

COMPETENCY BASED CURRICULUM (CBC), PEDAGOGY & INCLUSIVE PRACTICES

Introduction

- The search for a relevant and holistic curriculum that nurtures learners' potentials and integrates both schooling and co-curricular activities has led to the evolution of the Competency-Based Curriculum (CBC) in Kenya.
- The overarching aim of the new curriculum is to equip citizens with skills for the 21st century.
- CBC captures the aspirations of the country which places emphasis on the learner's competence, character, patriotism, citizenship, and ability to coexist as a responsible citizen.

Learning Outcomes

- Enhance your knowledge and skills in Pedagogical Content Knowledge and Instructional Strategies
- Enhance your knowledge and skills in Competence Based Curriculum and Core competencies of basic education
- Enhance awareness of inclusive practices

Activity:

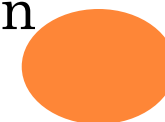

- Using the “**KNOW, WANT TO LEARN**”(**KWL**) approach, state what you **Know** and **What want to Learn** about teacher professional development and career growth.
- KNOW, WANT to LEARN (KWL) about CBC in Kenya** In preparation for undertaking study of CBC in Kenya complete the following
- Know**.....Some things that I already know about CBC and core competencies in Kenya Competence Based Curriculum
.....
- Core competencies

Want to Learn.....Some things I would like to learn about CBC and core competencies in Kenya

- Competence Based Curriculum.....
.....
- Core competencies:.....
.....

Share responses to both sections in your group and present the common items on the two sections to the large group.

Activity

- Read Case study 2 and respond to questions that follow.

WHAT IS COMPETENCY BASED CURRICULUM

What is competency based curriculum

- A competence is the ability to apply appropriate knowledge, skills, attitudes and values to successfully perform a task.
- The Competency based curriculum is premised on the belief that individuals are lifelong learners who continuously accumulate knowledge and require to apply the knowing to doing resulting to performance in mastery of skills.
- In a competency based curriculum, skills attainment and learning are emphasized.

Characteristics of Competency-based curriculum

- Specific measurable competency
- Content based on learner outcomes
- Continuous learner involvement until mastery
- Use of a variety of instructional strategies
- Focuses on what learners need to know
- Pacing instructional to learner need
- Learners demonstrate mastery of competencies.

How competency-based teaching approach differs from the traditional knowledge based approach

Activity

- *Click on the following link:*

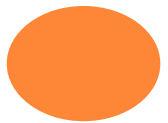

<https://ke.opera.news/ke/en/education/b23fc54f16133ee630943fcadd8d239d>

- *Read the article and respond to the questions below:*
- *Identify the differences between the 8-4-4 and CBC as identified by the author in the article.*
- *Based on your knowledge of the two curricula under discussion, identify other differences between them*
- *To what extent do you agree with the views expressed by the author of the article*

Curriculum Reforms in Kenya

- A country's curriculum ought to enhance the attainment of the national goals of education.
- This is essential to ensure that the curriculum addresses the needs of a nation.

Activity

- Let us remind ourselves of the 8 national goals of education in Kenya. (<https://www.atikaschool.org/pre-primary-one-curriculum-with-syllabus/national-goals-of-education-in-kenya>) The goals reflect the needs and aspirations of Kenya's society.
- Identify goals that, in your opinion, were not fully met by the previous education systems. Give reasons for your answer

