

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS**SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept (Reading Numbers)****Specific lesson learning outcome.**

By the end of the lesson, the learner should be to read number symbols up to 20.

KEY INQUIRY QUESTION (s)

How do you read number symbols?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Videos.

Audios.

Number cards.

Number charts.

Mathematics pupil's book 2 pg.2.

Mathematics teachers guide grade 2 pg. 3

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sing a song on numbers for example, I am number 1, I have come to dance.

LESSON DEVELOPMENT (Assessment as learning)**Step 1:** Show learners how to read number symbols 1 up to 20 on number cards.**Step 2:** Learners in pairs or groups to read numbers in symbols, 1 u to 20 on number cards. Learners listen to audio on reading of numbers.**Step 3:** Learners to do activities in pupil's book page 2.**SUMMARY**

Review the lesson on reading numbers

CONCLUSION (Assessment of Learning)

Learners to sing a song on numbers for example (girls sing odd numbers and boys sing even numbers)

EXTENSION OF ACTIVITIES

Learners to sing songs involving numbers in school and at home, for example during play activities.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS**SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept (Reading Numbers)****Specific lesson learning outcome.**

By the end of the lesson, the learner should be to read number symbols up to 50.

KEY INQUIRY QUESTION (s)

How do you read number symbols?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Videos.

Audios.

Number cards.

Number charts.

Mathematics Activities pupil's book 2 pg.3

Mathematics teachers guide grade 2 pg. 4

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to sing a song on numbers for example, I am number 1, I have come to dance...

LESSON DEVELOPMENT (Assessment as learning)**Step 1:** Show learners how to read number symbols 1 up to 50.**Step 2:** Learners in pairs or groups to read numbers in symbols, 1 up to 50. Learners listen to watch a video on counting numbers.**Step 3:** Learners to do activities in pupil's book page 3.**SUMMARY**

Review the lesson on reading numbers

CONCLUSION (Assessment of Learning)

Learners to sing a song on numbers for example (girls sing odd numbers and boys sing even numbers)

EXTENSION OF ACTIVITIES

Learners to read page numbers in textbooks, religious books at school and at home

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Number concept (Numbers and objects)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to represent numbers up to 20 using objects.

KEY INQUIRY QUESTION (s)

How do you represent numbers using objects?

Core competencies	Values	PCIs
•	• Unity • Respect • Patriotism • responsibility	

LEARNING RESOURCES

Books.

Pencils.

Balls.

Bottle tops.

Mathematics Activities pupil's book 2 pg.4.

Mathematics teachers guide grade 2 pg. 5.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to answer questions on representation of numbers using objects. For example, how many gates, how many doors and/or windows are found at home, how many cups and plates.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how represent numbers 3 and 20 using objects.

Step 2: Draw a two column to represent objects and the corresponding number.

Step 3: Guide learners in pairs or groups to represent numbers using concrete objects. Guide learners to fill in the table.

Step 4: Learners to do activities in pupil's book page 4.

SUMMARY

Review the lesson on reading numbers

CONCLUSION (Assessment of Learning)

A few learners represent numbers using objects in front of the class.

EXTENSION OF ACTIVITIES

Learners to represent numbers using objects both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: *Number concept (Numbers using objects)*

Specific lesson learning outcome.

By the end of the lesson, the learner should be to represent numbers up to 50 using objects.

KEY INQUIRY QUESTION (s)

How do you represent numbers using objects?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Marbles.

Crayons.

Bottle tops

Mathematics Activities pupil's book 2 pg.6-7.

Mathematics teachers guide grade 2 pg. 6.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to represent numbers up to 20 using objects.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to represent numbers s3 and 50 using objects.

Step 2: Draw a two column to represent objects and the corresponding number.

Step 3: Guide learners in pairs or groups to represent numbers up to 50 using objects. Guide learners to fill in the table.

Step 4: Learners to do activities in pupil's book page 6.

SUMMARY

Review the lesson on reading numbers

CONCLUSION (Assessment of Learning)

Learners to represent numbers using number cards and counters.

EXTENSION OF ACTIVITIES

Learners to represent numbers using objects such as counting the number of classes, counting the number of homes in the village.

REFLECTION ON THE LESSON/SELF-REMARKS

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Counting)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to count in 2s up to 20 forward and backward.

