

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept (Reading Numbers)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to read number symbols up to 100.

KEY INQUIRY QUESTION (s)

How do you read number symbols?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Videos

Audios

Number cards

Number charts

Mathematics pupil's book 2 pg.134

Mathematics teachers guide grade 2 pg. 158

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to read number symbols up to 80

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read number symbols 1 up to 100 on a number chart.

Step 2: Learners in pairs or groups to read numbers in symbols, 1 up to 100 on a chart. Learners listen to audio on reading of numbers.

Step 3: Learners to do activities in pupil's book page 134.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to read numbers from their tables.

EXTENSION OF ACTIVITIES

Learners to read number charts, page numbers of religious books in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept

Specific lesson learning outcome.

By the end of the lesson, the learner should be to represent numbers up to 100 using objects.

KEY INQUIRY QUESTION (s)

How do you represent numbers using objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Videos

Audios

Number cards

Number charts

Mathematics pupil's book 2 pg.135

Mathematics teachers guide grade 2 pg. 159

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to represent numbers up to 80 using objects.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how represent numbers using objects.

Step 2: Guide learners in pairs or groups to represent numbers using objects as they fill in the table.

Step 3: Learners to do activities in pupil's book page 135.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to use number cards to represent objects drawn on a chart.

EXTENSION OF ACTIVITIES

Learners to represent numbers using objects both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Whole numbers

Specific lesson learning outcome.

By the end of the lesson, the learner should be to count in 10's up to 100 forward and backward.

KEY INQUIRY QUESTION (s)

How do you count numbers forward and backward?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counters

Bottles

Sticks, straws, stones, books, pencils.

Mathematics pupil's book 2 pg.137

Mathematics teachers guide grade 2 pg. 161

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to count 10's up to 80 forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how count in 10's up to 100 forward and backward.

Step 2: Guide learners in pairs or groups to count in 10's up to 100 forward and backward starting from any point using counters.

Step 3: Learners to do activities in pupil's book page 137.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to play a game involving counting in 10's.

EXTENSION OF ACTIVITIES

Learners to practice counting in 10's in school, at home and in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: whole numbers

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify place value of digits in numbers up to hundreds.

KEY INQUIRY QUESTION (s)

How do you identify the position of a digit in a number?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Abacus

Rings

Bottle tops, beads

Mathematics pupil's book 2 pg.138

Mathematics teachers guide grade 2 pg. 162

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to identify place value of digits in numbers up to tens using number tins.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to represent the place value of 100 using abacus.

Step 2: Guide learners in pairs or groups to represent the place value of digits in numbers using abacus.

Step 3: Learners to do activities in pupil's book page 138.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners in turns to represent place value of digits in numbers using abacus.

EXTENSION OF ACTIVITIES

Learners to represent place value of digits in numbers using abacus by recording the number of chairs, number of cows and number of learners in a class.

REFLECTION ON THE LESSON/SELF-REMARKS

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: whole numbers

Specific lesson learning outcome.

By the end of the lesson, the learner should be to read and write number symbols up to 100.

KEY INQUIRY QUESTION (s)

How do you read and write numbers?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number chart

Number cards

Video clips

Mathematics pupil's book 2 pg.139

Mathematics teachers guide grade 2 pg. 163

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to read and write number symbols up to 80.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read and write numbers 1 up to 100 using number charts and number cards.

Step 2: Guide learners in pairs or groups to read and write numbers up to 100 using number cards.

Step 3: Learners to do activities in pupil's book page 139.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to read and write number symbols up to 100.

EXTENSION OF ACTIVITIES

Learners to read and write number symbols in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *NUMBERS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: *whole numbers*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to read and write number up to 20 in words.

KEY INQUIRY QUESTION (s)

How do you read and write numbers in words?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Cards with numerals and words

Video clips

Mathematics pupil's book 2 pg.140

Mathematics teachers guide grade 2 pg. 164

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to answer questions on how to write 11 up to 15 in words.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read and write numbers 1 up to 20 in words with more emphasis on 16 to 20. Pick, flash, read and write numbers in words one number at a time.

Step 2: Guide learners in pairs or groups to read and write numbers 1 up to 20 in words using number cards.

Step 3: Learners to do activities in pupil's book page 140.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to pick, read and write numbers up to 20 in words.

EXTENSION OF ACTIVITIES

Learners to prepare cards with numerals and words using papers. Read them to their peers during play and to family members.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: whole numbers

Specific lesson learning outcome.

By the end of the lesson, the learner should be to work out missing numbers in patterns up to 100 in 2's.

KEY INQUIRY QUESTION (s)

How do you complete number patterns?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Cards with numerals and words.

Video clips.

Balloons.

Mathematics pupil's book 2 pg.141.