THE BASIC EDUCATION CURRICULUM FRAMEWORK

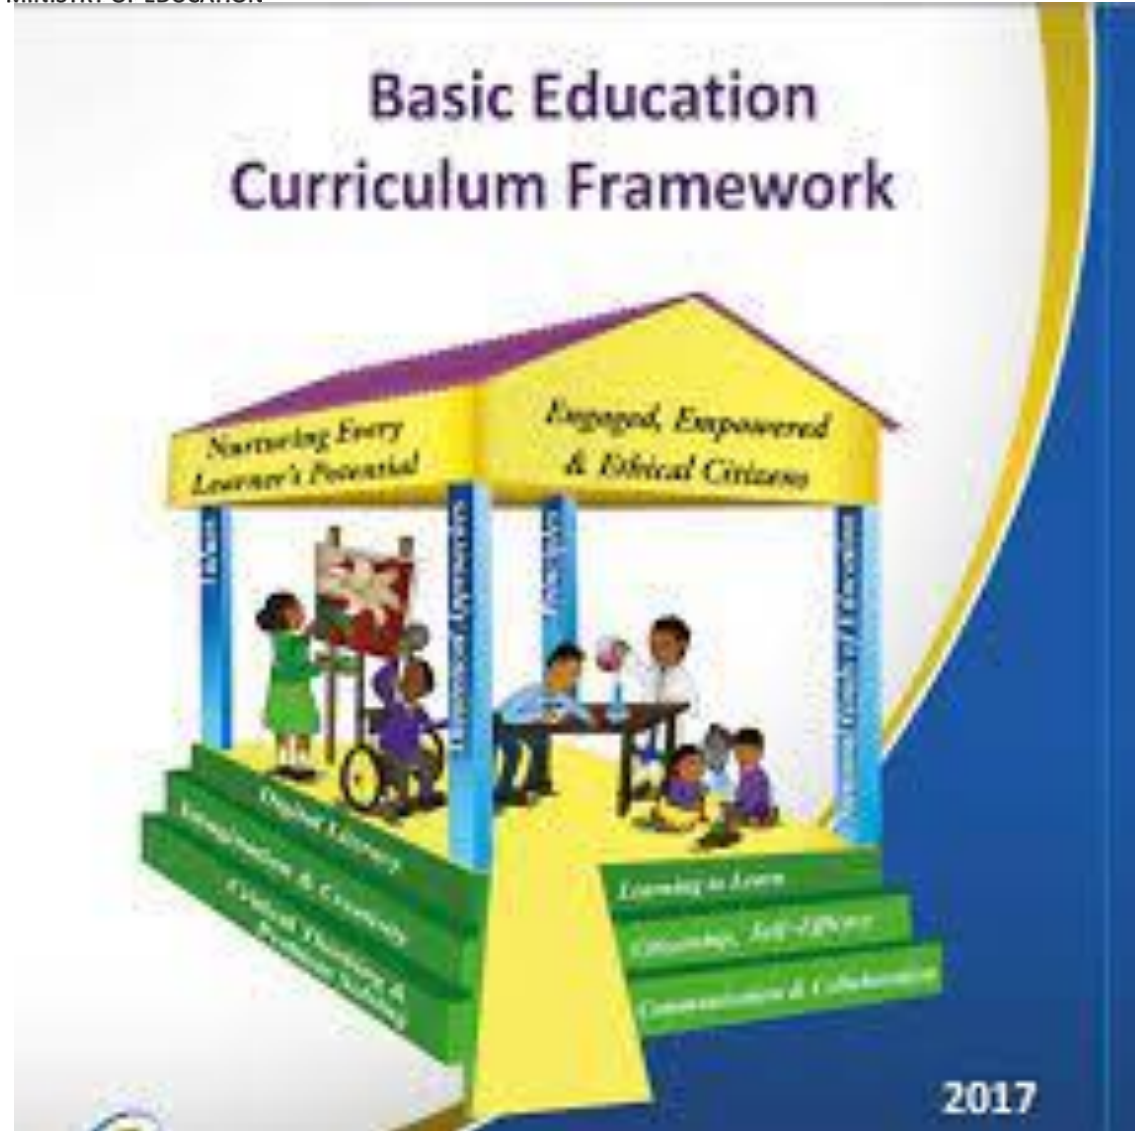

- The Basic Education Curriculum Framework(BECF) guides the implementation of CBC in Kenya and as such, it addresses:
 - Vision and Mission statements
 - National Goals of Education
 - Pillars of BECF
 - Core Competencies
 - Organization of Basic Education

Activity

- Click on the link <https://kicd.ac.ke/wp-content/uploads/2019/07/SERIES-1-F-CURRICULUM-REFORMS.pdf>
- Read on why we need curriculum reforms in Kenya and respond to the following question;
- Why do you understand by “the big shift”?