KEY INQUIRY QUESTION (s)

How do you count numbers forward and backward?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counter.

Number line.

Sticks, Straws.

Stones, Seeds.

Grains.

Mathematics Activities pupil's book 2 pg.8.

Mathematics teachers guide grade 2 pg. 8.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count 1's up to 10 forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to count forward and backward in 2's up to 20 using a number line.

Step 2: Learners in pairs or groups to practice counting forward and backward in 2's up to 20 starting from any point. Learners use a number line to count forward and backward.

Step 3: Learners to do activities in pupil's book page 7

Step 4: Learners to do activities in pupil's book page 6.

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to sing a song in relation to counting in 2's

EXTENSION OF ACTIVITIES

During cleaning and ordering items in the school and at home, learners can arrange items by counting in 2's

REFLECTION ON THE LESSON/SELF-REMARKS

	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Counting)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to count in 2s up to 50 forward and backward.

KEY INQUIRY QUESTION (s)

How do you count numbers forward and backward?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counter.

Number line.

Sticks.

Straws, Stones.

Seeds, Grains.

Mathematics Activities pupil's book 2 pg.9.

Mathematics teachers guide grade 2 pg. 9.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count in 2's forward and backward up to 20.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to count forward and backward in 2's up to 50 using counters.

Step 2: Learners in pairs or groups to count in 2's up to 50 forward and backward starting from any point using counters.

Step 3: Learners to do activities in pupil's book page 9

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to play a game of counting in 2's up to 50

EXTENSION OF ACTIVITIES

Learners to be involved in counting in 2's up to 50 during play time with peers in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Tens and ones)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to identify place value of digits in numbers up to tens.

KEY INQUIRY QUESTION (s)

How do you identify the position of a digit in a number?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Place value chart.

Sticks.

Straws.

Mathematics Activities pupil's book 2 pg.10.

Mathematics teachers guide grade 2 pg. 10.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to write numbers in tens and ones

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to represent 45 on the place value chart.

Step 2: Learners in pairs or groups to represent numbers on the place value chart.

Step 3: Learners to do activities in pupil's book page 10

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to use number cards to represent numbers on the place value chart.

EXTENSION OF ACTIVITIES

Learners to count items in school and at home such as seedlings, jerricans, plates, toothbrushes and represent their numbers on place value chart.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Reading and writing numbers)

Specific lesson learning outcome.

By the end of the lesson, the learner should be to read and write number symbols up to 20

KEY INQUIRY QUESTION (s)

How do you read and write numbers?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number chart.

Number cards.

Video clips.

Mathematics Activities pupil's book 2 pg.11.

Mathematics teachers guide grade 2 pg. 11.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups

INTRODUCTION

Learners to write numbers in tens and ones

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read and write numbers up to 20 using number charts and number cards.

Step 2: Guide Learners in pairs or groups to read and write numbers using number cards such as jumble numbers in a box, then learners play a fishing game of reading and writing

Step 3: Learners to do activities in pupil's book page 11

SUMMARY

Review the lesson .

CONCLUSION (Assessment of Learning)

Learners to pick numbers from a box, read and write them on the board.

EXTENSION OF ACTIVITIES

Learners to read and write numbers in school and at home such as on calendars, storybook pages and numbers in religious books.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

STRAND/THEME/TOPIC: NUMBERS**SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Numbers in words)****Specific lesson learning outcome.**

By the end of the lesson, the learner should be to read and write numbers up to 10 in words.

KEY INQUIRY QUESTION (s)

How do you read and write numbers in words?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Cards with numerals and words.

Video clips.

Mathematics Activities pupil's book 2 pg.13.

Mathematics teachers guide grade 2 pg. 13.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to answer questions on how to write numbers 1 to 10 in words.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to read and write numbers 1 up to 10 in words from numbers cards. Pick, flash, read and write numbers in words one number at a time.

Step 2: Learners in pairs or groups to read and write numbers up to 10 in words using number cards.

Step 3: Learners to do activities in pupil's book page 13.

SUMMARY

Review the lesson and make summary

CONCLUSION (Assessment of Learning)

Learners to play a spelling game for numbers, having an idea of the first letter or last letter of the word.

