learner's book page 3

Our lives today environmental activities Teachers guide pg. 2-4

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Ask learner's what they learnt in Grade one

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Give learner's time to recite the poem in activity 1 to help them recall what they learnt in grade 1.

Step 2: Take learners outside so that they can do activity 2.

Step 3: Use probing questions to know the observations the learners have of the day's weather.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer information about the weather condition of the day.

EXTENSION OF ACTIVITIES

Learners to observe pictures of different weather conditions.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- State different weather conditions
- State ways of responding to different weather conditions
- Respond appropriately to different weather conditions to limit risk to self, others and the environment.
- Appreciate differences in weather conditions

KEY INQUIRY QUESTION (s)

- ❖ What are the different weather conditions?
- ❖ How could we respond to different weather conditions?

Core competencies	Values	PCIs
• Communication and collaboration • Critical thinking	• Respect • cooperation	Health education Life skills Disaster risk education

LEARNING RESOURCES

Local environment, crayons and Coloured pencils

Real objects e.g. umbrella

Flash cards, video clips, learner's tablets

Learner's book page 4-5

Our lives today environmental activities Teachers guide pg. 4-5

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Ask learner's what they learnt in Grade one

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners through activity 3 and let them talk about the picture and listen to other's views.

Step 2: Guide learners through activity 4 and let learners observe one another and how they are dressed.

Step 3: Guide learners into discussing their dressing on that day in relation to the weather outside.

Step 4: Learners to observe pictures of children dressed in the appropriate attire for different weather. (activity 5)

Step 5: Guide learners to talk about what they wear in different weather conditions.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer information about the weather condition of the day.

EXTENSION OF ACTIVITIES

Learners to observe pictures of different weather conditions and write a journal.

REFLECTION ON THE LESSON/SELF-REMARKS

Real objects e.g. umbrella

Flash cards, video clips, learner's tablets

Learner's book page 7-8

Our lives today environmental activities Teachers guide pg. 5-6

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Ask learner's questions about what they have worn on this day.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Ask learners if what they have worn matches the weather condition for that day.

Step 2: Guide learners to look at the pictures under activity 8. Let them talk about the pictures and say what they see.

Step 3: Explain to the learners that we need to keep safe from harmful weather

Step 4: Show learners a video clip on what people in different places do in different weather.

Step 5: Guide learners to talk about how they should respond to different weather conditions.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to suggest activities they carry out during different weather.

EXTENSION OF ACTIVITIES

Learners to observe pictures of different weather conditions and write a journal.

REFLECTION ON THE LESSON/SELF-REMARKS

Learner's book page 8

Our lives today environmental activities Teachers guide pg. 6

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Ask learner's questions about what they have worn on this day.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Organize learners to perform a small skit on responding to weather

Step 2: Organize learners into groups one could be rain and the other thunder and others lightning.

Step 3: The rest of the group to show different responses to the weather conditions of the groups.

Step 4: Guide learners to talk about what they have learnt.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to suggest activities they carry out during different weather.

EXTENSION OF ACTIVITIES

Learners to engage their parents or guardians and find out about a bad weather event in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Weather- recording weather

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Describe weather conditions at different times of the day
- Draw weather symbols to represent various weather conditions
- Create a weather record using symbols for a period of one week
- Develop interest in recording weather conditions

KEY INQUIRY QUESTION (s)

- ❖ How is the weather today?
- ❖ What symbols are used to record weather conditions?
- ❖ How could we record weather conditions?

Core competencies	Values	PCIs
• Communication and collaboration • Critical thinking • Problem solving	• Respect	Health education Life skills Disaster risk education

LEARNING RESOURCES

Local environment, crayons and Coloured pencils

A weather chart

Flash cards, learner's tablets

Learner's book page 9-11

Our lives today environmental activities Teachers guide pg. 9-11

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Recap on the previous lesson and find out what learners can remember.

Step 2: Guide learners to look at the pictures on page 9 before embarking on activity 11

Step 3: Guide learners to follow the strings in order to identify the names of the weather symbols.

Step 4: Using flashcards introduce the learners to the weather symbols. Ask learners to draw the symbols in their exercise books.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to talk about the weather condition of the day.

EXTENSION OF ACTIVITIES

Learners to engage their parents or guardians and find out about a bad weather event in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

LEARNING RESOURCES

Local environment, Learners book

Real objects, pictures of water containers

Learners tablets, crayons and Coloured pencils

Learner's book page 17

Our lives today environmental activities Teachers guide pg. 19

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners to draw and show their work to their classmates. Provide them with manila papers and crayons or marker pens.

Step 2: Guide learners to discuss what they think about what their classmates have drawn.

Step 3: Guide learners to put their drawings on the classroom wall or take home and show parents.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Emphasize on the importance of storing water for later use.

EXTENSION OF ACTIVITIES

Learners to be assisted by their parents on the take home section.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES***SUBSTRAND/SUB-THEME/SUB-TOPIC:** Water- Transporting water**Specific lesson learning outcome.**

By the end of the lesson, the learner should be able to

- identify different ways of transporting water at home and school
- demonstrate suitable ways of carrying small quantities of water at home and school
- appreciate different means used in transporting water to school and home

KEY INQUIRY QUESTION (s)

❖ How is water transported at home and in school?

