

KCSE GEOGRAPHY MODEL TEST PAPERS

Kenya Certificate of Secondary Education (K.C.S.E.)

312/1/2 - GEOGRAPHY - Paper 1&2

MODEL TEST PAPERS

MODEL 1-15

MARANDA HIGH SCHOOL

GEOGRAPHY

Paper 1

FORM 4 – MODEL TEST PAPERS

INSTRUCTION TO CANDIDATES

- Write your name and index number in the spaces provide above.
- Answer **ALL** the questions in section A
- Answer **Question 6 and any other two questions in section B**

1. (a) Name Two main branches of Geography (2marks)
- (b) What is the longitude whose local time is 6.00pm when local time at longitude 0° is 10.00 pm?(3marks)
- what is a weather station? (2marks)
- (b) Give three factors to consider when siting weather station (3marks)
3. (a) Identify two minerals that make up the continental crust (2marks)
- (b) State three causes of earth movement (3 marks)
- 4(a) Distinguish between Crater Lake and lava dammed lake (2marks)
- (b) State Three negative influence of lakes (3 marks)
- 5(a) State 4 ways in which hot desert vegetation has adapted to climatic conditions (4 marks)

SECTION B

Answer question 6 and any other two questions in this section

6. Study the map of Mariakani 1:50,000(sheet 197/4) provided and answer the following questions.
- (a)(i) Give four figure grid reference of GORA near North Samburu in the North Western part. of the map (2marks)
- (ii) Identify the adjoining sheet to the East of Mariakani Sheet (1 mark)
- (iii) Measure the length of bound surface A109 from the Eastern edge of the map to the function with loose surface Road C107 at grid square 5273. Give your Answer in Kilometers (2mark)
- (b)(i) What is the bearing of the Trigonometrical station at grid square 3880 from Air Photo principal point at grid square 3783. (2marks)
- (ii) Identify three types of natural vegetation found in the area covered by the map (3 marks)
- (c) Draw a rectangle 10cmx 8cm to represent the area bound by Easting 42 and 47 and Nothings 61 and 65 (1mark)
- On the rectangle mark and name the following;
- (i) Loose surface road
- (ii) River Matumbi
- (iii) Drift
- (iv) Location Boundary (4 marks)
- (d) Identify one method used to represent relief in the area covered by the map (2 marks)
- (e) Citing evidences from the map, give two economic activities in area covered by the map. (4 mark
- (f) Describe the drainage of the area covered by the map (4 marks)
- 7(a)(i) Distinguish between earth rotation and earth revolution (2 marks)

- (ii) State three effects of earth's revolution (3 marks)
- (b) (i) Give four characteristics of mesosphere in the structure of the atmosphere (4 marks)
- (ii) Describe the origin of continents according to continental drift theory (4 marks)
- (c) (i) Explain three proofs that the earth is spherical (6 marks)
- d) Using a well labeled diagram, describe the occurrence of lunar eclipse (6 marks)
8. (i) what is faulting (2 marks)
- (ii) Apart from Block Mountains, identify three features that result from faulting (3 marks)
- (b)(i) Name three major Rift valley in the world (3 marks)
- (ii) Use a well labeled diagram; describe how the Gregory rift valley may have been formed through Anticlinal arching (8 marks)
- c)(i) Name two lakes within the western section of the great rift valley (2 marks)
- (ii) Explain Three negative influence of faulting on human activities (6 marks)
- 9(a)(i) Define the term River (2 marks)
- (ii) State three factors that affect the rate of River erosion (3 marks)
- (b) Describe the following processes of river transportation (6 marks)
- (i) Solution
- (ii) Suspension
- (iii) Traction
- (c)(i) Name three types of River erosion (3 marks)
- (ii) Outline four conditions that favor river capture (4 marks)
- d) Your form three student intends to carry out a field study of a river at mature stage
- (i) State three ways they would prepare (3 marks)
- (ii) Give four feature they are likely to observe (4 marks)
10. (a)(i) Identify three components of soil (3 marks)
- (iii) Describe the formation of soil through decomposition of organic matter (4 marks)
- (b)(i) Give three types of soil structure (3 marks)
- (ii) Name two causes of soil degeneration (2 marks)
- (c) (i) Distinguish between derived and cultivated vegetation (2 marks)
- (ii) Outline three ways in which soil nutrient influence vegetation growth (3 marks)
- (d) You are supposed to carry out a field study on soil within your division
- (i) Why would you conduct reconnaissance trip (3 marks)
- (ii) Name two techniques you would use to collect samples (2 marks)
- (iii) State three methods you would use to collect data (3 mark)

