

THE KENYA NATIONAL EXAMINATIONS COUNCIL

COMPETENCY BASED ASSESSMENT

SESSION 1

*The Kenya National Examinations Council (KNEC)
P. O. Box 73598-00200, Nairobi, Kenya*

Objectives of the Training on Competency Based assessment

- ▶ Understand formative assessment
- ▶ Formulate Authentic tasks
- ▶ Integrate formative assessment to enhance the learning process
- ▶ Design assessment rubrics
- ▶ Develop and use various assessment tools
- ▶ Develop and adapt assessment tools for learners with special needs

Overview of the Presentation

- Aspects of the Competency Based Assessment Draft Framework (**CBAF**)
 - Linkage between CBC with CBA
 - types of assessments
 - Kenya Early Years Assessment (**KEYA**)

Competency Based Curriculum

- ▶ Competency based curriculum (CBC) refers to an **education programme** that is **based on learners demonstrating the ability to apply the knowledge, skills, attitudes and values** they are expected to acquire as they progress through their education.

Competency Based Assessment

- ▶ A process of determining the capability of a learner to **apply a set of related knowledge, skills, values and attitudes required to successfully perform tasks.**
- ▶ CBA is based on the principles of assessing learners as they use acquired knowledge and skills in a given situation.
- ▶ Aims at providing a way of building the skills knowledge, attitudes and values that learners require to perform identified tasks as they go through learning experiences.

Linkage between CBC and CBA

ACTIVITY 1:

(03 Minutes)

