

**VALUES BASED EDUCATION PAPER
PRESENTED DURING THE MASTER
TRAINERS TRAINING AT CEMASTE
DEC 2019
BY
GRACE NGUGI MAINA.**

**What's the point of education
if you still throw garbage on street
to be ultimately picked by an
uneducated person?**

- **What do you think is going on in the mind of the young girl?**
- **WHY?**
- **What other examples would you give about the behaviours of Kenyans that show low levels of values? Why ?**

INTRODUCTION

- In Kenya, there is a noticeable values and behavioural crisis among the general population and young people in particular.
- Many youngsters are growing up without the desired values, positive attitudes and psychosocial competencies needed to function as responsible citizens.
- The primary responsibility for nurturing values rests with parents and the community, but education too has an important role to play in this regard.
- The BECF recognizes that values are important to the socio-economic development and stability of the country, in the same way that competencies in academics are important.
-

- **The Basic education curriculum framework, vision and mission are supported by three important pillars; Values, Theoretical approaches and Guiding principles.**
- **Values are also stipulated in the CBC Vision. An Engage, Empowered and Ethical citizen**
- **Values are also explicitly and implicitly highlighted in the National goals of Education and in the level outcomes in the EYE and middle school general. A good number of Learning areas have expected learning outcomes that focus on values or character formation of the learner.**

Meaning of Values

- **Values are defined as standards that guide an individual on how to respond or behave in a given circumstance. They influence how we feel, act and make choices in life.**
- **In Sub-Saharan Africa, scholars have argued that the way ethnic groups interact has been responsible for Africa's low economic growth, political instability and conflict, high inequality, and low provision of public goods.**
- **The teaching of values will facilitate the achievement of the curriculum reforms' vision, particularly with respect to moulding ethical citizens.**

OVERALL GOAL of values based education

- **To nurture values in learners to become empowered, engaged and ethical citizens for positive and holistic transformation of society.**

GENERAL LEARNING OUTCOMES FOR VALUE BASED EDUCATION

Value based education aims to enable the learner to:

- a) Possess a secure sense of personal identity for self-fulfilment and development.**
- b) Demonstrate cultural, moral and religious consciousness in their day to day life.**
- c) Demonstrate empathy and respect for diverse groups of people for harmonious relationships**

- a) Practice ethical behaviour to foster responsible citizenship and good governance.**
- b) Apply critical thinking and creative growth mind set thinking skills in finding ethical solutions to challenges in society.**
- c) Demonstrate stewardship of resources and environment for sustainable development**

- Exercise on mainstreaming values in the curriculum and learning activities
- Identify one National goal of Kenya and link it to the general level outcomes of EYE and Middle school. Identify one general learning outcome in your learning area.
- Suggest the value to be acquired and nurtured and, identify the plug in point in one of the strands. Generate an activity to be undertaken during the learning experiences. **(Formal dimension)**
- Suggest non-formal activity or programme that the value you identified can be mainstreamed. **(Non-formal dimension)**
- Identify an informal scenario that would promote nurturing and promotion of the value under the discussion. **(Informal dimension)**

GUIDING PRINCIPLES FOR VALUES BASED EDUCATION

- **1. Whole School Approach (WSA)**
- **VBE will be implemented through whole-school approach which: involves learners, teachers, support staff, Board of Management, family members, wider school community and relevant stakeholders.**
- **VBE will be mainstreamed in the formal, non-formal informal dimensions of education, pedagogy, curriculum materials, co-curricular activities, instructional supervision and teacher management, schools policies.**

- VBE thro the WSA is a strategy that recognizes the effectiveness of mobilizing the entire school community and its resources towards improving the wellbeing of the learner and the community.
- Sensitization of parents on VBE is key in ensuring that parents: demonstrate value-based behavior at home and create a secure and safe home environment.
- Schools must practice what they teach; values and social skills are reinforced in action and consequently caught rather than taught.

2.Holistic approach

- **VBE adopts a holistic approach in its implementation**
- **It aims to support the learner to develop physically, spiritually, socially, intellectually and emotionally.**
- **This will thus call for interdisciplinary approach in the delivery.**

3.Learning environment

- **VBE should be implemented in a safe, supportive and conducive learning environment supported by a caring community.**
- **Every child shall learn in an environment that is socially facilitative, physically supportive and safe, emotionally secure and psychologically enabling.**

4.Capacity Building

- **Values Based Education will be delivered by trained and resourced persons who can use appropriate and variety of approaches.**
- **They will require continuous professional development & adequate resourcing of all stakeholders for efficient and effective implementation**

5.Relevance to local and global perspectives

- **Values Based Education will operate under a framework of common conceptual understanding.**
- **Therefore, it shall respect the learners age & grade levels; local, national & global contexts; while adopting ethical and healthy practices.**

6.Transformative Leadership

- **The success of Values Based Education requires visionary, committed & inspiring leadership at all levels of the education system.**
- **Such leadership will model and consistently articulate the Values as an everyday practice.**

7. Monitoring, Evaluation, Research & Learning

- **VBE recognizes that the context within which it is implemented is dynamic.**
- **There will be need for continuous monitoring, evaluation, research & learning for enrichment & improvement.**

CORE VALUES

☐ LOVE

- The family and school community have an obligation to create an environment where children feel loved and appreciated

☐ RESPONSIBILITY

- The family & school community have an obligation to

☐ **Respect**

- **Respect is having positive regard towards self and others without prejudice.**
- **A respectful person exhibits a level of open-mindedness and willingness to understand and appreciate others.**

□UNITY

- **Unity is the ability to live together harmoniously regardless of social, cultural, racial, religious, economic and political differences.**
- **It is the recognition of the importance of working with other people towards a common goal.**
- **Nurturing the Value of unity among learners and members of school community will enhance togetherness and unity of purpose regardless of their diverse backgrounds**

Peace

- **Peace is a state of tranquility & harmony with oneself & among people.**
- **The Value of peace enables an individual to remain calm always regardless of the circumstances around them.**
- **The Value of peace fosters self- awareness and esteem; healthy relationships and collaboration amongst people**

☐ Patriotism

- **Patriotism refers to loyalty, love and devotion for one's country or nation.**
- **A patriotic individual is proud of their country, readily and competently performs their duties as a citizen.**
- **Patriotism calls for readiness to defend one's country, obey its laws and respect fellow citizens.**
- **Parents, teachers and other adults in the community should model and nurture patriotism in children**

❑ Social Justice

- **Social justice refers to fair treatment of each other and promotion of equity. It is about creating a society that is based on the principles of respect for human dignity, equity, solidarity and elimination of inequalities.**
- **It calls for fair and proper administration of laws and privileges to people irrespective prejudices such as ethnicity, age, gender, status, race, or religion.**
- **Vbe will foster fairness and justice among members of the school community thereby enabling the learners to be agents and advocates of social justice for harmonious relationships in the society.**

□ Integrity

- **Integrity implies the ability to know, defend and do what is right always.**
- **A person of integrity exhibits commitment, courage and honesty and ethical conduct.**
- **For learners to nurture the Value of integrity, adults at home, school and wider community should model virtues such as honesty, discipline, transparency, fairness, accountability,**

Conclusion

Indeed ,we should take advantage of the fact that learners spend most of their formative years in school, which presents opportunities for the curriculum to mould and reinforce values upon which the learner's character is formed.

THE END!
