SCHOOL YEAR REPORT BOOK FOR EARLY YEARS EDUCATION Lower Primary

National Goals of Education

The Framework will be anchored on the National Goals of Education.

Education in Kenya should:

1. Foster nationalism, patriotism, and promote national unity

Kenya's people belong to different communities, races and religions and should be able to live and interact as one people. Education should enable the learner acquire a sense of nationhood and patriotism. It should also promote peace and harmonious co-existence.

2. Promote social, economic, technological and industrial needs for national development

Education should prepare the learner to play an effective and productive role in the nation.

a) Social Needs

Education should instill social and adaptive skills in the learner for effective participation in the family, community, national, regional and international development.

b) Economic Needs

Education should prepare a learner with requisite competences that support a modern and independent growing economy. This should translate into high standards of living for every individual.

c) Technological and Industrial Needs

Education should develop in the learner necessary competences for technological and industrial development for the nation in tandem with global trends.

3. Promote individual development and self-fulfillment

**KENYA INSTITUTE OF CURRICULUM
DEVELOPMENT**

Shaping the Future of Learning

Education should provide opportunities for the learner to develop to the fullest potential. This includes development of one's interests, talents and character for positive contribution to the society.

4 Promote sound moral and religious values

Education should promote acquisition of national values as enshrined in the Kenya Constitution. It should be geared towards developing a self-disciplined and ethical citizen with sound moral and religious values.

5. Promote social equity and responsibility

Education should promote social equity and responsibility. It should provide inclusive and equitable access to quality and differentiated education; including for learners with special educational needs and disabilities. Education should also provide the learner with opportunities to develop and practice shared responsibility and accountability through community service learning.

6. Promote respect for and development of Kenya's rich and varied cultures

Education should instil in the learner appreciation of Kenya's rich and diverse cultural heritage. The learner should value own and respect other people's culture as well as embrace positive cultural practices in a dynamic society.

7. Promote international consciousness and foster positive attitudes towards other nations

Kenya is part of the interdependent network of diverse peoples and nations. Education should empower the learner to respect, appreciate and participate in the opportunities within

the international community. Education should also enable the learner to operate within the international community with full knowledge of the obligations, responsibilities, rights and benefits that this membership entails.

8. Promote positive attitudes towards good health and environmental protection

Education should inculcate in the learner the value of physical and psycho-social well-being for self and others. It should promote environmental preservation and conservation, including animal welfare, for sustainable development.

A competency based curriculum has the following strengths:

1. Learner-focused

The focus should be less on the school and the system and more on the education and the learner. The curriculum should be responsive and relevant to learners and enable flexibility for teachers – who are designers of learning opportunities – to enable them to meet the diverse needs of the students.

2. Focus on Competencies

More focus should be directed to competencies and less on content. The goal should be the appropriate application of knowledge, and not necessarily just its acquisition. This kind of curriculum enables the creation of meaningful connections within and among subject areas by focusing on competencies. Subjects/subjects/disciplines will continue to be taught and will be the vehicle through which literacy, numeracy and other competencies are developed over time.

3. Opportunities for Local Decision Making and Greater Depth of Study

Prescriptive curricula with limited flexibility should be avoided, as should programs that have fewer learning outcomes. The goal is to enable greater flexibility at the local level. Teachers will have autonomy in implementing the curriculum while teaching.

4. Balance Between Formative and Summative Assessment

Too much focus on summative assessment should be avoided. A range of assessment that focuses on the development of student learning outcomes, cross-curricular competencies, and literacy and numeracy should be adopted.

5. Digitally Based

The design of the curriculum within a collaborative digital application enables it to be improved continuously and supports learning with flexible timing and pacing through a range of learning environments.

6. Collaborative and Co-development Models

Collaboration by all stakeholders in the curriculum design should be the norm. Co-creation of the curriculum with partners and stakeholders taps into local expertise to enhance its design and development. Content delivery will be flexible and exploratory.

7. Synchronous Development

Sequential development needs to be replaced with synchronous development. An integrated approach to develop programmes of study, assessments, and learning and teaching resources supports a common approach that encourages interdisciplinary learning.