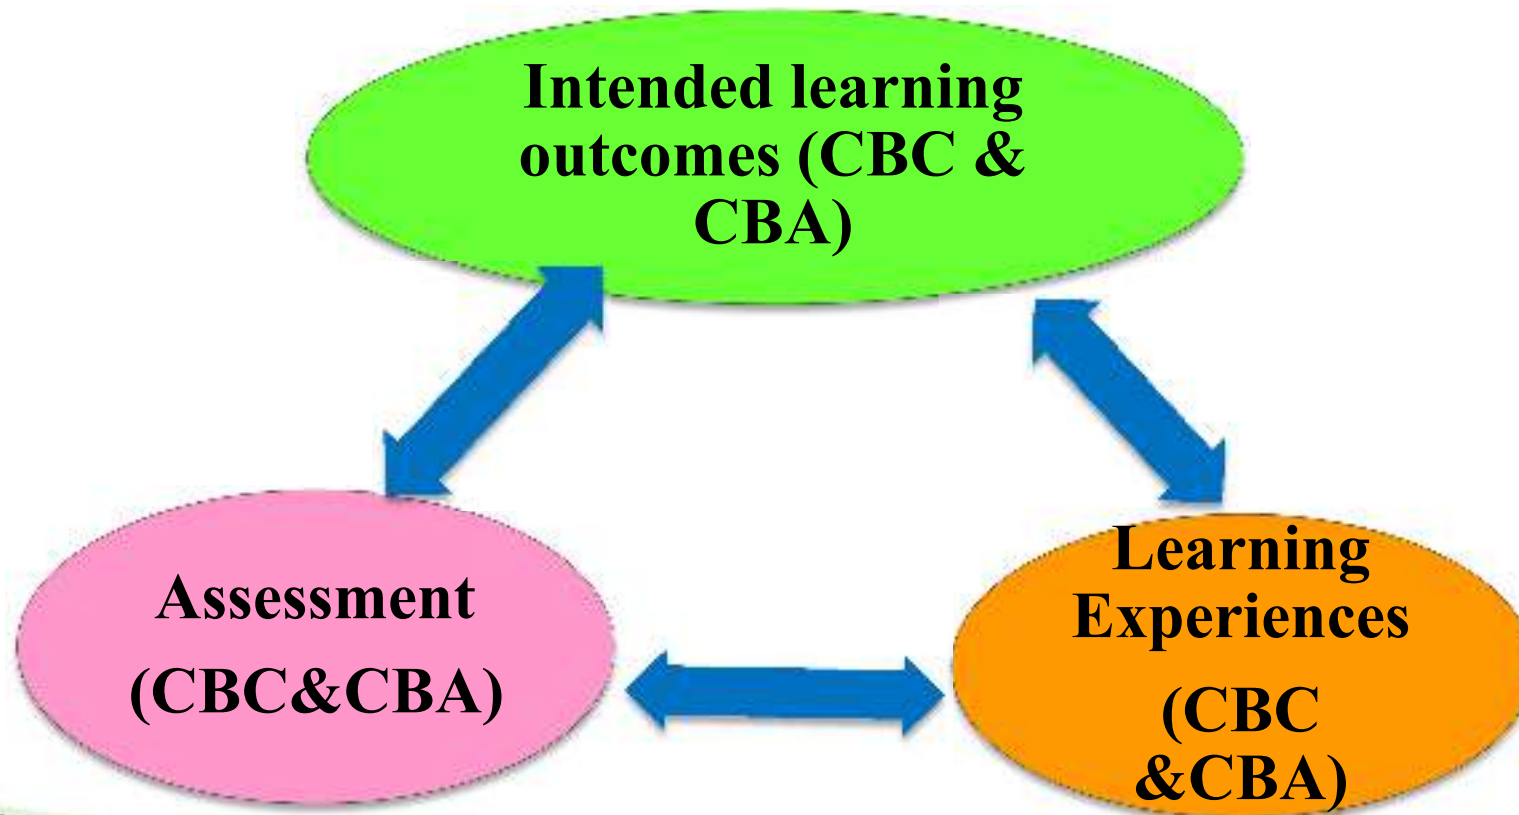

- ▶ In pairs, brainstorm and write down the linkage between CBC and CBA.
- ▶ Few selected pairs to read out their linkages.

Linkage between CBC and CBA

- ▶ CBA is derived from the vision and mission of CBC
- ▶ Learning outcomes in CBC form the basis of all assessment
- ▶ Learning experiences in CBC determine the assessment tasks
- ▶ Focus is on assessment of the core competencies, values, PCIs, Community service Learning