MARANDA HIGH SCHOOL GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

SECTION A- 25 MARKS

Answer all the questions in this section

1. (a) What is mining? (2 marks)
- (i) Identify three underground methods of mining (3 marks)
2. (a) Distinguish between the forest and forestry (2 marks)
- b) State three importance of forest exploitation in Canada (3 marks)
3. (a) Name two modes of transport (2 marks)
- (b) Give three main reasons why most of the river in Africa are non-navigable (3 marks)
4. State five importance of coffee growing in Kenya (5 marks)
5. (a) Name two main types of fisheries (2 marks)
- (b) Identify three modern fishing methods (3 marks)

SECTION B

Answer question 6 (compulsory) and any other two questions in this section

6. Use the data below to answer questions that follow:

Kenya's Export crop (1986-1989) in tonnes

Year/crop	1986	1987	1988	1989
Coffee	12.6	10.0	9.1	9.8
Tea	11.6	13.5	13.8	16.3

Sisal	3.2	2.8	3.1	3.3
-------	-----	-----	-----	-----

(a)(i)

calculate the tones of crop export from Kenya between 1986-1989

(2 marks)

- (ii) Draw a compound bar graph to represent Kenya Export (1986-1989) (8marks)
(Scale 1 cm ref 5 tonnes)
- (iii) Give two advantages of using compound bar graphs to represent data (2 marks)
- (b) (i) Identify two major types of trade (2 marks)
(ii) Explain three factors that influence trade (6 marks)
- c) State five significance of trade to Kenya (5 marks)
- 7 (a) Define the following terms
(i) Wildlife (2 marks)
(ii) Tourism (2 marks)
- (b) (i) Outline four ways in which human activities influence distribution of wild life (4 marks)
(ii) Explain four measures that are being taken to conserve wildlife in East Africa (8 marks)
- (c) (i) Apart from wildlife, Identify any other three tourist attractions in Kenya (3 marks)
(ii) Compare tourism in Kenya and Switzerland (6 marks)
- 8 (a) (i) what is Migration? (2 marks)
(ii) Explain four causes of migration (8 marks)
- (b) (i) Apart from migration, Give two other factors that influence population growth (2 marks)
(ii) Explain three ways in which cultural beliefs influence population growth in Kenya (6 marks)
- (c) (i) Define the term Democracy (1mark)
(ii) What are the differences between population trends in Kenya and Sweden (8 marks)
- 9 (a) (i) Distinguish between land reclamation and land rehabilitation (2 marks)
(ii) Name three main irrigation schemes where rice is grown in Kenya (3 marks)
- (b) (i) Identify three methods of land reclamation used in Kenya (3 marks)
(ii) State two benefits from delta plan project in Netherlands (2 marks)
- (c) Compare land reclamation methods used in Kenya and Netherlands (6 marks)
- (d) (i) You are to carry out a field study in Perkerra irrigation scheme in Kenya why would you need to visit the scheme before actual day for field study (3 marks)
(ii) Name two crops you are likely to identify in the scheme (2 marks)
(iii) Give two methods of irrigation you are likely to identify (2 marks)
(iv) State two problems you are likely to face during the study (2 marks)
10. (a) (i) What is an industry (2 marks)
(ii) Name three types of Industries (3 marks)
- (b) (i) Give three characteristics of cottage industry in India (3 marks)
(ii) Explain the significance of iron and steel industry in the rural region in Germany (8marks)
- (c) You intend to carry out a field study in Jua Kali Industry in Kenya
(i) State two ways you would prepare (2 marks)
(ii) Give 2 methods you would use to record data (2 marks)
(iii) State the benefits of studying an industry through field study (3marks)
- (d) Give the importance of Jua kali sector in Kenya. (3 marks)

KENYA HIGH SCHOOL
GEOGRAPHY
Paper 1
FORM 4 - MODEL TEST PAPERS

SECTION A: (25 MARKS)

Answer all questions from this section.