Mathematics teachers guide grade 2 pg. 165.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count in 2's up to 80 both forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write 77, 79, 81, 83, _____, 87 and 92, 90, 88, 86, _____, 82.

Step 2: Show learners how to identify the rule of the pattern and work out missing numbers in the pattern.

Step 3: Guide learners in pairs or groups to work out missing numbers in patterns up to 100.

Step 4: Learners to do activities in pupil's book page 141.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Display an incomplete number pattern chart on the board, learners establish a rule for the pattern and then pick number cards from a box to complete the pattern.

EXTENSION OF ACTIVITIES

Learners to play digital games involving number patterns both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Fractions

Specific lesson learning outcome.

By the end of the lesson, the learner should be to compare a half and a quarter as part of a whole.

KEY INQUIRY QUESTION (s)

What is the difference between a quarter and a half as part of a whole?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs

Manila papers

Mathematics pupil's book 2 pg.143

Mathematics teachers guide grade 2 pg. 168

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to identify a half and a quarter as part of a whole.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to compare a half and a quarter as parts of a whole using equal size of circular paper cut-outs by folding.

Step 2: Guide learners in pairs or groups to compare a half and a quarter by using circular paper cut-outs.

Step 3: Learners to do activities in pupil's book page 143.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to compare a half and a quarter as parts of a whole.

EXTENSION OF ACTIVITIES

Learners to compare a half and a quarter as parts of a whole in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Fractions

Specific lesson learning outcome.

By the end of the lesson, the learner should be to form a half using quarters of a whole.

KEY INQUIRY QUESTION (s)

How do you form a half using parts of a whole?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of different sizes

Manila papers, felt pens

Mathematics pupil's book 2 pg.145

Mathematics teachers guide grade 2 pg. 170

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to answer questions on how they share whole items in school, at home and in the community.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to form a half using quarters of circular paper cut-outs by pairing and sticking on Manila paper.

Step 2: Guide learners in pairs or groups to form halves from quarters of circular paper cut-outs by pairing and sticking on a manila paper.

Step 3: Learners to do activities in pupil's book page 145.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to display halves of a whole formed from quarters

EXTENSION OF ACTIVITIES

Learners to form patterns of halves by combining quarters of different colours and sizes in the environment.

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Fractions

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify $\frac{1}{2}$ and $\frac{1}{4}$ as part of a whole.

KEY INQUIRY QUESTION (s)

How do you identify $\frac{1}{2}$ and $\frac{1}{4}$?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of different sizes.

Manila papers, felt pens.

Mathematics pupil's book 2 pg.146.

Mathematics teachers guide grade 2 pg. 171.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to represent a half and a quarter using $\frac{1}{2}$ and $\frac{1}{4}$.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to differentiate $\frac{1}{2}$ and $\frac{1}{4}$ using paper cut-outs.

Step 2: Guide learners in pairs or groups to identify $\frac{1}{2}$ and $\frac{1}{4}$ using assorted paper cut-outs and sticking on a manila paper.

Step 3: Learners to do activities in pupil's book page 146.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to sort out halves and quarters

EXTENSION OF ACTIVITIES

Learners to identify how $\frac{1}{2}$ and $\frac{1}{4}$ as symbols are used in day to day activities in the environment.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Addition

Specific lesson learning outcome.

By the end of the lesson, the learner should be to add a 2-digit number to a 2-digit number up to a sum of 100 without regrouping vertically.

KEY INQUIRY QUESTION (s)

How do you add a 2-digit number to a 2-digit number?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Basic addition facts table.

Counters.

Place value apparatus.

Mathematics pupil's book 2 pg.147

Mathematics teachers guide grade 2 pg. 173

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to add a 2-digit number to a 2-digit number up to a sum of 50.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write $\begin{array}{r} 56 \\ + 43 \\ \hline \end{array}$

_____ Show learners how to add 6 ones to 3 ones to get 9 ones and then write 9 in the ones place. Add 5 tens to 4

Tens to 9 tens then write 9 in the tens place

Step 2: Write $\begin{array}{r} 63 \\ + 43 \\ \hline \end{array}$

$$\begin{array}{r} \text{_____} \\ + 25 \\ \hline \end{array}$$

Guide learners in pairs or groups to work out.

Step 3: Learners to do activities in pupil's book page 147.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to add a 2-digit number to a 2-digit number up to a sum of 100 without regrouping vertically.

EXTENSION OF ACTIVITIES

Learners to practice addition of up to 2-digit numbers with their family members.

REFLECTION ON THE LESSON/SELF-REMARKS

How do you subtract a 2-digit number from a 2-digit number using the relationship between addition and subtraction?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counters

Mathematics pupil's book 2 pg.153

Mathematics teachers guide grade 2 pg. 184

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to add and subtract single digit numbers.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write $25 + 34 = 59$ and $34 + 25 = 59$

$59 - \square = 34$ and $59 - \square = 25$

Show learners how to write the two subtraction facts. Explain to the learners that numbers 25, 34 and 59 are a number fact family

Step 2: Write $61 - \square = 76$ and $15 + 61 = 76$

Guide learners in pairs or groups to use $61 + 15 = 76$ and $15 + 61 = 76$ to work out the related subtraction sentences.