The Linkage

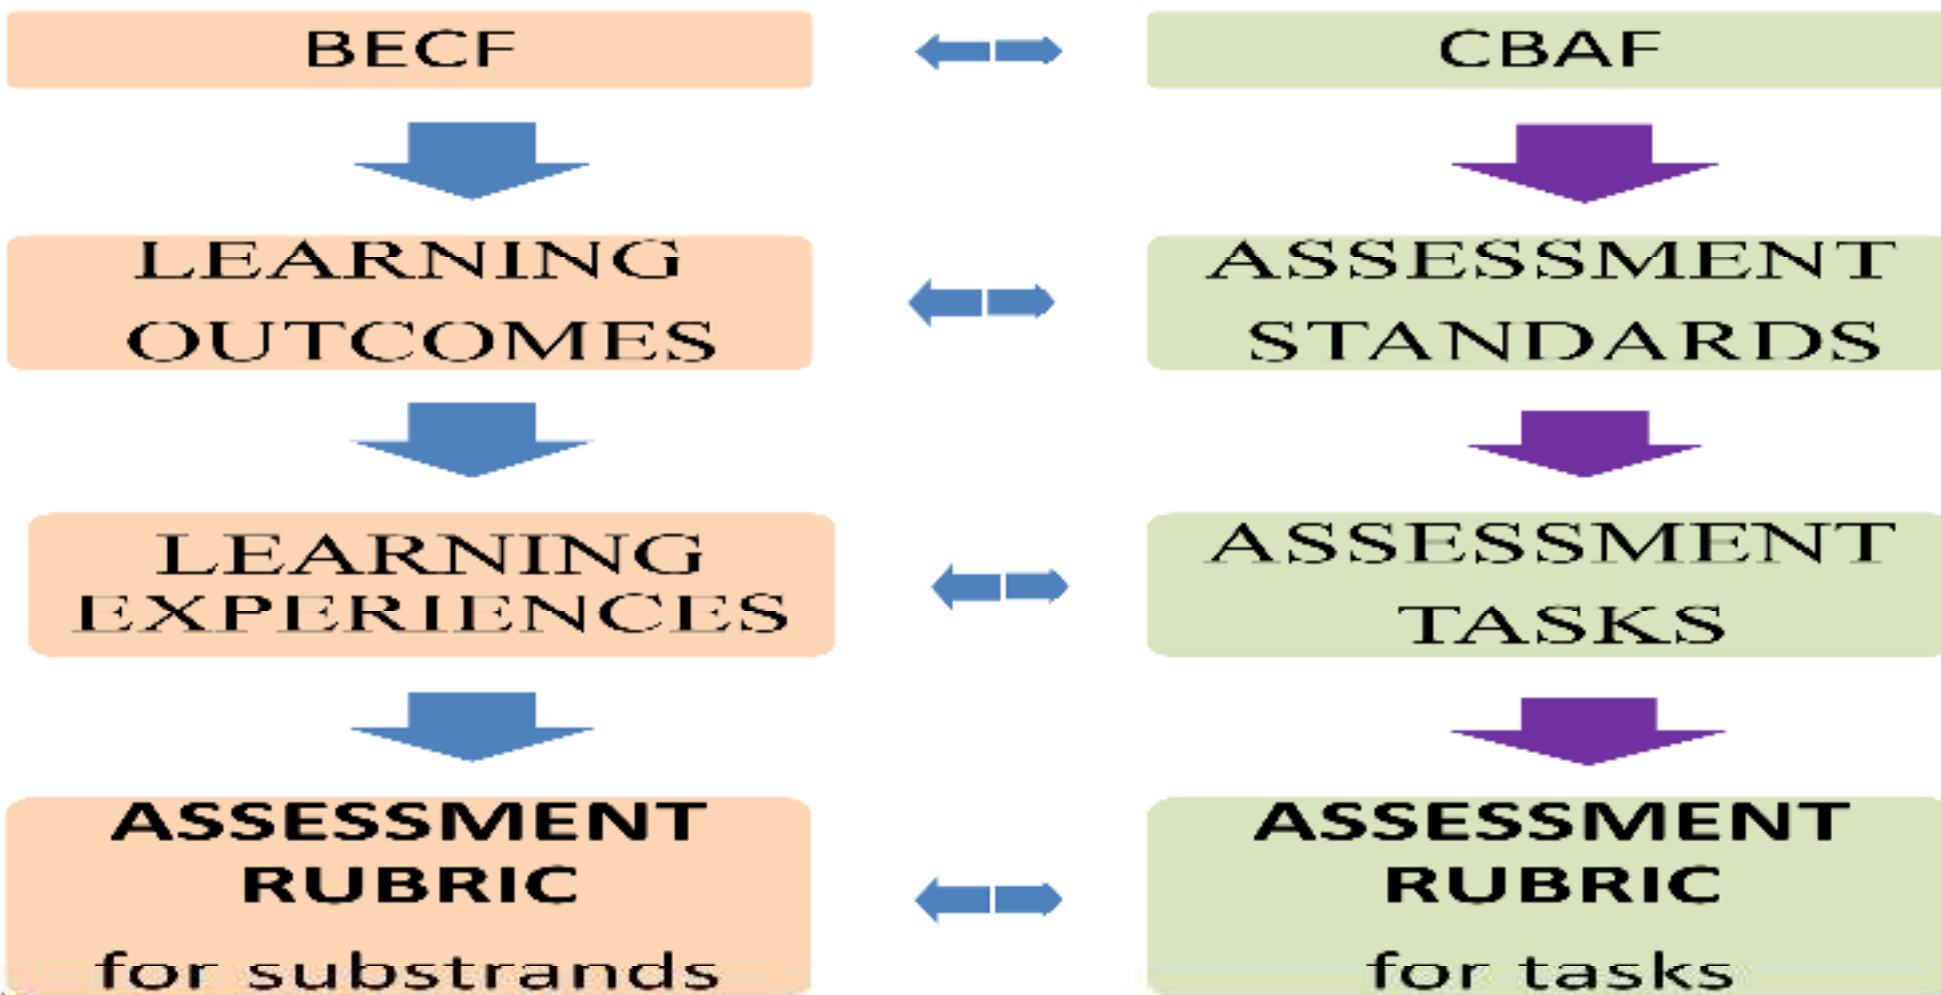

Aligning Learning Outcomes, Learning Experiences and Assessment

When designing assessment tasks the following questions may guide the teacher:

- ▶ What **learning outcomes** should learners acquire and demonstrate?
- ▶ What **learning experiences** are appropriate for learners in order to develop the **desired competencies**?
- ▶ What **assessment tasks** can be used to **measure** the learner's acquisition of the desired competencies?