EXTENSION OF ACTIVITIES

Learners to spell and write numbers up to 10 in words at school, home and in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Number patterns)

Specific lesson learning outcome.

By the end of the lesson, the learner should be work out missing numbers in patterns up to 20 in 2's.

KEY INQUIRY QUESTION (s)

How do you complete a number pattern?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Number cards.

String .

Rope.

Video clips.

Mathematics Activities pupil's book 2 pg.14.

Mathematics teachers guide grade 2 pg. 14.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count in 1's and 2's up to 10 both forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write 12, 14, 16, _ and 19, 17, 15, _.

Step 2: Show learners how to identify the rule of the pattern. Work out missing numbers in patterns up to 20.

Step 3: Leaners in pairs or groups to work out missing numbers in patterns up to 20.

Step 4: Learners to do activities in pupil's book page 14

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Using a string, suspended number cards forming a pattern with some missing numbers. Ask learners to work out the missing numbers.

EXTENSION OF ACTIVITIES

Learners to play digital games involving number patterns, both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS

SUBSTRAND/SUB-THEME/SUB-TOPIC: Numbers (Number patterns)

Specific lesson learning outcome.

By the end of the lesson, the learner should be work out missing numbers in patterns up to 50 in 5's.

KEY INQUIRY QUESTION (s)

How do you complete a number pattern?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Card with numerals.

Video clips.

Mathematics Activities pupil's book 2 pg.15.

Mathematics teachers guide grade 2 pg. 15.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to count in 5's up to 50 both forward and backward.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write 20, 25, 35, 40, _ and 50, 45, 40, 35, 30, _.

Step 2: Show learners how to identify the rule of the pattern. Work out missing numbers in patterns up to 20.

Step 3: Leaners in pairs or groups to work out missing numbers in patterns up to 50.

Step 4: Learners to do activities in pupil's book page 15

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to stand on straight lines up to a maximum of 50. Let each 5th count step out of the line. Learners to identify the missing numbers in the line.

EXTENSION OF ACTIVITIES

Learners to play digital games involving skip-counting in 5's using a number, both in school and at home.

REFLECTION ON THE LESSON/SELF-REMARKS

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: NUMBERS**SUBSTRAND/SUB-THEME/SUB-TOPIC: Fractions (*A Half as part of a whole*)****Specific lesson learning outcome.**

By the end of the lesson, the learner should be able to identify a half as part of a whole.

KEY INQUIRY QUESTION (s)

How do you get two equal parts of a whole?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs.

Manila papers.

Mathematics Activities pupil's book 2 pg.16

Mathematics teachers guide grade 2 pg. 17

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to answer questions on how they share items in school, at home and in the community.

LESSON DEVELOPMENT (Assessment as learning)**Step 1:** Show learners how to identify a half as part of a whole using cut-outs by folding.**Step 2:** Learners in pairs or groups fold circular paper cut-outs to get two equal parts. Shade one part to identify a half as part of a whole.**Step 3:** Learners to do activities in pupil's book page 16**SUMMARY**

Review the lesson on reading numbers

CONCLUSION (Assessment of Learning)

Learners to paste halves as parts of wholes on manila papers and display at the learners corner.

EXTENSION OF ACTIVITIES

Learners share whole into halves in school, at home and in the community. E.g. bread, chapatti, potatoes, oranges

REFLECTION ON THE LESSON/SELF-REMARKS

By the end of the lesson, the learner should be able to add 3-single digit numbers.

KEY INQUIRY QUESTION (s)

How do you add single digit numbers?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Counters.

Basic addition table.

Mathematics Activities pupil's book 2 pg.23.

Mathematics teachers guide grade 2 pg. 25.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to add a 2-digit number.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Write $3 + 2 + 4 = _$

Step 2: Show learners how to add 3-single digit numbers by adding $3+2 = 5$ and then $5+4 = 9$.

Step 3: Write $5 + 1 =$. Guide learners in pairs or groups to add the 3-single digit numbers.

Step 3: Learners to do activities in pupil's book page 23

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to add 3-single digit numbers

EXTENSION OF ACTIVITIES

Learners to practice adding single digit numbers with the family numbers.

REFLECTION ON THE LESSON/SELF-REMARKS

Counters.

Mathematics Activities pupil's book 2 pg.45.