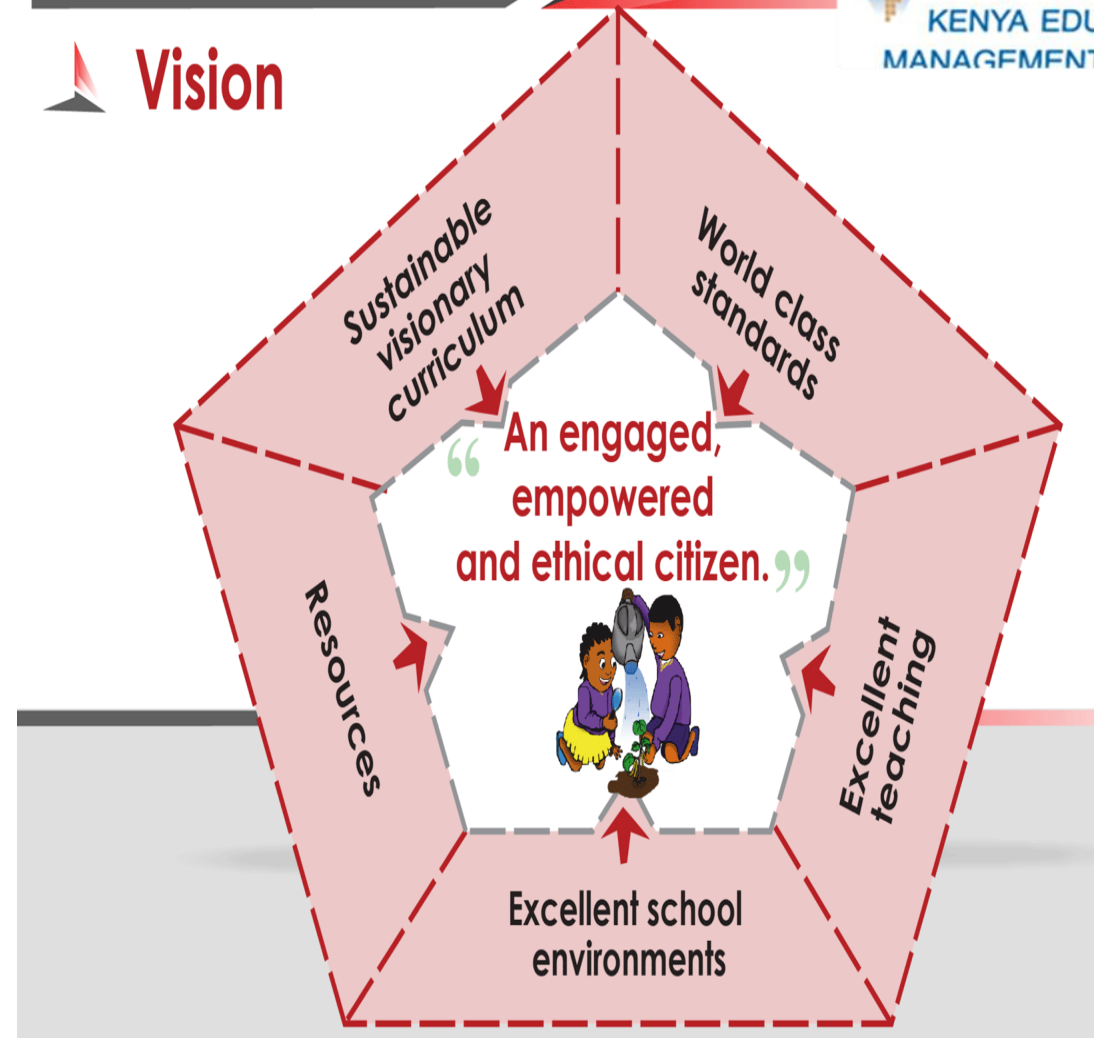

The basic education curriculum framework vision and mission are supported by three important pillars:-

- Values based education
- Guiding principles
- Theoretical approaches

- The vision of the basic education curriculum reforms is to enable every Kenyan to be engaged, empowered and ethical citizen.
- This will be achieved by providing every Kenyan learner with world class standards in the skills and knowledge that they deserve, and which they need in order to thrive in the 21st century.
- This shall be accomplished through the provision of excellent teaching, school environments and resources and a sustainable visionary curriculum
- In order to do this, there is need to develop teachers who are:
 - Highly knowledgeable
 - Reflective
 - Professional
 - Possessing additional enhanced skills
 - Confident in a range of modern pedagogical like coaching, facilitating, and mentoring