Interrelationship of CBC and CBA

Paradigm Shifts in Assessment

Less of	More of.....
Assessment of learning (summative assessment)	Assessment for learning (formative assessment)
Assessment of knowledge acquired through rote learning	Assessment of competencies developed
Norm-referenced assessment	Criterion-referenced assessment
Competition	Collaboration and Cooperation

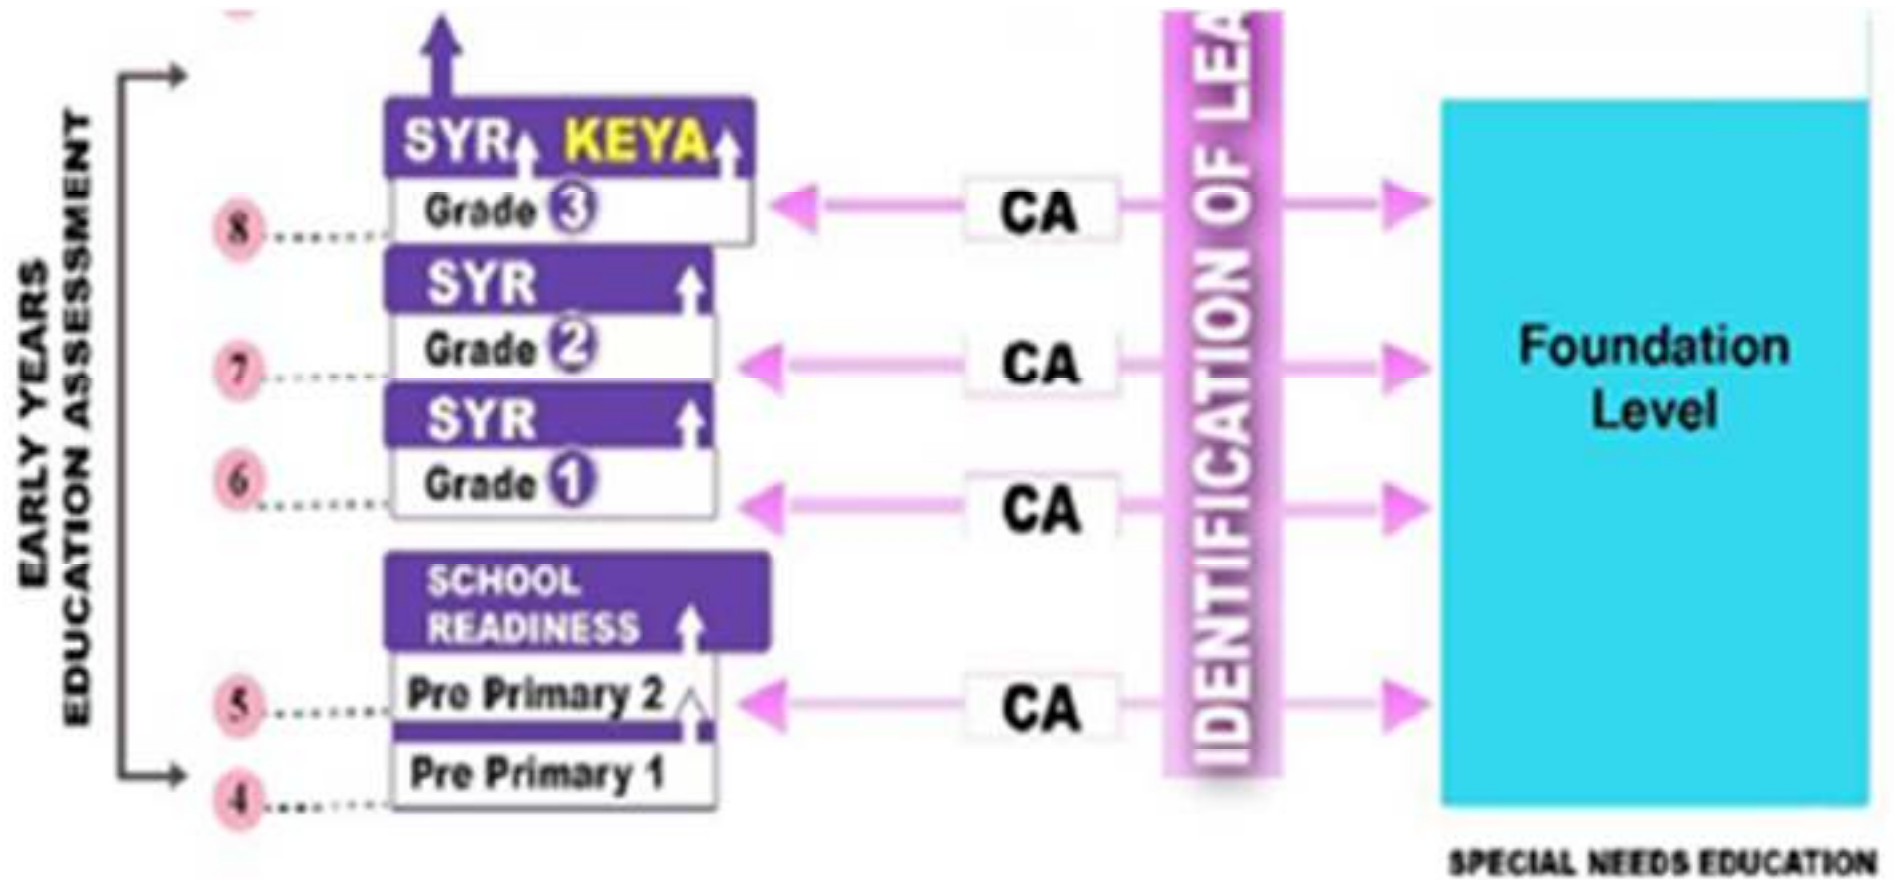

Paradigm Shifts ...(Cont'd)

Less of	More of.....
Rigidity (assessment based on a prescribed duration)	Flexibility (assessment based on the pace of the learner)
Assessment of lower order skills	Assessment of higher order skills
Teacher and national assessment	Learner and peer assessment
Arbitrary and imaginary assessment tasks	Authentic assessment tasks
Quantitative reporting of performance	Qualitative reporting of performance
Reproduction of knowledge	Demonstration of creativity and talents

Competency Based Assessment Framework for EYE

Competence Based Assessment Framework for Basic Education (CBAF)

AIM

- ▶ To provide a basis for creating a sound and sustainable assessment system, principles and professional standards of assessment.
- ▶ A means to improve education quality and learning outcomes for all learners at basic education levels.

Objectives of the Framework

- ▶ Improving **learning and instruction**;
- ▶ Identifying and **nurturing every learner's potential**;
