VALUES BASED EDUCATION

**Thomas Lickona (1991) says,
that**

**character education is the
deliberate effort to help people
understand, care about, and act
upon core ethical values.”**

In the book, *Educating for Character*, he argues that :

When we think about the kind of character we want for our children, it is clear that we want them to be able to;

- ☐ **judge what is right**
- ☐ **care deeply about what is right,**
- ☐ **do what they believe to be right, even in the face of pressure from without and temptation from within.”**

WHAT IS VALUES BASED EDUCATION?

WHY VBE?

-
- ❑ In African traditional society, values were instilled in children through informal education.
 - ❑ However, many children in Kenya today, are growing up without values and psychosocial competences (Life Skills) which are needed to function as responsible citizens.
 - ❑ This to a large extent has led to the noticeable national values and behavioural crisis amongst the adults and young people today.

What are value

❑ Values are principles, ideologies, convictions or standards that influence a person's or community's behaviour or actions in any situation.

❑ Values are the inner drive that explain why a person behave or do what they do. They determine what a person considers important in life.

- ❑ When combined with knowledge, correct attitudes and life skills, values are what sustain a person's conduct/behaviour.
- ❑ So Values are important and lasting beliefs or ideals shared by the members of a culture about what is good or bad and desirable or undesirable.

When riding a bike,
What values are learned?

Which values do you think one can catch?

- ☐ This allows combination of practice and instruction.
- ☐ Learners learn what values are
- ☐ how to recognize them
- ☐ and how people react to them, equipping them with invaluable social skills and emotional intelligence.

WHAT IS VALUE -BASED EDUCATION (VbE)?

- ☐ It is an approach to teaching that works with values.
- ☐ It creates a strong learning environment that enhances academic attainment
- ☐ Develops learners social and relationship skills that last throughout their lives.

- ❑ VbE equips learners with social capacities that help them work with, and relate to others effectively.
- ❑ It provides them with the self-esteem and confidence to explore and develop their full potential.
- ❑ It leaves no learners behind, irrespective of their background.

VALUE-BASED EDUCATION OR VALUES EDUCATION

VALUE-BASED EDUCATION (VBE)

- ❑ We say that a school or setting is value-based when it underpins all its practices and routines on a set of universal positive human values

VALUES EDUCATION (VE)

- ❑ Values Education refers to the aspect of the curriculum that is designed to enable pupils to learn about and experience the school's or setting's values.

CONT.....

VBE

- ❑ Adopts a holistic approach in the implementation of Values-based Education (VBE) to support the learners to develop physically, spiritually, socially, intellectually and emotionally.

VE

- ❑ This includes lessons and activities that support the learning about values.

VBE

- ❑ Value-based Education helps learners and adults embed those values into their lives, personal behaviour and social interactions.
- ❑ It establishes a parallel system of learners achievement based on their values and behaviour, complementing the more limited assessment of academic attainment.

VE

- ❑ Values Education helps learners understand what values are.

WHY IS VbE IMPORTANT?

- ☐ In a Values-based school, children develop a secure sense of self.
- ☐ They become more empowered to take responsibility for their own learning.
- ☐ develop academic diligence when they are involved with a Values-based school.
- ☐ They develop relational trust.
- ☐ They become articulate and able to talk freely and well.
- ☐ Through silence, quietness and reflectional techniques of the Values-based framework, children can understand much more deeply their work and their lives.

There are 8 core values in the CBC designs

1. Respect

2. Patriotism

3. Social Justice

4. Unity

5. Love

6. Responsibility

7. Peace

8. Integrity

Current KICD Value Based Education Core Values

Respect

- Respect is acceptance of self and others for who you/they are. It is about being true to our nature and to those around us. It requires a level of open-mindedness and willingness to understand others. Recognizing, respecting and celebrating the diversity in others produces trust, confidence and unity.
- Other Values related to respect include Tolerance, human, Dignity

Patriotism

- Patriotism is love, loyalty and devotion shown to one's country.
- It can support other values such as Democracy and Rule of law

Social Justice

- Refers to the idea of creating a society that is based on the principles of equality and solidarity, that understands and values human rights, and that recognizes the dignity of every human being
- It encompasses other values such as Equity, equality, human rights

Unity

- Unity is harmony within and among individuals in a group. It is built from a shared vision, hope or cause for the common good.
- Non – discrimination, inclusiveness, appreciating diversity
- Love: This is the way one values something. When one shows love, one respects, maintains peace

Responsibility

- Recognizing your role and function within a given group or space, and carrying it out to the best of your ability.
- It calls for Accountability, care for self, others, animals, environment, property, community service

Peace

- It's a state of harmony that fosters understanding, relationships and collaboration amongst people.
- It incorporates other values such as Compassion, Care, Love and Empathy.

Integrity

Integrity is choosing your thoughts, words and actions based on your values and not personal gain.

It incorporates other values such as Honesty, trustworthiness, transparency.

EXAMPLES OF VALUES IN THE GRADE FOUR DESIGNS

STRAND 2 :HOLY BIBLE

SUBSRAND 2.2.2:BALAAM'S DONKEY

LEARNING OUTCOME :By the end of the substrand;learners should be able to:

C)Acquire the value of love by speaking good things about others

LEARNING EXPERIENCE: Learners to be guided to; discuss why they should bless and not curse /speak ill of others

SOCIAL STUDIES

STRAND: 3.0 CULTURE AND SOCIAL ORGANIZATION

SUBSTRAND 3.2: THE SCHOOL

LEARNING OUTCOME: By the end of the sub strand; learners should be able to;

D)Uphold the core values of the school

LEARNING EXPERIENCE: Learners to be guided to ;Sing songs on the school achievements

STRAND: 1.0 NATURAL AND BUILT ENVIRONMENTS

SUBSTRAND 1.2: Historic built environment in the county

LEARNING OUTCOME: By the end of the sub strand; learners should be able to;

C)State ways of caring for the historic and built in environment in the county

LEARNING EXPERIENCE: Learners to be guided to; Participate in caring for historic built environments within the locality as a service learning

STRAND: 4.0:Resources and economic activities

SUBSTRAND 4.1:Enterprise project at school

LEARNING OUTCOME: By the end of the sub strand; learners should be able to;

B)Actively participate in an enterprise project at the school

LEARNING EXPERIENCE: Learners to be guided to; share responsibilities on the planned project money

**Great leaders don't tell you what
to do....they show you how its done**

CONCLUSION

“Children adopt the values they experience, not the values that are dictated to them” Dr. Neil Hawkes

THANK YOU
