

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: CARE FOR THE ENVIRONMENT

SUBSTRAND/SUB-THEME/SUB-TOPIC: Caring for plants- Observing flower beds

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to:

- observe flower beds
- point out which flower beds are watered

KEY INQUIRY QUESTION (s)

- ❖ How do we know when flower beds have been watered?
- ❖ How do flowers look like when they have not been watered?

Core competencies	Values	PCIs
• Critical thinking and problem solving • Communication and collaboration	• Responsibility	Environmental education

LEARNING RESOURCES

Photographs displaying flower beds

Sample flower beds at school

Pencils, crayons, books for drawing

Enrich Yourself Environmental activities Teachers guide pg.81-82

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners.

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to take a walk around the school as they observe flower beds available

Step 2: Guide learners to determine which flowerbeds were not watered.

Step 3: Guide learners to look at the picture of a flowerbed in their books Guide them to appreciate the flowers that have been watered

Step 4: Guide learners to look at a picture and appreciate that the flowerbed looks fresh and beautiful because it has been watered.

SUMMARY

Make summary points/notes

CONCLUSION (Assessment of Learning)

Guide learners to recite the poem.

EXTENSION OF ACTIVITIES

Learners to observe flowerbeds during the day at different times.

REFLECTION ON THE LESSON/SELF-REMARKS

.....

STRAND/THEME/TOPIC: *CARE FOR THE ENVIRONMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Caring for animals- Animal feeds

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to identify common feeds for various domestic animals.

KEY INQUIRY QUESTION (s)

❖ What do domestic animals eat?

Core competencies	Values	PCIs
Communication and collaboration	Responsibility	Environmental education Citizenship

LEARNING RESOURCES

A video clip showing animals feeding

Photographs showing different types of animals kept at home

Enrich Yourself Environmental activities Teachers guide pg.86-87

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: prepare a trip to the farm and let learners visit animal farms where there are animals and animal feeds.

Step 2: Guide learners to share and discuss different experiences about animal feeds.

Step 3: Guide learners to discuss what each animal in the pictures is eating on page 40 of their book.

Step 4: Learners to read the sentence under each picture after you and let them discuss other animal feed they know.

SUMMARY

Make summary points/notes

CONCLUSION (Assessment of Learning)

Learners to ask and ask questions.

EXTENSION OF ACTIVITIES

Learners to talk to their parents/guardians on animal feeds.

REFLECTION ON THE LESSON/SELF-REMARKS

STRAND/THEME/TOPIC: *CARE FOR THE ENVIRONMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Managing waste responsibly- types of waste in a classroom

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Identify types of waste in the classroom
- Safely sort out waste in the classroom for appropriate disposal
- Dispose of waste responsibly to limit risk to self, others and environment.

KEY INQUIRY QUESTION (s)

- ❖ What types of waste are found in the classroom?
- ❖ How can we dispose of classroom waste responsibly?

Core competencies	Values	PCIs
• Communication and collaboration	• Responsibility	Environmental education Citizenship

LEARNING RESOURCES

Samples of type of waste

Chart illustrating different types of waste

Pencils, crayons and drawing books

Pictures of common things used in handling waste e.g. broom, dust pan, gloves

Slogan on recycling

Enrich Yourself Environmental activities Teachers guide pg.92-94

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Ask learners to move around the class and identify any litter on the floor, window panes.

Step 2: Write on the board every item noticed

Step 3: Learners to wear appropriate protective gear and collect waste found in the classroom

Step 4: Guide learners to identify the various types of waste in the class and guide them through activity on page 43

SUMMARY

CONCLUSION (Assessment of Learning)

Learners to discuss among themselves about types of waste they have collected

EXTENSION OF ACTIVITIES

Learners to draw and colour different types of waste in their classroom.

Charts illustrating different practices that lead to water wastage

Pictures on good and bad ways of using water

Enrich Yourself Environmental activities Teachers guide pg.104-105

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)**Step 1:** Pair up learners and give them oranges and ask them to go to the tap and wash.**Step 2:** Guide learners through illustration how to wash oranges at the tap.**Step 3:** Guide learners to discuss ways in which water is used sparingly at home and at school**Step 4:** Guide learners to compose and recite a short poem on the need to conserve water.**SUMMARY***Learner to sing a song about water wastage***CONCLUSION (Assessment of Learning)**

Learners to recite the poem.

EXTENSION OF ACTIVITIES*Learners to be taught effects of water wastage with the help of the parents*

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *CARE FOR THE ENVIRONMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Caring for water- Using water sparingly at home and school

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to state ways in which water is wasted at home and school

KEY INQUIRY QUESTION (s)

❖ How is water wasted at home and school?

Core competencies	Values	PCIs
• Critical thinking • Problem solving	• Responsibility	ESD

LEARNING RESOURCES

Video clips showing water wastage

Charts illustrating different practices that lead to water wastage

Pictures on good and bad ways of using water

Enrich Yourself Environmental activities Teachers guide pg.106

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to share experiences on occasions they were facing water scarcity at home and school

Step 2: Ask learner techniques they have seen people use to ensure water is used responsibly

Step 3: Guide learners to practice using water sparingly

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to recite the poem.

EXTENSION OF ACTIVITIES

Learners to be taught effects of water wastage with the help of the parents

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	ONE			

STRAND/THEME/TOPIC: *CARE FOR THE ENVIRONMENT*

SUBSTRAND/SUB-THEME/SUB-TOPIC: **Conserving light energy- Sources of light energy at home and in school**

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- State different sources of light at home and in school
- Explain responsible ways of using light energy at home and in school
- Demonstrate responsible ways of using light energy at home and in school

KEY INQUIRY QUESTION (s)

- ❖ How can we save light energy in the home and school?

Core competencies	Values	PCIs
• Critical thinking • Learning to learn	• Responsibility	ESD

LEARNING RESOURCES

Charts showing different sources of light

Video clips showing different sources of light energy

Pencils, crayons and drawing, light energy conservation poster

Enrich Yourself Environmental activities Teachers guide pg.107-108

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Avail some sources of light such as touches and lamps

Step 2: Demonstrate to learner's responsible ways of handling those sources of light.

Step 3: Ask learners what sources of light they use to see their way around school during the day.

Step 4: Explain to the learners that it is important to conserve energy to enable others to also benefit from it.

Step 5: Learners to discuss and share experiences on the various sources of light they use at home and at school at night and during the day.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to walk around the school to examine sources of light energy available in school.

EXTENSION OF ACTIVITIES

Learners to talk about ways of conserving light with the help of the parents

REFLECTION ON THE LESSON/SELF-REMARKS

.....

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Guide learners to watch video clips of children using light energy appropriately and emulate them

Step 2: Learners to discuss and share experiences on ways of using light energy responsibly at home.

Step 3: Guide the learners to draw and colour a sticker on conserving light energy.

Step 4: Stimulate in class how they can conserve light

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Encourage learners to practice ways of conserving light energy at school.

EXTENSION OF ACTIVITIES

Learners to be encouraged to practice conserving light energy at home

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Organize learners into groups

Step 2: Learners to brainstorm on different rules the parents apply to conserve light.

Step 3: Guide learners to look at different rules listed down

Step 4: Ask learners to look for patterns and then consolidate the list

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Encourage learners to practice ways of conserving light energy at school.

EXTENSION OF ACTIVITIES

Learners to be encouraged to practice conserving light energy at home

REFLECTION ON THE LESSON/SELF-REMARKS