- ▶ **Selection of pathways** and tracks in senior secondary school;
- ▶ **Measuring student achievement** and certification at the end of basic education in Grade 12;

Objectives contd...

- ▶ Establishing a means of measuring learners' participation in **Community Service Learning and acquisition of values** as mandatory part of the Learner Exit Profile at the end of Basic Education in Grade 12;
- ▶ **Providing feedback** to learners, schools, parents and other players in basic education; and
- ▶ **Providing a basis for accountability** of teachers, school administrators and other players in basic education

CBA FOCUS

More on :

- ▶ formative and less summative assessments
- ▶ assessment of higher order skills than lower order skills
- ▶ self and peer assessments by the learners
- ▶ multiple than one off assessments
- ▶ authentic assessments
- ▶ performance assessments
- ▶ qualitative than quantitative feedback
- ▶ acquisition of values

Assessment in CBAF

Classroom Assessment- (CA)

- ▶ Formative assessment is to be carried out by the teacher throughout the learning process

National Assessment

This will be carried out at the end of the Early Years Education

- ▶ Kenya Early Years Assessment (KEYA) at Grade 3

Types of Assessment in CBA

ACTIVITY 2

(03-Minutes)

- ▶ Participants to brainstorm on the different types of assessment used during the learning process.
- ▶ Few participants to make presentations.