1. (a) What is the relationship between geography and mathematics. (2mks)
(b) State four reasons why it is important to study geography. (4mks)
2. (a) Name two forms of precipitation that commonly occur in Kenya. (2mks)
(b) What is a Stevenson screen? (2mks)
3. (a) What is a land breeze? (2mks)
(b) Give two ways in which sea breezes influence the adjacent land. (2mks)
4. (a) Name the types of Coastal deltas. (2mks)

5. (b) Give three characteristics of a river in its middle stage. (3mks)
 (a) The diagram below shows some Coastal features. Name the features marked P, Q and R. (3mks)

beach →

- (b) State three conditions necessary for the formation of a beach. (3mks)

SECTION B:

Answer question 6 and any other Two questions from this section.

6. Study the map of Taita Hills 1 : 50,000 (sheet 189/4) provided and answer the following questions.
- (a) (i) What type of map is Taita Hills map extract. (1mk)
 (ii) Give two scales that have been used in the map extract. (2mks)
 (iii) Identify two features in the grid square and 24/9. (2mks)
 (iv) Measure the length of the all weather road loose surface from Maktau to the grid square 2525. Give your answer in kilometres and metres. (2mks)
- (b) Draw a rectangle measuring 12cm by 6cm to represent the area enclosed by Eastings 25 to 31 and Northings 20 to 23. (1mk)
- Dry weather road (1mk)
 - Dam (1mk)
 - Rock outcrop (1mk)
 - Prison (1mk)
- (c) (i) Describe the drainage of the area covered by the map. (6mks)
 (ii) Identify three natural vegetation in the area covered by the map. (3mks)
- (d) Citing evidence from the map extract; identify four economic activities from the area covered by the map. (4mks)
7. (a) Differentiate between river rejuvenation and river capture. (2mks)
 (b) Give three features resulting from:
 (i) river rejuvenation. (3mks)
 (ii) river capture (3mks)
 (c) Explain the four ways through which a river transports its loads. (8mks)
 (d) Students from your class conducted a field study on an old stage of a river.
 (i) State three reasons why they would require a route map. (3mks)
 (ii) Identify three characteristics the river would they would have observed (3mks)
 (iii) State three follow up activities they would have involved in after the field study. (3mks)
- 8.(a) (i) Apart from the Riftvalley, name three other relief features formed as a result of faulting. (3mks)
 (ii) Using well labeled diagrams, describe how a Riftvalley is formed through tensional forces. (8mks)
 (b) Explain three ways in which faulting may influence drainage system. (6mks)
 (c) Describe four ways in which features resulting from faulting are of significance to the economy of Kenya. (3mks)

9. (a) (i) Define the term weather. (2mks)
 (ii) Explain how the following factors influence weather. (4mks)
 • Cloud cover (4mks)
 • Local winds
- (b) Study the diagram below and answer the questions that follows:

- (i) Which element of weather is measured using the instrument shown? (1mk)
 (ii) Describe how the above instrument is used. (3mks)

(c) Study the table given below and answer the questions that follows:

Days	S	M	T	W	T	F	S
Rainfall (mm)	50	49	55	45	60	60	49
Temp ⁰ C	22	24	23	22	21	22	23

- (i) Calculate the temperature range for the week. (1mk)
 The mean weekly rainfall. (2mks)
- (ii) State four characteristics of the weather of a station represented by the above date. (4mks)
- (d) Give four characteristics of the stratosphere. (4mks)
10. (a) (i) State three characteristics of horizon B in a soil profile. (3mks)
 (ii) Apart from humus Dave three components of soil. (3mks)
 (iii) State three ways in which humus contributes to the quality of soil.
- (b) (i) Differentiate between soil structure and soil texture. (2mks)
 (ii) Explain how the following factors influence the formation of soil.
 • Topography (6mks)
 • Time (2mks)
- (c) Explain how the following farming practices may lead to loss of soil fertility.
 (i) Overgrazing. (2mks)
 (ii) Frequent ploughing (2mks)
 (iii) Continous irrigation (2mks)

