

STAREHE BOYS' 2025 PREDICTION

Kenya Certificate of Secondary Education

ANTICIPATED KCSE EXAM

451/2

Computer Studies (Practical)

Paper 2

Time: 2½ Hours

NAME.....

SCHOOL..... SIGN.....

INDEX NO..... ADM NO.....

Kenya Certificate of Secondary Education.

INSTRUCTIONS TO CANDIDATES;

- ❖ Write your name and Admission number at the top of the page
- ❖ Write your name and Admission number on the **CD** provided

- ❖ This paper consists of 5 printed pages. Candidates should check to ascertain that all pages are printed and that no questions are missing.
- ❖ *Write the name and version of the software used for each question attempted in the answer sheet*
- ❖ *Answer all the questions*
- ❖ *All questions carry equal marks*
- ❖ *Passwords should not be used while saving your work*

1. Design a newspaper publication to appear as indicated in the next page using the following instructions.

(a) Launch the **DTP** package and set the preference measurements to centimeters and the document margins to 2 cm on all sides. **(2 marks)**

(b) The heading computer software to have the following styles; **(4 marks)**

- Background colour gray

- Font face Arial

- Font size 18

- centered across the page

(c) The other three headings in the publication to have the styles:

- Font face Arial Narrow

- Font size 15

- Text weight bold

- Character spacing 120%

- Alignment centered

(6 marks)

(d) The text under heading Computer software to be in two columns and having the following styles:

- First character of the paragraph to have a 3 line drop cap

- Font face Arial Narrow

- Font size 12

- Text weight bold

- Hyphenation disabled

- Fully justify

(2 marks)

(e) The tree Diagram should be drawn as shown

(10 marks)

(f) - Computer Software

COMPUTER SOFTWARE

Definition: Software is defined as a set of instructions to the computer to perform some task. For one to use the computer it's essential to know its' utilization.. Software is further

SYSTEM SOFTWARE

› performs a variety of fundamental operations that avails computer resources to the user.

These functions include:

1. Booting the computer and making sure that all the hardware elements are working properly.
2. Performing operations such as retrieving, loading, executing and storing application programs .
3. Storing and retrieving files
4. Performing a variety of system utility functions.

System software include:

- Operating system
- Utility programs

APPLICATION SOFTWARE

They are developed to help user accomplish specific tasks.

They are classified according to

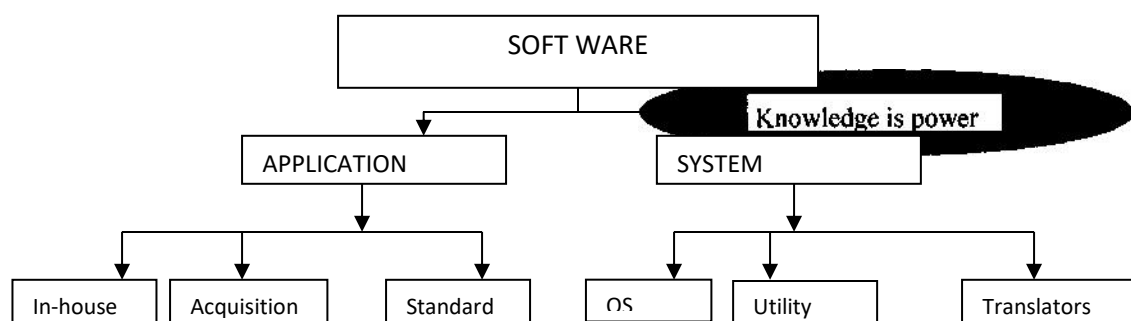

1. Acquisition
2. In-house developed programs
3. Standard software

In-house programs are uniquely designed to meet a particular user's needs.

Standard software are developed by software engineers and made available for purchase by a vendor.

Acquisition refers to how the software are obtained i.e. in-house or off the shelf.

STRUCTURED DIAGRAM

2. A Company in Mombasa sells computer spare parts to its customers. The Company wishes to work out the pay details for its employees.

EMPLOYEE NAME	YEARS WORKED	BASIC PAY [KSHS]	DEPARTMENT	SALES [KSHS]	HOURS OF OVERTIME
RUKENYA KWENA	5	24,000	ADMIN	16,000	10
BILLY LUCAS	13	28,000	SALES	25,000	11
LILIAN OKOTH	7	17,000	MARKETING	22,000	12
EVANS ONDIEKI	11	18,000	SALES	12,000	15
GEOFFREY MUTUMA	15	26,000	ACCOUNTS	11,000	22
HUMPHREY LOKI	10	25,000	ADMIN	30,000	12
CEDRIC MUKUI	11	19,000	SALES	35,000	33
FREDRICK CHEGE	15	25,000	MARKETTING	14,000	14
OSMAN HUSSEIN	14	23,000	ADMIN	25,000	0
JEREMY NYAMU	18	27,000	ACCOUNT	14,000	7

- (a) Using the information above, design a spreadsheet and enter the given data as it appears. Give it the title “COMPANY PAYMENTS”. Save the workbook file as **COMPANY1** (14marks)

- (b) (i) Copy the data into Sheet 2 and rename it as **COMPANY2** and use it to answer the questions that follows

(2 marks)

- (ii) Calculate the total sales and give it an appropriate label (2marks)

- (iii) Rotate the column headings to 45° (2 marks)

(iv) The employee's sales commission is calculated as 12% of the employee's sales. Input this commission rate in cell C20 and label it appropriately. Bold the label and change its font to size 16

(4marks)

(v) Insert a new column labeled '**Sales commission**' between 'sales' and 'hours of overtime'.

(2marks)

(vi) Create a formulae to give the amount of sales commission for each employee by making references to sales commission cell.

(3marks)

(c) (i) Convert the basic pay and sales to **two** decimal places.

(2marks)

(ii) Use a function in a new column labeled REMARK to put the remark 'EXCELLENT' for only those employees whose sales is greater than or equals to 22,000, 'GOOD' those employees whose sales are between 15000 to 21999 otherwise the remark should be 'LOW SALES'.

(6marks)

(iii) Apply both outline and inside double line border to the worksheet portion with data

(3marks)

(d) Overtime payment is done by multiplying 5% of sales with the hours of overtime. Use a formula to calculate the overtime pay for each of the employees in a new column labeled "OVERTIME PAY"

(2marks)

(e) Use a function to compute the Total payment of each employee. It should be summation of Basic pay, Sales Commission and Overtime pay. Give it the heading TOTAL PAYMENT. Save the changes.

(2marks)

(f) Use an appropriate subtotals function to show how much TOTAL PAYMENT the company gives to employees in each department

(4marks)

(g) Print **COMPANY1, COMPANY2** and **all the formulas used in company2**. **(3marks)**
