1

Session Aim

- ▶ The aim of the session is to equip participants with knowledge and skills on rubrics and how to use them effectively when assessing learners.

Session Outcomes

By the end of the session, the participant should be able to:

- a) Describe a Rubric;
- b) State the benefits of rubrics;
- c) Identify the core components of rubrics;
- d) Describe analytic and holistic rubrics
- e) Demonstrate how to incorporate rubrics in classroom assessment;
- f) Develop sample rubrics;
- g) Effectively use rubrics.

Description of a Rubric

- ▶ An **Assessment Rubric**, usually in the form of a matrix or grid, is a tool used to interpret and grade learners' work against **criteria** and **standards**.
- ▶ Rubrics are sometimes called "**criteria sheets**", "**grading schemes**", or "**scoring guides**".
- ▶ A rubric makes explicit a range of assessment criteria and expected performance standards. Assessors evaluate a learner's performance against all of these, rather than assigning a single subjective score.

Components of Assessment Rubric

CRITERION	SCORE				LEVEL OF PERFORMANCE
	EXCEEDING EXPECTATION (4)	MEETING EXPECTATION (3)	APPROACHING EXPECTATION (2)	BELOW EXPECTATION (1)	
Identify and Categorize plants	Consistently and correctly identifies and categorizes plants according to specified features	Correctly identifies and categorizes plants according to specified features	Sometimes identifies and categorizes plants according to specified features.	Rarely identifies or categorizes plants according to specified features.	
DESCRIPTOR					

- ▶ **Criteria:** describes knowledge, skills and attitude that one is looking for: e.g Exploring soil characteristics;
- ▶ **Level of performance;** determines the degree of performance which has been met
- ▶ **Presented as:**
 - **Qualitative:** Exceeding, Meeting, Approaching and Below expectations;
 - **Quantitative:** Numerical 4,3,2,1
 - **Both qualitative and quantitative:**
Exceeding expectation(4); Meeting expectation(3);
Approaching expectation(2); Below expectation(1).
- ▶ **Descriptors:** explain what is expected of learners at each level of performance for each criteria.

Types of Rubrics

1. **Analytic Rubric** breaks down content or task being assessed into parts and assesses each part separately.

	Exceeding Expectation 4	Meeting Expectation 3	Approaching Expectation 2	Below Expectation 1
Categorizing plants	Consistently and correctly identify and categorize plants according to specified features.	Correctly identify and categorize plants according to specified features.	Sometimes identify and categorize plants according to specified features.	Rarely identify or categorize plants according to specified features.
Safety when handling plants	Consistently and correctly describes and observe safety when handling plants	Correctly describes and observe safety when handling plants.	Sometimes describes and observe safety when handling plants.	Rarely describes or observes safety when handling plants.

2. Holistic rubric assesses overall performance on a task as a single entity. It scores the overall competencies of the learner without assessing each criteria separately

	Exceeding expectation 4	Meeting expectation 3	Approaching expectation 2	Below expectation 1
Soil Explori ng soil charact eristics	Consistently and correctly differentiates soil textures, size of particles and deduces name of soil based on their characteristics .	Correctly differentiates soil textures, size of particles and deduces name of soil based on their characteristics .	Sometimes differentiates soil textures, size of particles and deduces name of soil based on their characteristics .	Rarely differentiates soil textures, size of particles or deduces name of soil based on their characteristics .

Sample of Scoring Sheet

S/No	Criteria	Categorization of plants				Safety when handling plants				Fill in additional criteria				Teacher Statement on learner Performance
	Learner's Name	4	3	2	1	4	3	2	1	4	3	2	1	
1.	John Kimbo													
2.	Gloria Weru													
3.	Henry Matasia													

Development and effective use of Rubrics

- Identify the criteria
- Develop the descriptors for the various levels

Using Rubrics Effectively

- Share rubrics with learner before giving the task;
- Have learners evaluate their own work using the rubrics;
- Have learners evaluate each other's work using the rubrics;
- Use the rubrics as the basis for feedback discussions with learner(s) while their work is developing and when their work is completed;
- Involve learners in revising and improving the rubrics;
- Grade learners based on the rubrics.

Benefits of Rubrics

- ▶ Provide an overview of learners' achievements;
- ▶ Motivate learners to reach the standard specified;
- ▶ Give learners control of their own learning process;
- ▶ Give formative feedback;
- ▶ Easier for the teacher to share with learners and parents about certain strengths and weaknesses;
- ▶ Guide learners on areas that require improvement;
- ▶ Make scoring easy and faster