KENYA HIGH SCHOOL GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

Answer all questions in this section

1. (a) Differentiate between manufacturing and tertiary industries. (2mks)
(b) State three factors that led to the growth of iron and steel industry in the Ruhr region of Germany. (3mks)
2. (a) State three environmental conditions which favour commercial beef farming in Kenya. (3mks)
(b) Name two exotic breeds of cattle reared in commercial ranches in Kenya. (2mks)
3. (a) Why is it necessary to conserve water? (2mks)
(b) How does terracing help in water conservation? (3mks)
4. (a) State three reasons why National Parks have been established in Kenya. (3mks)
(b) Apart from marine parks give two other tourist attractions found at the Coast of Kenya. (2mks)
5. ***Use the sketch map of Lake Victoria below to answer question (a)***

- (a) Name the lake ports marked **P**, **Q** and **R**. (3mks)
- (b) Outline two advantages of using containers while handling goods at the port of Kisumu

SECTION B

Answer question 6 and Any other TWO questions from this section

6. The table below shows the population of a country in Western Europe in 1000. Use it to answer part a – c.

Age – group	Male	Female
0 – 4	450	455
5 - 9	447	449
10 – 14	448	450
15 – 19	454	458
20 – 24	480	472
25 – 29	630	632
30 – 34	635	639
35 – 39	642	671

40 – 44	670	638
45 – 49	636	568
50 – 54	562	641
55 – 59	633	639
60 – 64	631	634
65 – 69	451	452
70 – 74	470	468
75 – 79	460	459
80+	451	453

(a) Using a scale of 1cm to 100,000 people, Draw a population pyramid from the above data. (5mks)

(b) State five characteristics of the above population structure shown by the pyramid. (5mks)

(c) Explain four problems likely to be experienced due to the population trend in the above country. (8mks)

(d) (i) What is mortality rate? (2mks)

(ii) State five measures that have been taken in Kenya to reduce infant mortality in Kenya. (5mks)

7. (a) (i) Apart from water and air pollution name two other types of pollution. (2mks)

(ii) Identify three ways through which water is polluted. (3mks)

(iii) Explain three effects of air pollution on the environment. (6mks)

(b) (i) Explain three factors that lead to frequent flooding in the lake region of Kenya. (6mks)

(ii) Explain two ways through which floods are controlled in the lake region of Kenya. (4mks)

(c) State four effects of wind as an environmental hazard in Kenya. (4mks)

8. (a) (i) Define the term tourism. (1mk)

(ii) Name two tourism attraction found in the Great Rift Valley of Kenya. (2mks)

(b) Explain four factors which hindered the development of domestic tourism in Kenya. (2mks)

(c) Explain three problems experienced by the Kenya government in its effort to conserve wildlife. (6mks)

(d) Explain four factors which have made Switzerland a major tourism destination in Europe. (8mks)

9. (a) (i) What is energy crisis? (2mks)

(ii) State four causes of energy crisis? (4mks)

(b) (i) Name three non-renewable sources of energy. (3mks)

(ii) Apart from Seven Forks Dam project, name two other hydro electric plants in Kenya. (2mks)

(iii) Explain four factors that favoured the establishment of Seven Forks dam project. (8mks)

(c) (i) State two effects of energy use on environment. (2mks)

(d) Suggest any four ways to minimize energy wastage. (4mks)

10. (a) Apart from Mwea, name five large irrigation schemes in Kenya. (5mks)

(b) Explain four conditions that made Mwea a suitable location for irrigation scheme. (8mks)

(c) Explain three benefits to farmers in the Pekerra irrigation scheme. (5mks)

(d) Explain three problems experienced by farmers in the Perkeria irrigation scheme. (6mks)

KAPSABET BOYS HIGH SCHOOL

GEOGRAPHY

Paper 1

FORM 4 - MODEL TEST PAPERS

SECTION A

Answer all questions in their sections .

