

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: **Hopping- Hop on one foot**

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when hopping for body awareness
- Perform hopping in different ways for strength, co-ordination, endurance, balance, space awareness and excellence
- Establish relationship through hopping
- Appreciate hopping for strength, co-ordination, balance and self-esteem
- Make appropriate play items for creativity and imagination
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ Which animals hop?
- ❖ How many times can you hop on the same spot?
- ❖ How many different ways can you hop?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Sufficient filed, ropes, canes

Balls, hoops

Lime/whitewash/chalk dust

Foundation movement activities Teachers guide Grade 2 pg. 1-15

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to spread freely within a marked space

Step 2: Demonstrate to learners how to perform the hop on one foot.

Step 3: Learners to hop on one foot on signal. Let them vary

Step 4: Learners to tell which body parts are involved as they perform the hop skill. Learners to give names of animals they know that hope.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to hop at home with the help of the parents

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Hopping- Partner hope in different directions

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when hopping for body awareness
- Perform hopping in different ways for strength, co-ordination, endurance, balance, space awareness and excellence
- Establish relationship through hopping
- Appreciate hopping for strength, co-ordination, balance and self-esteem
- Make appropriate play items for creativity and imagination
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ Who is your partner?
- ❖ In how many ways can you hope with your partner?
- ❖ What else can you do while hopping?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Sufficient filed, ropes, canes

Balls, hoops

Lime/whitewash/chalk dust

Foundation movement activities Teachers guide Grade 2 pg. 1-15

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: **Hopping- Hopping round the hoops**

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when hopping for body awareness
- Perform hopping in different ways for strength, co-ordination, endurance, balance, space awareness and excellence
- Establish relationship through hopping
- Appreciate hopping for strength, co-ordination, balance and self-esteem
- Make appropriate play items for creativity and imagination
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ Which directions can you hop towards?
- ❖ How many times can you hop round a circle?
- ❖ How fast can you hop?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Sufficient filed, ropes, canes

Balls, hoops

Lime/whitewash/chalk dust

Foundation movement activities Teachers guide Grade 2 pg. 1-15

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to spread freely within a marked space

Step 2: Demonstrate to learners how to perform partner hoping round the hoops

Step 3: Learners to hop on signal. Let them vary

Step 4: Learners to tell which body parts are involved as they perform the hop skill. Learners to give names of animals they know that hope.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

Step 2: Demonstrate to learners how to perform running leap.

Step 3: Learners in groups/pairs to start running leap on signal. Let them vary.

Step 4: Learners to tell which body parts are involved as they perform the leap skill. Learners to give names of animals they know that leap.

Step 5: Learners to observe safety measures

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to practice leaping at home with the help of the parents

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Leaping- Leap into series of hoop

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when leaping for body awareness
- Perform leaping in different ways for strength, co-ordination, endurance, balance, space awareness and excellence
- Establish relationship through leaping
- Appreciate leaping for strength, co-ordination, balance and self-esteem
- Make appropriate play items for creativity and imagination
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ How many hoops can you leap into?
- ❖ How fast can you leap into hoops?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Field markers, field, bean bags, and ropes

Digital devices such as computers and mobile phones

Video clip of learners leaping

Foundation movement activities Teachers guide Grade 2 pg. 16-33

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to spread freely within a marked field

Step 2: Demonstrate to learners how to perform leap into a series of hops.

Step 3: Learners in groups/pairs to start leap into a series of hops on signal. Let them vary.

Step 4: Learners to tell which body parts are involved as they perform the leap skill. Learners to give names of animals they know that leap.

Step 5: Learners to observe safety measures

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

Step 1: Learners to spread freely within a marked field

Step 2: Demonstrate to learners how to perform jump in and over rope shapes.

Step 3: Learners in groups/pairs to start jump in and over rope shapes on signal. Let them vary.

Step 4: Learners to tell which body parts are involved as they perform the jumping for distance. Learners to give names of animals they know that jump for distance.

Step 5: Learners to observe safety measures

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to practice jumping at home with the help of the parents

REFLECTION ON THE LESSON/SELF-REMARKS

.....

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: **Jumping for distance- jump distance longer than your height**

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Watch a video clip on triple jump for digital literacy
- Perform jumping from distance for strength, coordination, endurance, and balance
- Practice jumping for distance for strength, coordination, endurance and balance for excellence.
- Establish relationship through jumping for distance
- Appreciate jumping for distance for strength, coordination, balance and self-esteem.
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ How far can you jump?
- ❖ When do you like jumping?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Field markers, field, bean bags, ropes, hoops and Coloured bands.