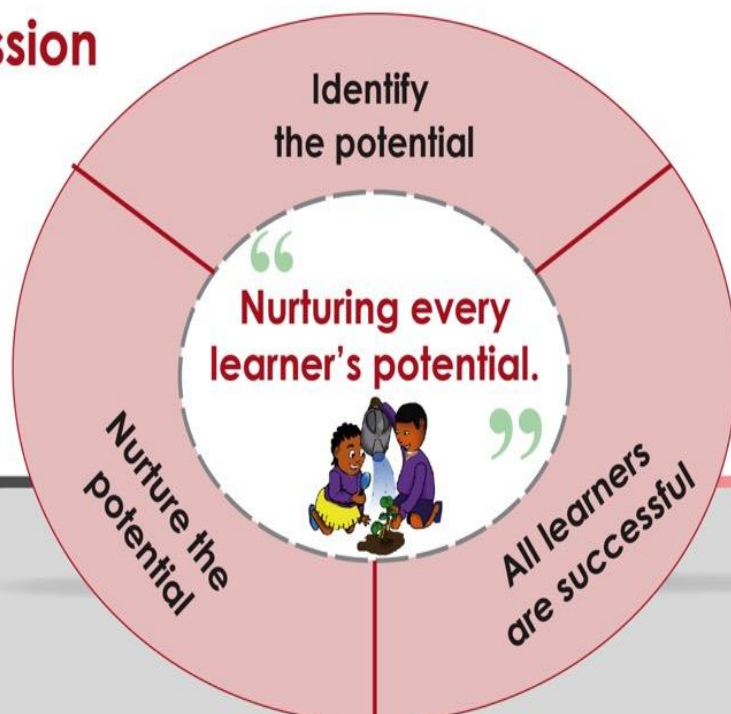

Vision

Curriculum
Reform

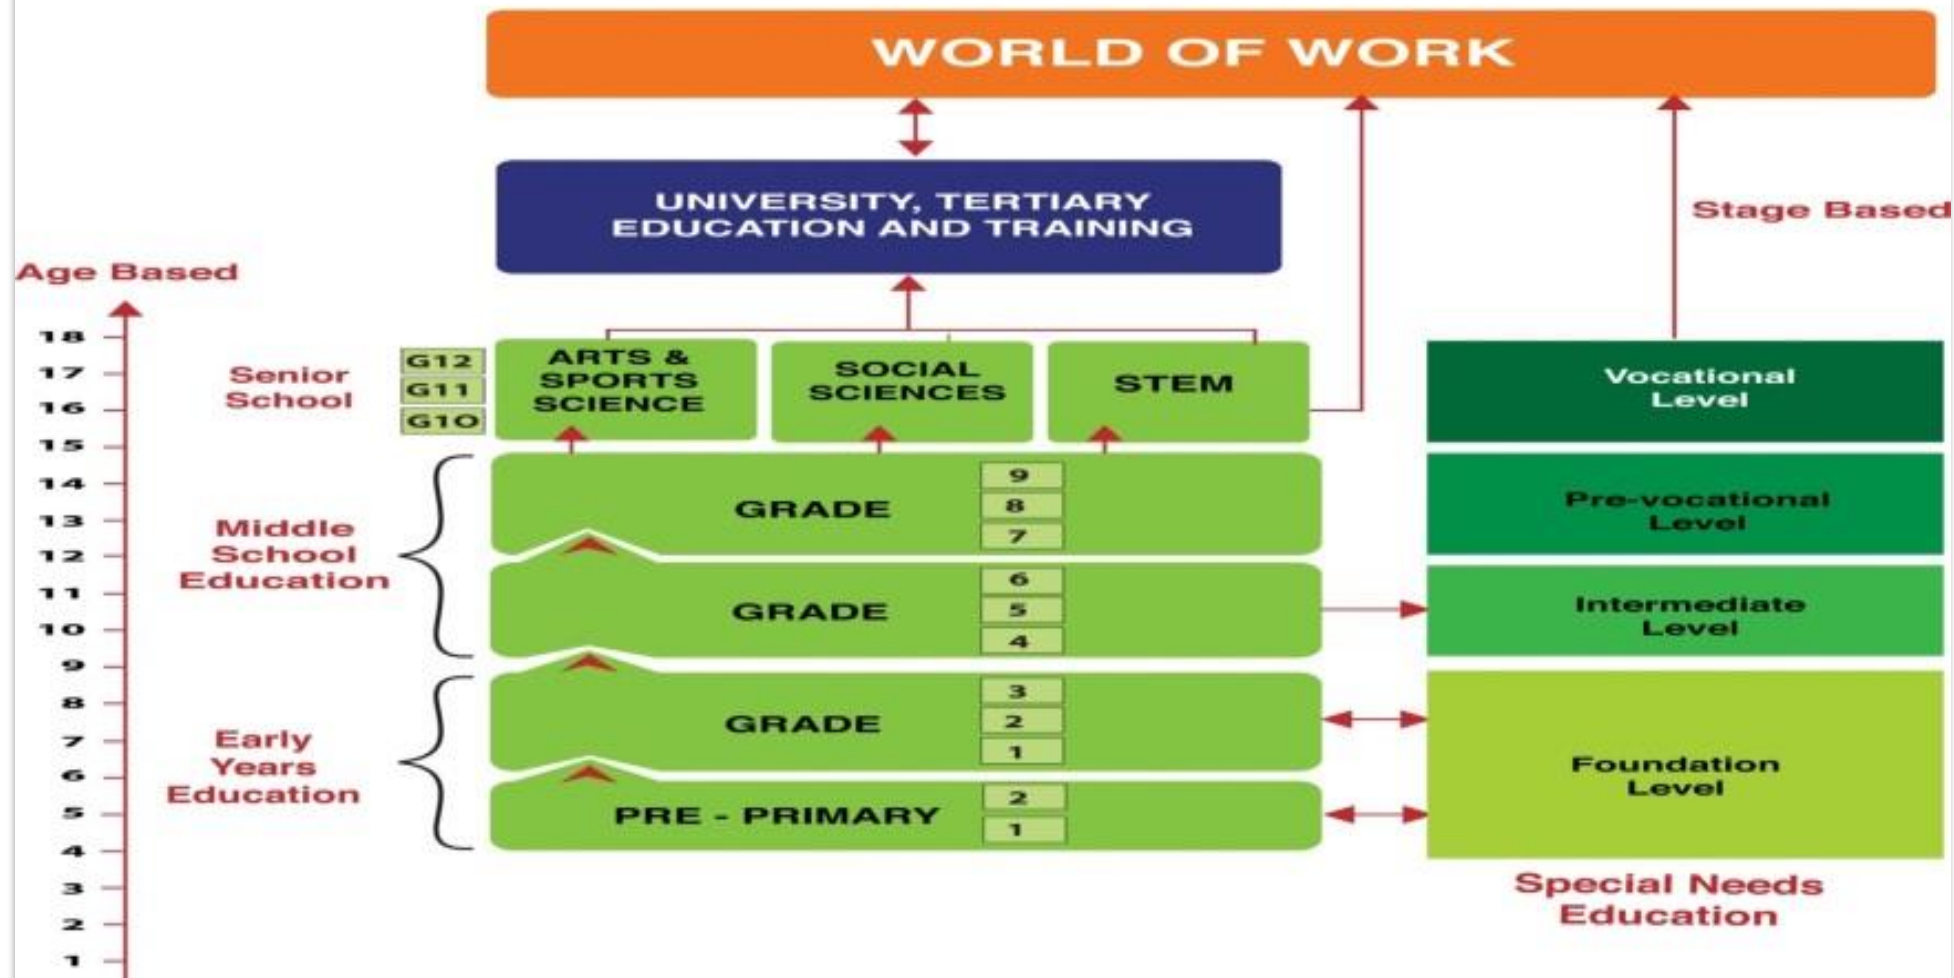

At a glance

Mission

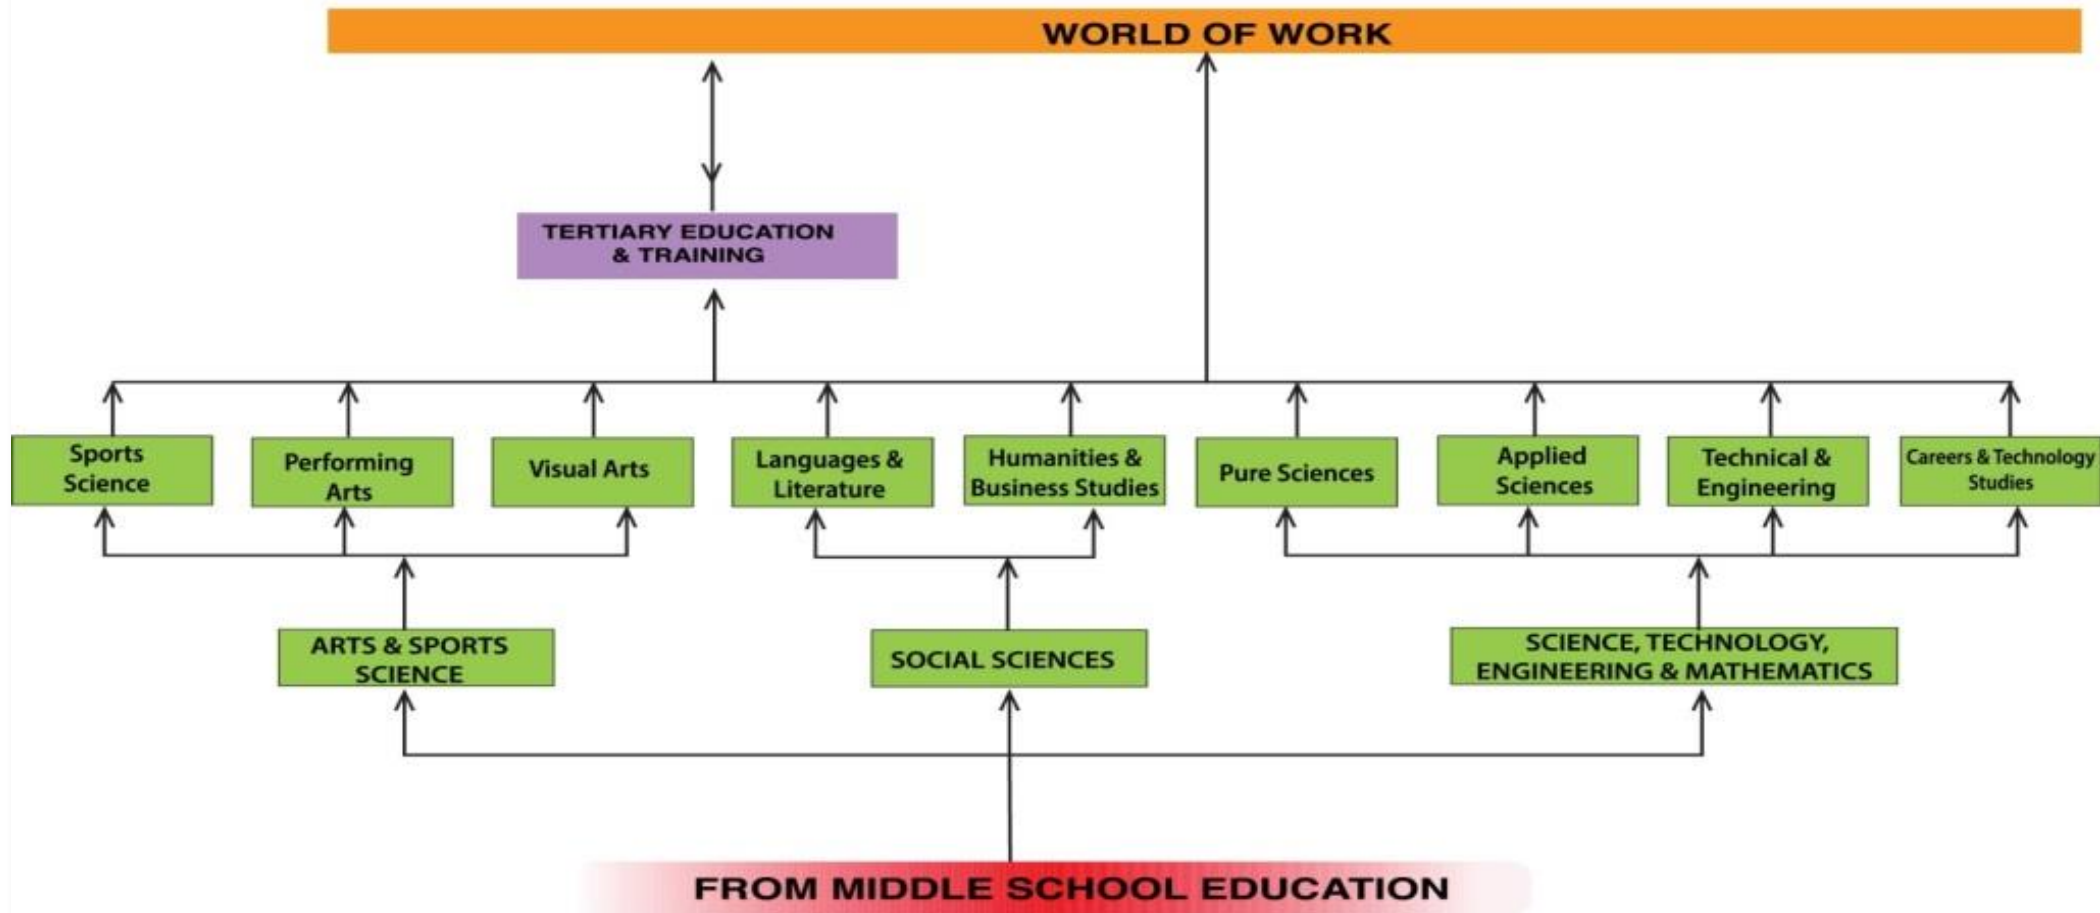

- The mission of the basic education curriculum reforms is ‘**nurturing every learner’s potential**’.
- The curriculum will be designed to ensure that it provides opportunities to identify the potential that every learner brings to school and nurture this potential through the learning pathways and tracks that will be provided at Senior School.
- The mission will ensure that no child is labeled a failure at the end of basic education.

ORGANIZATION OF BASIC EDUCATION

PATHWAYS

Activity

- KWL on core competencies

Write down what you know and want to learn about core competencies and share on the chat box.