1. The block diagram below represents parts of the earth crust which has been subjected to tensional forces.

- a. Name the parts marked A and B. (2 marks)
- b. State three ways in which faulting can influence drainage systems. (3 marks)
2. a. State two causes of submergence of coasts. (2 marks)
- b. Name three features that form as a result of submergence of coasts. (3 marks)
3. a. Name three components of soil. (3 marks)
- b. State two economic uses of soils. (2 marks)
4. i. What is glacier? (1 mark)
- ii. Distinguish between valley glacier and ice sheet. (2 marks)
- iii. State two significance of upland glaciated features to human activities. (2 marks)
5. a. What is a natural vegetation? (2 marks)
- b. State three characteristics of Mediterranean vegetation. (3 marks)

SECTION B (75 MARKS)

-
- Answer question 6 and any other two question from this section.**
6. Study the map of Oyugi 1: 50000 (Sheet 130/1) provided and answer the following questions.
- a. i. What is the vertical interval of the area covered by the map? (1 mark)
 - ii. State the approximate height of God Nyakwa Hill. (2 marks)
 - iii. Calculate the current magnetic declination of the area covered by the map. (2 marks)
 - b. Explain any three factors that favour trading in the area covered by the map. (6 marks)
 - c. Describe the distribution of the natural vegetation found in the area covered by the map. (6 marks)
 - d. i. Draw a cross section from the grid reference 875 360 to the grid reference 940 360. use a scale of 1 cm to represent 50 ft. (4 marks)
 - ii. On the cross-section, mark and name
 - A river
 - District boundary
 - All weather road : Bound surface
 - A seasoned swamp
 (4 marks)
7. a. i. Define the term precipitation. (2 marks)
- ii. Apart from dew, state three other forms of precipitation experienced on the slopes of Mount Kenya. (6 marks)
- iii. Explain three conditions that favour formation of dew. (6 marks)
- b. Use the table below to answer the following questions:

Month	J	F	M	A	M	J	J	A	S	O	N	D
Temp (°C)	23	23	23	24	23	22	23	22	23	23	24	23
Rainfall (mm)	1313	1400	1480	1502	1460	1400	1480	1480	1480	1500	1508	1490

- i. Calculate:
 - The temperature range (1 mark)
 - The annual rainfall (2 marks)
- ii. Describe the characteristics of the climatic regions from where the above data was collected. (6 marks)
- c. State the major five characteristics of the Inter-Tropical Convergence Zone. (ITCZ) (5 marks)

8. Study the diagram below.

- a. i. Name features marked x, y and z. (3 marks)
 - ii. Explain how a sill is formed. (4 marks)
 - b. Describe the characteristic of a composite volcano. (4 marks)
 - c. Explain four ways in which volcanic mountain positively influence human activities. (8 marks)
 - d. Students carried a field study on volcanic rocks.
 - i. Give four reasons why it is necessary to collect rock samples during such study. (4 marks)
 - ii. State two problems they are likely to encounter. (2 marks)
9. a. What is a river? (2 marks)
- b. i. State three ways through which a river transport its loads. (3 marks)
 - ii. State three conditions necessary for the formation of a delta. (3 marks)
 - iii. Give three characteristics of a flood plain. (3 marks)
- c. With an aid a well labeled diagrams, describe how the following drainage patterns are formed.
- i. Trellis pattern. (3 marks)
 - ii. Dendritic pattern. (3 marks)
- d. Geography students of Njia boys conducted a field. Work on the layout of R. Tana. Use the diagram drew to answer the questions.

- i. Name the parts marked A, B, C and D. (4 marks)
 - ii. Give two reasons why the students required a working schedule. (2 marks)
 - iii. State two activities students did before they went for their field work. (2 marks)
10. a. Name three types of desert landscapes. (3 marks)
- b. Explain three ways through which the wind carries out erosion in the desert. (6 marks)
 - c. With an aid of a well labeled diagram, describe how a rock pedestal is formed. (6 marks)
 - d. State two factors which influence transportation of materials by wind in deserts. (2 marks)
 - e. Explain four ways through which desert influence human activities. (8 marks)

KAPSABET BOYS HIGH SCHOOL
GEOGRAPHY
Paper 2
FORM 4 - MODEL TEST PAPERS

SECTION A

Answer all the questions in this section.

1. a. Define the term Geography. (1 mark)
- b. Name two main branches of Geography. (2 marks)
- c. Give two reasons why it is important to learn Geography. (2 marks)
2. a. Differentiate between land reclamation and land rehabilitation. (2 marks)
- b. Name three crops grown in polders in Netherland. (3 marks)
3. a. What is balance of trade? (2 marks)
- b. Give three reasons why Kenya experiences unfavorable balance of trade. (3 marks)
4. a. Define the term Mining. (2 marks)
- b. State three effects of open cast mining to the environment. (3 marks)
5. a. What is pipeline transport? (2 marks)
- b. Name three modes of transport. (3 marks)

SECTION B (75 MARKS)

Answer question 6 and any other two questions from this section.