Core competencies	Values	PCIs
• Learning to learn • Digital literacy	• Respect • Unity	Disaster risk education

LEARNING RESOURCES

Water, drums

Pictures showing the various ways of storing water

Video clips of the various ways of storing water, learners' tablet

Learner's book page 18-20

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)**Step 1:** Do recap with the learners on what they have learnt about in the previous lesson.**Step 2:** summarize the topic by referring learners to the pictures or actual soil samples.**Step 3:** Guide learners through the summative exercise.**SUMMARY***Make summary notes/points*

CONCLUSION (Assessment of Learning)

Learners to play with soil for fun.

EXTENSION OF ACTIVITIES

Learners to observe the use of soil around the village with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: *Exploring parts of Plants*

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Identify parts of a plant
- Draw different parts of a plant from the immediate environment
- Show interest in parts of a plant for learning and enjoyment.

KEY INQUIRY QUESTION (s)

❖ What are the different parts of a plant?

Core competencies	Values	PCIs
• Learning to learn	• Respect • Unity	Citizenship

LEARNING RESOURCES

Real plants, photographs

Crayons and Coloured pencils

Learners' tablets

Learner's book page 26-31

Our lives today environmental activities Teachers guide pg. 33-37

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Do recap with the learners on what they have learnt about in the previous Grade.

Step 2: Guide learners to observe pictures in the learner's book and let them talk about them

Step 3: Ask learners to read out the parts. Write the names of the parts of a plant as the learners read them out.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to go out and collect some plants so that they can study it.

EXTENSION OF ACTIVITIES

Learners to observe different plants around the village with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners to discuss about domestic animals.

Step 2: Guide learners to form groups and do activity 6 by choosing one person in the group to read aloud what they have written

Step 3: Learners to do activity 7 and discuss what mother hen will do.

Step 4: Emphasize to learners that they should not do things that can make animals at home to hurt us.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to observe safety measures when handling animals around the village with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: *Animals-safety when handling animals*

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Identify possible dangers when handling animals
- Practice safety measures when handling animals
- Appreciate the importance of safety when dealing with animals to avoid risk to self, others and the animals.

KEY INQUIRY QUESTION (s)

❖ How could we protect ourselves from harm when handling animals?

Core competencies	Values	PCIs
• Learning to learn	• Respect	Safety and security

LEARNING RESOURCES

Pictures of the different types of animals, real animals

Photographs, resource person

Video clips of ways of handling animals safely

Learner's book page 37-42

Our lives today environmental activities Teachers guide pg. 44-47

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners to share their experience on how they treat animals at home.

Step 2: Guide learners to tell stories as others listen.

Step 3: Explain to learners that they should treat animals with respect.

Step 4: Organize learners in groups and let them read Juma's story in activity 9

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to always wash their hands after touching animals

EXTENSION OF ACTIVITIES

Learners to observe safety measures when handling animals around the village with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to study the poster that Amina and her friends made. Ask them to make observations about the poster.

Step 2: Give learners materials for making posters and guide them through the process.

Step 3: Learners to display their work on the classroom wall or noticeboard.

Step 4: Guide learners to share their experiences about the activity.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to observe safety measures when handling animals around the village with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Energy light-Sources of light

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Identify different sources of light in the environment
- Produce light using different objects for enjoyment
- Develop interest in using light energy appropriately

KEY INQUIRY QUESTION (s)

❖ What are the sources of light?

Core competencies	Values	PCIs
• Creativity and imagination • Communication and collaboration	• Respect • Unity • Responsibility	Safety and security Disaster risk education

LEARNING RESOURCES

Dictionary, charts

Local environment, pictures

Real objects such as a torch, candle, lamp

Video clips of sources of light

Learner's book page 43-57

Our lives today environmental activities Teachers guide pg. 50-55

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Do a recap of what the learners learnt in Grade one.

Step 2: Introduce the concept of light to the learners by using the sun and the moon as they already know about them

Step 3: Guide learners to observe the pictures on the learner's book page 43. Learners to attempt activity 1

Step 4: Guide learners as they do activity 2. Allow them to study the puzzle.

Step 5: After they have filled the puzzle learners to talk about other things that give them light.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to study what gives them light at home with the help of the parents.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *ENVIRONMENT AND ITS RESOURCES*

SUBSTRAND/SUB-THEME/SUB-TOPIC: *Energy light-Forming shadows*

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Explain how shadows are formed in presence of light
- Manipulate objects to form shadows in presence of light for enjoyment
- Categorize objects into those that can form shadows and those that cannot in presence of light.

KEY INQUIRY QUESTION (s)

- ❖ How are shadows formed?
- ❖ What objects form shadows?

Core competencies	Values	PCIs
• Communication and collaboration • Learning to learn	• Respect • Unity	Safety and security Disaster risk education

LEARNING RESOURCES

Dictionary, charts

Local environment, pictures, flash cards

Real objects such as bottles, sticks, desks

Sources of light such as a torch, sun or candle

Learner's book page 43-57

Our lives today environmental activities Teachers guide pg. 56-61

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do brainstorming activities with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Do recap of the previous lesson.

Step 2: Learners to observe the picture on page 49 of the learner's book

Step 3: Using the picture and the text provided introduce the learners to the concept of shadow.

Step 4: Guide learners to form groups and go outside the classroom to do activity 7

Step 5: Learners to talk and write about the shadows they have observed

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to study what gives them light at home with the help of the parents.