Digital devices such as computers and mobile phones

Video clip of learners or athletes performing the long jump.

Foundation movement activities Teachers guide Grade 2 pg. 34-49

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Learners to spread freely within a marked field

Step 2: Demonstrate to learners how to perform jump distance longer than your height.

Step 3: Learners in groups/pairs to start jump distance longer than your height on signal. Let them vary.

Step 4: Learners to tell which body parts are involved as they perform the jumping for distance. Learners to give names of animals they know that jump for distance.

Step 5: Learners to observe safety measures

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Turning- hip/head/trunk turning, arms swinging backwards

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Watch a video clip of performers playing and turning
- Perform turning in different ways for strength, coordination, endurance, and balance
- Practice turning in different ways for agility and space awareness
- Establish relationship through turning.
- Appreciate turning for agility and self-awareness.
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ Which parts of the body touch the ground when you lie on the ground and face up?
- ❖ Which parts of the body can you turn?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Field markers, field, bean bags, and ropes

Digital devices such as computers and mobile phones

Video clip of animals turning for example the donkeys, dog's cats and lions

Foundation movement activities Teachers guide Grade 2 pg. 67-76

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Do a recap of the previous lesson.

Step 2: Demonstrate to learner how to perform the hip/head/trunk turning, arms swinging backwards.

Step 3: Learners to start on signal to hip/head/trunk turning, arms swinging backwards.

Step 4: Learners to name body parts involved in turning

Step 5: Learners to observe safety measures as they practice turning

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to practice trunk turning at school

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: Kicking- Stationery kicking

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when kicking
- Watch a video clip on a game of soccer and observe kicking.
- Perform kicking in different ways for strength, coordination, endurance, and balance
- Practice kicking in different ways for strength, coordination, endurance, and balance
- Establish relationship through kicking.
- Appreciate kicking for strength, coordination, endurance, and balance.
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ What happens when you kick the ball softly?
- ❖ What happens when you kick with greater force?
- ❖ What happens when you kick with arms swinging?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Field markers, field, bean bags, and ropes

Digital devices such as computers and mobile phones

Video clip of animals turning for example the donkeys, dog's cats and lions

Foundation movement activities Teachers guide Grade 2 pg. 93-106

ORGANIZATION OF LEARNING

Learners to work in pairs/groups

INTRODUCTION

Do a brainstorming activity with the learners

LESSON DEVELOPMENT (Assessment as learning)

Step 1: Do a recap of the previous lesson.

Step 2: Demonstrate to learner how to perform stopping a front ball using sole of foot

Step 3: Learners in pairs or groups to start on signal to perform stopping a front ball using sole of foot

Step 4: Learners to name body parts involved in stopping

Step 5: Learners to observe safety measures as they practice stopping balls.

SUMMARY

Make summary notes/points

CONCLUSION (Assessment of Learning)

Learners to ask and answer questions

EXTENSION OF ACTIVITIES

Learners to practice stopping of balls during school games at school

REFLECTION ON THE LESSON/SELF-REMARKS

Week: _____

Lesson: _____

SCHOOL	GRADE	DATE	TIME	ROLL
	TWO			

STRAND/THEME/TOPIC: *BASIC MOTOR SKILLS*

SUBSTRAND/SUB-THEME/SUB-TOPIC: **Stopping- Stopping using inside of the foot**

Specific lesson learning outcome.

By the end of the lesson, the learner should be able to

- Name the parts of the body that are in use when stopping
- Watch a video clip on a game of soccer and observe stopping
- Perform stopping in different ways for strength, coordination, endurance, and balance
- Practice stopping in different ways for strength, coordination, endurance, and balance
- Establish relationship through stopping.
- Appreciate stopping for strength, coordination, endurance, and balance.
- Play simple games
- Observe rules when playing games

KEY INQUIRY QUESTION (s)

- ❖ Which part of the foot is used in stopping the ball?
- ❖ Which one is easy between stopping a slow rolled ball and fast moving ball?

Core competencies	Values	PCIs
• Citizenship • Self-efficacy • Digital literacy • Learning to learn • Creativity and imagination • Communication and collaboration • Critical thinking and problem solving	• Responsibility • Sharing • patience	Citizenship Life skills

LEARNING RESOURCES

Balls of different sizes, bean bags, carton boxes, buckets and hoops

Digital devices such as computers and mobile phones

Video clip showing use of the stopping skill and mini games involving stopping.

Foundation movement activities Teachers guide Grade 2 pg. 93-106

ORGANIZATION OF LEARNING
