FOR EXAMINER'S USE ONLY

QUESTION	MAX. SCORE	CANDIDATE'S SCORE
1	13	
2	12	
3	15	
TOTAL	40	

1. You are provided with a fruit labeled K. You are required to cut transversely through the middle section of the fruit using the knife provided.
- (a) Cut a 1cm slice from one half of the fruit and remove the peel. Place the soft part of the fruit in a mortar and mash it into a fine paste using a pestle. Add 10ml of distilled water into the paste and stir the mixture, then transfer it into a beaker.
- (b) Using the reagents provided, carry out appropriate food tests on the mixture as you fill in the table below.
- (11 marks)**

Food substance	Procedure	Observation	Conclusion

- (c) Name the deficiency disease in children that may result from feeding them on specimen K alone especially after weaning.
- (1 mark)**

.....

(d) Identify the hormone responsible for ripening of the specimen K above. **(1 mark)**

.....

2. The photographs below show various types of fruits.

(a) (i) State the mode of dispersal of the fruit in photograph E. **(1mark)**

.....

(ii) Give a reason for your answer. **(1mark)**

.....

.....

(b) (i) What type of fruit is shown in photograph F? **(1mark)**

.....

(ii) Give a reason for your answer. **(1mark)**

.....

.....

(iii) Explain how this fruit is suited to its mode of dispersal **(2 mrks)**

.....

.....

.....

(c) (i) Name the type of fruit in photograph G. **(1mark)**

.....

(ii) Give two reasons for your answer. **(2 marks)**

.....

.....

(iii) Name the type of placentation in this fruit.

(1mark)

.....

(iv) State two ways in which the fruit is adapted to its mode of dispersal.

(2 marks)

.....

.....

.....

3. Study the photographs below and answer the questions that follow.

(a) Name the type of structures shown by: [2marks]

i. X & Y

ii. W & Z

(b) State the structural difference between structures X and Y [2 marks]

.....
.....
.....

(c) Name the type of evolution shown by structures Q and R [1 mark]

Q.....

R.....

(d) State the adaptations of structures W and Z (2 marks)

W

Z

(e) Name the types of skeletons shown by structures X and Y [2mks]

X

Y

(f)By comparing structures Q and R, predict the type of food being fed on by the animals and give a reason in each case. [4 marks]

Q.....
.....

R.....
.....

(g) A part from structures X and Y, name two other examples of similar structures in animals. [2 marks]