Step 3: Learners to do activities in pupil's book page 153.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to subtract a 2-digit number from a 2-digit number using the relationship between addition and subtraction.

EXTENSION OF ACTIVITIES

Learners to practice subtraction of a 2-digit number from a 2-digit number using the relationship between addition and subtraction with their family members.

Mathematics teachers guide grade 2 pg. 186-187

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to subtract a 1-digit number from a 2-digit number

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write the pattern 79, 76, 73, _____

Show learners how to work out the missing number in the pattern 79, 76, 73, _____ by subtracting 3 from a number to get the next number

$$79 - 3 = 76$$

$$76 - 3 = 73$$

$$73 - 3 = 70$$

The missing number is 70

Step 2: Write the pattern 87, 85, 83, _____

Guide learners in pairs or groups to work out the missing number in the pattern 87, 85, 83, _____

Step 3: Learners to do activities in pupil's book page 155.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to work out missing numbers in patterns involving subtraction from 1 up to 100.

EXTENSION OF ACTIVITIES

Learners to practice working out missing numbers with their family members.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Mass

Specific lesson learning outcome.

By the end of the lesson, the learner should be to compare mass using 1-kg mass.

KEY INQUIRY QUESTION (s)

How do you compare the mass of two objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

1-kg mass

Exercise books, textbooks

Pieces of chalk

Mathematics pupil's book 2 pg.162

Mathematics teachers guide grade 2 pg. 197

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to compare mass of objects using heavier than, lighter than or same as.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using a beam balance, show learners how to compare the mass of a textbook with that of a 1-kg mass using the words heavier than, lighter than or same as.

Step 2: Guide learners in pairs or groups to compare mass of objects with the 1-kg mass using a beam balance. Learners to use the words heavier than, lighter than or same as and share the results with the other groups.

Step 3: Learners to do activities in pupil's book page 162.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to classify objects such as textbooks and bas as “heavier than”, “lighter than” or “same as” the 1-kg mass.

EXTENSION OF ACTIVITIES

Learners to compare the mass of objects with 1-kg mass at home.

Sticks, bottles

Crayons, chalk and charcoal

Mathematics pupil's book 2 pg.172

Mathematics teachers guide grade 2 pg. 212

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to draw curved lines in the air.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to draw curved lines using pieces of sticks, crayons or chalk or charcoal.

Step 2: Guide learners in pairs or groups to draw curved lines using pieces of sticks or crayons or chalk or charcoal.

Step 3: Learners to do activities in pupil's book page 172.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to draw curved lines in their exercise books.

EXTENSION OF ACTIVITIES

Learners to practice drawing curved lines in school, at home and in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: GEOMETRY

SUBSTRAND/SUB-THEME/SUB-TOPIC: Shapes

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify squares.

KEY INQUIRY QUESTION (s)

How do squares look like?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of rectangles

Triangles, circles, ovals and squares.

Mathematics pupil's book 2 pg.173

Mathematics teachers guide grade 2 pg. 214

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to identify ovals in the classroom.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using paper cut-outs, show learners how a square looks like.

Step 2: Guide learners in pairs or groups to identify squares from among other shapes.

Step 3: Learners to do activities in pupil's book page 173.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to pick and stick on the board paper cut outs with square shapes from a box with assorted shapes.

EXTENSION OF ACTIVITIES

Learners to sort, group and name triangular, circular, rectangular, oval and square objects in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: GEOMETRY

SUBSTRAND/SUB-THEME/SUB-TOPIC: Shapes

Specific lesson learning outcome.

By the end of the lesson, the learner should be to make patterns using circles, triangles, rectangles, ovals and squares..

KEY INQUIRY QUESTION (s)

How do you make patterns using shapes?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of rectangles

Triangles, circles, ovals and squares.

Mathematics pupil's book 2 pg.174

Mathematics teachers guide grade 2 pg. 215

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to identify ovals in the classroom.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using paper cut-outs of different shapes show learners how to make patterns.

Draw rectangle, oval, rectangle, oval.....

Draw square, triangle, circle, square, triangle....

Draw triangle, circle, square, oval, triangle, circle, square, oval....

Step 2: Guide learners in pairs or groups to make patterns using paper cut-outs of circles, triangles, rectangles, ovals and squares on a manila paper.

Step 3: Learners to do activities in pupil's book page 174.

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to display the patterns made in the learners corner

EXTENSION OF ACTIVITIES

Learners to make patterns and stick them on walls in class and at their homes.