Mathematics teachers guide grade 2 pg. 50.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to add single digit numbers.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Draw  and 1 group of 2 objects.

Show learners that 1 group of 2 objects is written as 1×2 and to write the multiplication sentence $1 \times 2 = 2$

Step 2: Draw _____ And _____

1 group of 6 objects. Guide learners in pairs or groups to multiply single digit numbers by 1.

Step 3: Learners to do activities in pupil's book page 45

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to multiply single digit numbers by 1.

EXTENSION OF ACTIVITIES

Learners to practice how to multiply single digit numbers by 1 with family members.

REFLECTION ON THE LESSON/SELF-REMARKS

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: LENGTH

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure length using fixed units.

KEY INQUIRY QUESTION (s)

How can you measure length?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Pencils of same length.

Mathematics Activities pupil's book 2 pg.46.

Mathematics teachers guide grade 2 pg. 52.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to measure length using arbitrary units.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to measure the length of teacher's table using a pencil. The length should be in number of pencils.

Step 2: Guide learners in pairs or groups to measure other lengths using pencils of equal length. Learners to share their findings with other group members.

Step 3: Learners to do activities in pupil's book page 46

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to measure other lengths using pencils in the classroom.

EXTENSION OF ACTIVITIES

Learners to measure length of objects using fixed units at home.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: LENGTH

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure length using fixed units.

KEY INQUIRY QUESTION (s)

How can you measure length?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Stick.

Classroom wall.

Mathematics Activities pupil's book 2 pg.47.

Mathematics teachers guide grade 2 pg. 53.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to name items that could be used to measure length.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to measure the length of classroom wall using a stick. The length of the classroom wall should be in terms of the number of sticks.

Step 2: Guide learners in pairs or groups to measure other lengths using sticks of equal length. Learners to share their findings with other group members.

Step 3: Learners to do activities in pupil's book page 47.

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to measure other lengths using sticks in the classroom.

EXTENSION OF ACTIVITIES

Learners to measure length of objects using in the environment.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Mass

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure mass using fixed units.

KEY INQUIRY QUESTION (s)

How can you measure mass of an object?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Beam balance.

Mathematics textbooks.

Stones, bag, sand.

Mathematics Activities pupil's book 2 pg.48.

Mathematics teachers guide grade 2 pg. 55.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to compare mass of objects in the classroom heavier than, lighter than or same as.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners in using a beam balance. Show learners how to measure mass of a block of wood using mathematics textbooks. The mass of the block of wood in terms of the textbooks.

Step 2: Guide learners in pairs or groups to measure the mass of different objects in the classroom using mathematics textbooks. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 48

SUMMARY

Review the lesson on mass.

CONCLUSION (Assessment of Learning)

Learners to measure the mass of objects in the classroom using mathematics textbooks.

EXTENSION OF ACTIVITIES

Learners to measure the mass of objects in the environment using fixed units.

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure mass using fixed units.

KEY INQUIRY QUESTION (s)

How can you measure mass of an object?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Beam balance.

Coin.

Potato.

Rubber, chalk stick.

Mathematics Activities pupil's book 2 pg.49.

Mathematics teachers guide grade 2 pg. 5.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to give the mass of the objects measured using mathematics textbooks.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners in using a beam balance. Show learners how to measure mass of an exercise book using coins. The mass of the exercise book in terms of coins.

Step 2: Guide learners in pairs or groups to measure the mass of different objects in the classroom using coins and beam balance. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 49.

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to measure the mass of objects in the classroom using coins.

EXTENSION OF ACTIVITIES

Learners to measure the mass of objects in the environment using fixed units.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Capacity

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure capacity using fixed units

KEY INQUIRY QUESTION (s)

How can you measure the amount of water a container can hold?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Cup.

Basin.

Water.

Bucket, jug, sufuria.

Mathematics Activities pupil's book 2 pg.50.

Mathematics teachers guide grade 2 pg. 58.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share experiences on filling containers.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to find out the number of cups full of water that fill a basin. Write the number of cups that fill the basin.

Step 2: Guide learners in pairs or groups to find the numbers of cups of water that fill given containers. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 50

SUMMARY

Review the lesson on capacity.