- Know.....
.....
.....
- Want to Learn.....
.....

- A competency is the ability to apply appropriate knowledge and skills to successfully perform a function.
- Within the context of CBC, the curriculum is designed to emphasize the importance of not only developing skills and knowledge but also applying these to real life situations

Activity

- Observe the picture above and identify core competencies that the learners can acquire for the tasks being undertaken.
- Identify a learning experience/ task in one of your subject area where you can incorporate the core competencies which you have mentioned above.

The seven core competencies are:

- **Communication and Collaboration** - Learners are expected to interpret and express themselves through a variety of media.
- They participate in critical dialogue, listen, read, view and create for information, enrichment and enjoyments.
- They are clear, empathetic, patient, and responsible.

- **Imagination and Creativity** - Learners are expected to demonstrate openness to new experiences; engage in creative processes, to make unexpected connections, and to generate new and dynamic ideas, techniques and products. They appreciate the creative and imagination work of others.
- **Citizenship** – Learners are expected to contribute to quality and sustainability of their communities, environment, and society. These are able to analyse cultural, environmental, economic, social issues, make decisions, judgement, solve problems and act as stewards in a local, national and global context.

- **Digital Literacy** –Learners are expected to use and apply technology to collaborate, communicate, be analytical, creative, create, innovate, and solve problems. They use technology in a legal, safe, and ethically responsible manner to support and enhance learning.
- **Learning to Learn** - Learners are expected to gain knowledge and skills, understanding through experience, study, and interactions with others. They understand own multiple intelligence and learning styles, manage their own learning, value individual strengths and set goals. Learners who know how to learn are confident, reflective, life-long learners, resourceful, and self-reliant.