Assessment for learning

- ▶ Assessment for learning is the process of **seeking and interpreting** evidence for use by teachers and learners.
- ▶ It uses both **formal and informal methods** to check whether learners are achieving the desired learning outcomes.
- ▶ This is **carried out on a continuous basis** to monitor the learner's progress and to collect information on learners' ability to demonstrate the required competencies.

Assessment as learning

- ▶ Assessment as Learning occurs when a learner is assisted to develop a capacity to be independent, **self-directed** to set individual goals, monitor own progress or self-assess, and reflect on his/her learning.
- ▶ The learner is provided with a clear roadmap to reach proficiency. Set criteria that have a variety of examples or models of good work for comparison are also provided as benchmarks.

Assessment of Learning

- ▶ Assessment of Learning is a comprehensive process used to summarize and communicate what a learner knows and can do with respect to curriculum learning outcomes and expectations at the conclusion of a defined instructional period, time or tier.
- ▶ It includes tests, examinations, performances, presentations, portfolio, and a variety of written, oral and visual methods.

Kenya Early Years Assessment (KEYA)

- ▶ A National assessment administered to all learners.
- ▶ KNEC to develop and upload the assessment items on a portal.
- ▶ Schools to access the items through the school password and print.
- ▶ Schools to administer the items.

Kenya Early Years Assessment (KEYA)

- ▶ KNEC to upload the scoring guide after the assessment has been undertaken.
- ▶ Teachers mark the assessment tasks.
- ▶ Teachers report their learners achievement for purposes of improving learning.
- ▶ KNEC to report the achievement levels at the system levels for informing policy.

English Activities Assessment

- ▶ Focuses on the assessment of the following skills
- ▶ Listening and speaking
- ▶ Reading Aloud
- ▶ Reading comprehension and Language structure
- ▶ Writing

Mathematics Activities Assessment

- ▶ assesses the learners' ability to **think critically, solve problems** and their **responsiveness to authentic tasks**.
- ▶ *The structure of the test will have some of the questions requiring;*
- ▶ **factual knowledge**;– either correct or incorrect
- ▶ **critical thinking** on the use of concepts and procedures to address a problem accomplish a task, or analyse a question.
- ▶ **extending their thinking** deeper within the subject they are learning, across the curriculum, and even beyond the classroom through the authentic tasks given.

Areas of Assessment for KEYA

- ▶ **Activity** (02 Minutes)
- ▶ Participants to state the learning areas taught at lower primary

Assessment areas for KEYA

Assessment for the Early Years Education at Grade 3 will be organized as follows:

Regular pathway

- ▶ English Language Activities assessment
- ▶ Mathematics Activities assessment
- ▶ Integrated Learning Areas: (All learning areas)

Integrated Assessment

- ▶ This is based on **interdisciplinary academic intelligence** or **synoptic assessment**;
- ▶ Ability to **tie subjects** together rather than studying them in **silos**. It shows students to **make connections** between Maths, Environmental, Art & craft, Hygiene & Nutrition, Language, Music etc... under **umbrella topics**.

ILA

- ▶ For KEYA the Assessment of integrated learning areas will be assessed through portfolio assessment. Performance tasks will be developed based on one strand and will then require drawing experiences from other learning areas.

Assessment areas for KEYA CONT'D

Special Needs Education Pathway (Foundation Level):

- ▶ Learners with special needs following the stage-based pathway at the foundation level shall be assessed in the learning areas:
- ▶ Communication, Social and Pre-Literacy
- ▶ Activities of Daily Living Skills.
- ▶ Integrated Learning Areas: (Orientation and mobility skills, Pre-numeracy skills, sensory-motor and creative activities).

THE KENYA NATIONAL EXAMINATIONS COUNCIL

Thank you!