Basic Education Curriculum Framework Core Competencies

1. Communication and Collaboration

KENYA INSTITUTE OF CURRICULUM
DEVELOPMENT

Curriculum Development Strategy

2. Self-efficacy
3. Critical Thinking and Problem Solving
4. Creativity and Imagination
5. Citizenship
6. Digital Literacy
7. Learning to Learn

SCHOOL YEAR REPORT FOR EARLY YEARS OF EDUCATION

1. GENERAL INFORMATION

YEAR:				
NAME OF SCHOOL:			MOE SCHOOL CODE:	
LEARNER'S NAME:			DATE OF BIRTH:	
ADMISSION NUMBER:			ATTENDANCE	
NEMIS NUMBER:			TERMS	T1
LEARNER'S GRADE:			T2	T3
			No. of Days Absent	

The teacher should record the learner's achievement level for each learning area using the rating in the table.

PERFORMANCE LEVEL	RATING
Exceeding Expectation	4
Meeting Expectation	3
Approaching Expectation	2
Below Expectation	1

2. LEARNER'S ACHIEVEMENT

LEARNING AREAS				TERM
Mathematics Activities	1	2	3	Teacher's Statement on Learner's Performance
Numbers				
Measurement				
Geometry				

Language Activities	T1	T2	T3	Teacher's Statement on Learner's Performance
English Activities				
Listening and Speaking				
Reading				
Writing				

Kiswahili Activities	1	2	3	Teacher's Statement on Learner's Performance
Kusikiliza na kuzungumuza				
Kusoma				
Kuandika				

Environment Activities	1	2	3	Teacher's Statement on Learner's Performance
Environmental and its resources				
Social Environment				
Caring for the environment				

LEARNING AREAS	TERM			
Hygiene and Nutrition Activities	1	2	3	Teacher's Statement on Learner's Performance
Health Practices				
Personal Hygiene				
Food and Nutrition				
Safety Education				
Consumer Education				

Religious Activities	1	2	3	Teacher's Statement on Learner's Performance
Christian Religious Activities				
Creation				
The Holy Bible				
The Early life of Jesus Christ				
Christian Values				

Movement and Creative Activities	1	2	3	Teacher's Statement on Learner's Performance
Movement				
Basic Motor Skills				
Swimming				
Gymnastics				

Art and Craft	1	2	3	Teacher's Statement on Learner's Performance
Drawing				
Paint and Colour				
Pattern Making				
Paper Craft				
Weaving				
Mounting Technique				
Decoration Forms				
Ornaments				
Fabric Decoration				
Modelling				
Sculpture				

Learner's Conduct and Behaviour

Attributes/Area	Teacher's Comments
Classroom conduct	
Work completion	
Working with others	

Class Teacher's Feedback on Learner's acquisition of Values.

(Responsibility, Respect, Excellence, Care and Compassion, Understanding and Tolerance, Honesty and Trustworthy, Trust and Being Ethical)

Evidence of Participation in Community Service Learning.

KENYA INSTITUTE OF CURRICULUM
DEVELOPMENT

2014-2015 Curriculum Strategy

ICT INTEGRATION IN EDUCATION

- ICT integration is the use of ICTs during the learning process to enhance the attainment of learning outcomes and appropriate competencies, namely, knowledge, skills, attitudes and values.
- It is the seamless incorporation of technology to support and enhance student engagement in meaningful learning and attainment of curriculum objectives as part of the daily activities taking place in the classroom.

ICT tools that can be used during the learning process:

- Phone
- Camera
- Computer
- Laptop
- Projector
- Radio and TV - KICD radio prog.s - KBC and on KEC
www.kicd.ac.ke
- Tablets - DLP devices with content
- DVDs/CDs
- Flash discs
- Memory cards
- External hard discs
- Data cables

BENEFITS / ADVANTAGES OF ICT IN SCHOOL

- Improvement in student achievement; - rapid expansion of knowledge leading to improved examinations outcomes

- Improved learning by raising curiosity and cultivating innovation- The inclusion of technology in the learning process makes learning an enjoyable activity, thus inviting greater interest from the learners.
- Technological literacy among students- If they are trained during their school years, they have a high chance of becoming experts in technology.
- Expanding educational access to remote communities that were formerly deprived of education due to distance, culture, economic needs or gender disparities;
- Students with special needs - assistive technology- interactive content for visually impaired pupils
- The administration processes, the official procedures of the school can be simplified by the means of technology. School records, the information about all the students and the teachers and other school employees can efficiently be maintained by means of the advanced technology.
- Prepare students for the world work (work force skills)-As technology is bound to rule our present and future, it is good to obtain know-how of the technological reforms at the earliest. Children learn faster and can adapt to changes relatively easily

GREAT TEACHING INVOLVES

Model 3: Technological Pedagogical Content Knowledge model (TPACK)