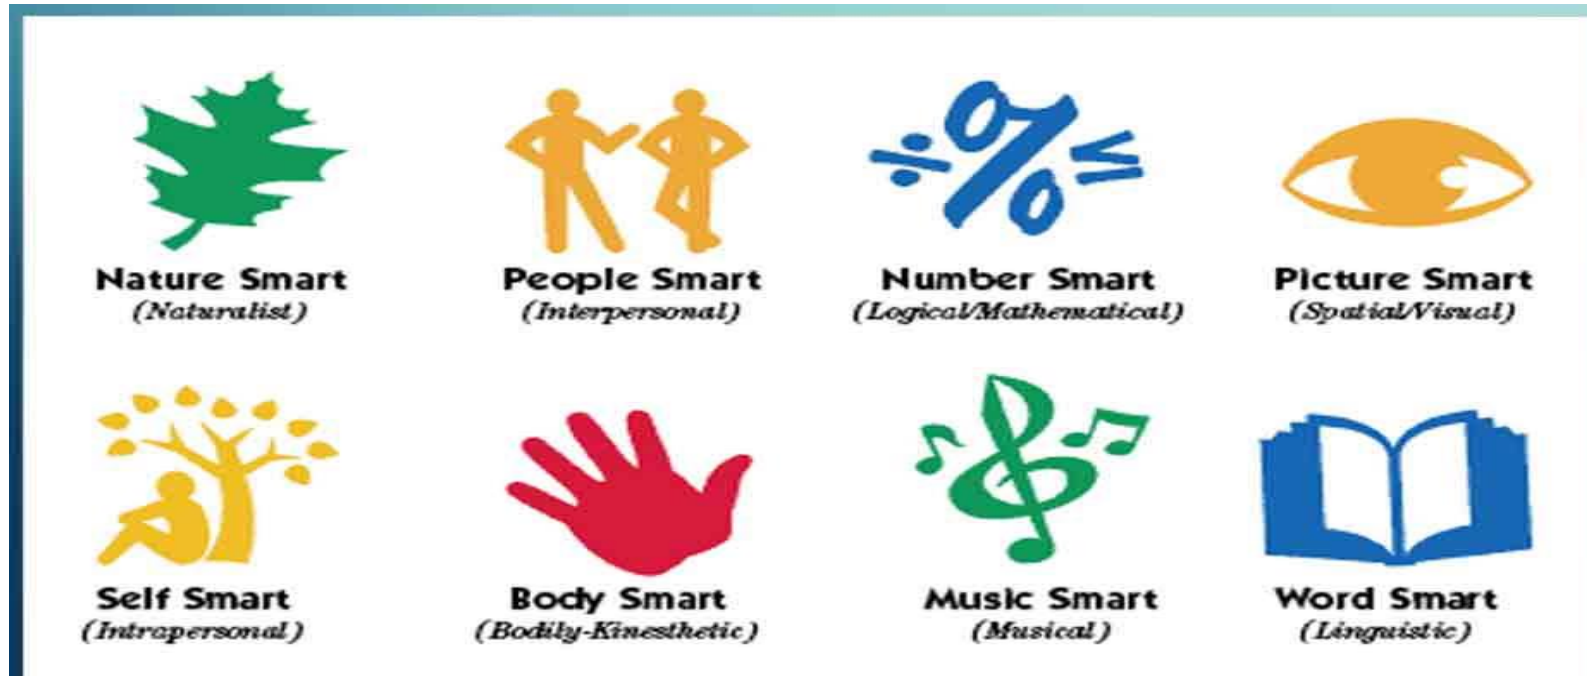

Self-Efficacy

- Learners are expected to become self-aware and self-directed who set and pursue goals. They make thoughtful decisions, regarding their health and well-being, finance and career pathway. They are committed, confident, goal-oriented, healthy self-aware, self-reliant individuals

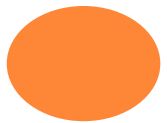

HOW LEARNERS LEARN (HOWARD GARDNER'S MULTIPLE INTELLIGENCE THEORY)

Activity

- The picture above illustrates the different types of learners, whom you have in your classroom,
- How can a teacher tell that a particular learner has a particular kind of intelligence?
- Identify learning experiences that a teacher can provide to cater for each type of intelligence.

REPUBLIC OF KENYA
MINISTRY OF EDUCATION

Howard Gardner's Multiple Intelligence theory (1983)

- States that learners possess different kinds of minds and therefore learn, remember, perform, and understand in different ways.
- His theory advances the view that individuals have different ways of demonstrating intellectual abilities.
- He identified eight (8) intelligences: logical-mathematical, visual/spatial, bodily-kinesthetic, naturalist; verbal-linguistic; intra-personal; interpersonal; and musical/rhythm.
- There is recognition that integration of multiple intelligences has the potential to improve learners' learning and achievements.
- It requires a teacher to prepare learning activities which appeal to diverse intelligences among the learners with one or more of the eight intelligences.

Group activity (Extended learning activity)

- With your subject panelists at the school level, plan and implement a learning task that will involve application of the multiple intelligence theory. The activity may involve one or more classes. Take photos or recordings of the activity and post them on your e-portfolio.
- In your reflective journal, based on your experiences in the activity above, put your thoughts on the effectiveness of the multiple intelligence theory and how it can be applied in a classroom situation.