CONCLUSION (Assessment of Learning)

Learners to measure the capacity of other containers in the classroom using cups.

EXTENSION OF ACTIVITIES

Learners to practice measuring the capacity of containers in the environment using other containers.

REFLECTION ON THE LESSON/SELF-REMARKS

Cup.

Basin.

Water.

Bucket, jug, sufuria, jerry can.

Mathematics Activities pupil's book 2 pg.52.

Mathematics teachers guide grade 2 pg. 60.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share experiences on filling containers.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to find out the number of tins full of water that fill a basin. Write the number of tins that fill the basin.

Step 2: Guide learners in pairs or groups to find the numbers of tins of water that fill given containers. Learners to share their findings with other groups.

Step 3: Learners to do activities in pupil's book page 52

SUMMARY

Review the lesson on capacity.

CONCLUSION (Assessment of Learning)

Learners to state the steps in finding the amount of water a container can hold using a tin.

EXTENSION OF ACTIVITIES

Learners to measure the capacity of containers in the environment by using other small containers.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Time

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to identify months of the year.

KEY INQUIRY QUESTION (s)

How can you identify the time of the year?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Calendar.

Digital devices.

Mathematics Activities pupil's book 2 pg.53.

Mathematics teachers guide grade 2 pg. 62.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sing a song on the days of the week.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using the calendar, show learners the months of the year. Play a digital song on the months of the year. Read and write the months of the year on the board.

Step 2: Guide learners in pairs or groups to read and write the months of the year. Lead learners in singing a song on the months of the year.

Step 3: Learners to do activities in pupil's book page 53.

SUMMARY

Review the lesson on time.

CONCLUSION (Assessment of Learning)

Learners to sing a song on the months of the year.

EXTENSION OF ACTIVITIES

Learners to explore songs on months of the year from digital devices in the community.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Time

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to relate the months of the year with various activities.

KEY INQUIRY QUESTION (s)

What activities take place in a year?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Calendar.

Digital devices.

Mathematics Activities pupil's book 2 pg.54.

Mathematics teachers guide grade 2 pg. 63.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to name activities that take place in a year.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to relate month of the year to various activities in school, at home and in the community. Write the months and the corresponding activities.

Step 2: Guide learners in pairs or groups to relate months of the year with various activities. Learners to share their results with other groups.

Step 3: Learners to do activities in pupil's book page 54

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to relate months of the year to the events and activities in the school, at home and in the community.

EXTENSION OF ACTIVITIES

Learners to relate months of the year to activities at home and in the community.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Time

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to recite the number of days in each month of the year.

KEY INQUIRY QUESTION (s)

How do we tell the number of days in each month of the year?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Calendar.

Mathematics Activities pupil's book 2 pg.55.

Mathematics teachers guide grade 2 pg. 64.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sing a song on the months of the year.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using the calendar, show learners the number of days in each month of the year. Play a digital song on the number of days in each month of the year. Write the months and the corresponding number of days.

Step 2: Guide learners in pairs or groups to identify the number of days for each month on the calendar. Learners to recite the number of days each month of the year.

Step 3: Learners to do activities in pupil's book page 55

SUMMARY

Review the lesson.

CONCLUSION (Assessment of Learning)

Learners to sing songs or recite poems on the number of days in a month.

EXTENSION OF ACTIVITIES

Learners to find out how the number of days in a month were identified at home and the community in the earlier days.

SUBSTRAND/SUB-THEME/SUB-TOPIC: Time

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to measure time using arbitrary units.

KEY INQUIRY QUESTION (s)

How can you tell how long an activity will take?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Chart of the National anthem.

Mathematics Activities pupil's book 2 pg.56.

Mathematics teachers guide grade 2 pg. 64.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to sing a familiar song while clapping.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to time an activity through clapping at equal intervals. Sing the first stanza of the national anthem as a learner counts the number of claps. Write the number of claps.

Step 2: Guide learners in pairs or groups to sing the first stanza of the national anthem while clapping, tapping or thumb clicking at equal intervals. Learners to count the number of claps, taps or thumb clicks. Learners to share their results with other groups.

Step 3: Learners to do activities in pupil's book page 56

SUMMARY

Review the lesson on time.

CONCLUSION (Assessment of Learning)

Learners to sing the first stanza of the National Anthem while counting number of claps, taps and thumb clicks.

EXTENSION OF ACTIVITIES

Learners to practice timing activities by clapping, tapping and thumb clicking at home.

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Money

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to identify Kenyan currency coins and notes up to sh. 100.

KEY INQUIRY QUESTION (s)

How do you identify Kenyan currency?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Kenyan currency in coins and notes up to a hundred.

Mathematics Activities pupil's book 2 pg.57.

Mathematics teachers guide grade 2 pg. 67.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences with money.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners the features on the coins and notes of Kenyan currency. Write the features of the coins and notes.

Step 2: Guide learners in pairs or groups to identify the features on the coins and notes of Kenyan currency. Learners to share the features identified with other groups.

Step 3: Learners to do activities in pupil's book page 57

SUMMARY

Review the lesson

CONCLUSION (Assessment of Learning)

Learners to identify features on the coins and notes.

EXTENSION OF ACTIVITIES

Learners to discuss the features of Kenyan currency with family members.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: MEASUREMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Money

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to sort Kenyan currency in coins and notes according to their value and features.

KEY INQUIRY QUESTION (s)

How do you identify Kenyan currency?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Kenyan currency in coins and notes up to a hundred.

Mathematics Activities pupil's book 2 pg.58.

Mathematics teachers guide grade 2 pg. 68.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences with money.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Show learners how to sort Kenyan currency coins and notes according to value and features.

Step 2: Guide learners in pairs or groups to sort Kenyan currency in notes and coins according to value and features. Learners to share their work with other groups.

Step 3: Learners to do activities in pupil's book page 58.

SUMMARY

Learners to sort out money according to value.

CONCLUSION (Assessment of Learning)

Learners ask and answer questions on value and features of Kenyan currency.

EXTENSION OF ACTIVITIES

Learners to discuss the features of Kenyan currency with family members.

STRAND/THEME/TOPIC: GEOMETRY

SUBSTRAND/SUB-THEME/SUB-TOPIC: LINES

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to identify straight and curved lines.

KEY INQUIRY QUESTION (s)

How do straight and curved lines look like?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Piece of rope.

Pieces of sticks.

Crayons.

Chalk.

Charcoal, materials with straight and curved edged.

Mathematics Activities pupil's book 2 pg.61

Mathematics teachers guide grade 2 pg. 72

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share money.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Explain the straight line formation of learners queuing to get into the bus and patients seated in a hospital. Explain the semi-circular formation of learners, teachers and flag post during assembly and the arrangement of water jerricans.

Step 2: Guide learners in pairs or groups to identify straight and curved lines in the environment.

Step 3: Learners to do activities in pupil's book page 61

SUMMARY

Learners to draw lines.

CONCLUSION (Assessment of Learning)

Learners to sing a song moving along a straight and semi-circular formation.

EXTENSION OF ACTIVITIES

Learners to identify straight and curved lines in school, at home and in the community for example rivers, footpaths, roads with meanders and straight formations.

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to identify rectangles, circles and triangles.

KEY INQUIRY QUESTION (s)

How does a rectangle, a circle and a triangle look like?

Core competencies	Values	PCIs
• Learning to learn • Communication and collaboration • Imagination and creativity • Problem solving	• Unity • Respect • Patriotism • responsibility	Self-awareness Self-esteem

LEARNING RESOURCES

Paper cut-outs of rectangles, triangles and circle.

Mathematics Activities pupil's book 2 pg.62-63.

Mathematics teachers guide grade 2 pg. 74.

ORGANIZATION OF LEARNING

Learners to work in pairs or groups.

INTRODUCTION

Learners to share their experiences on circles, triangles and circles and draw them in the air.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Using paper cut-outs, stick the circular, triangular and rectangular shapes on the board. Label the shapes.

Step 2: Guide learners in pairs or groups to identify paper cut-outs of triangles, rectangles and circles. Paste them on the labeled chart.

Step 3: Learners to do activities in pupil's book page 62

SUMMARY

Review the lesson and make summary.

CONCLUSION (Assessment of Learning)

Learners to pick paper cut-outs with assorted shapes from a box and stick them on the board.

EXTENSION OF ACTIVITIES

Learner's sort, group and name triangular, circular and rectangular objects in school and at home.