6. The table below shows the estimates of cattle breeds in a country from 1990 - 1993.

Year Cattle	1990	1991	1992	1993
Galloway	20000	15000	18000	19000
Aberdeen Angus	15000	10000	11000	9000
Ayrshire	9000	5000	9000	12000
Boran bulls	14000	20000	17000	15000
Jersey	35000	20000	25000	30000
Friesian	25000	20000	15000	17000

- a. i. Calculate the percentage of Boran bulls in 1990. (2 marks)
 - ii. Calculate the percentage of the Jersey breed in the given period. (3 marks)
 - b. Draw a divided rectangle 15 cm long to represent the data for 1992. (7 marks)
 - c. Explain four measures that a government of Kenya has taken to improve pastoral farming. (8 marks)
 - d. State any five problems facing dairy farming in Kenya. (5 marks)
7. a. What is forestry? (2 marks)
- b. Explain three factors that favour the growth of natural forests on Nyambene forest. (6 marks)
- c. State five factors that have led to the reduction of the area under forest on Nyambene forest. (5 marks)
- d. Explain four measures that the government of Kenya is taking to conserve forest in the country. (4 marks)
- e. Give the difference in the exploitation of softwood forest in Kenya and Canada under the following sub-endings.
- i. Transportation. (2 marks)
 - ii. Period of harvest. (2 marks)

8. Study the map of India below and answer the following questions.

- a. Name the industrial zones marked A, B, C and D. (4 marks)
 - b. State four characteristics of cottage industries in India. (4 marks)
 - c. i. Give three examples of cottage industries in Kenya. (3 marks)
 - ii. Explain four significance of cottage industry in India. (8 marks)
 - d. Explain three problems facing the Ruhr industrial region of Germany. (6 marks)
9. a. Define the following terms:
- i. Fertility. (2 marks)
 - ii. Fecundity (2 marks)
- b. i. Explain three problems that result from high population growth in Kenya. (6 marks)
- ii. Highlight any four differences between Kenya's population and that of Sweden. (8 marks)
- c. Outline the four causes of the rural - rural migration in East Africa. (4 marks)
- d. State any three factors influencing population distribution in East Africa. (3 marks)

10. a. Define the term fish farming. (2 marks)

b. i. Name two main inland fishing grounds in Kenya. (2 marks)
- ii. Explain four reasons why the government of Kenya is encouraging fish farming. (8 marks)
- c. State four reasons why marine fishing is less developed in the E. African coast. (4 marks)
- d. i. Name three main fishing ports in Japan. (3 marks)
- ii. Explain three factors that favours fishing in Japan. (6 marks)

MANG’U HIGH SCHOOL
GEOGRAPHY
Paper 1
FORM 4 - MODEL TEST PAPERS

SECTION A

Answer all questions in section A.

1. (a) State two major areas covered under physical geography. (2 marks)
(b) State the reasons why interior of the earth is very hot. (2 marks)
2. (a) What is a line of longitude? (2 marks)
(b) What is the local time of Alexandria 30°E when the local time at Malindi 40°E is 12.00 noon? (2 marks)
3. (a) State three causes of earth movement. (3 marks)
(b) Name two main earthquake zones in the world. (2 marks)
4. (a) Name three features found on emerged highland coast. (3 marks)
(b) State three conditions necessary for the formation of a spit. (3 marks)
5. (a) Highlight any three factors that necessitate the occurrence of an artesian basin. (3 marks)
(b) Apart from lakes, rivers and sea, name any other two sources of underground water. (3 marks)

SECTION B

Answer question 6 and any other two questions from this section.

6. Study the map of Kitale provided below and answer the questions that follow.
 - (a) (i) Convert the linear scale on the map into a representative fraction (show your working) (3 marks)
(ii) Name the districts covered by the map. (3 marks)
(iii) Calculate the area covered by Kitale township. (2 marks)
 - (b) Using a scale of 1cm represent 40m, draw a cross-section from grid reference 430170 to 500170 on it.

Mark and name :
 - (i) - Dry weather road
- River Kaptarit
- The sharp (6 marks)
 - (ii) Calculate the vertical exaggeration. (2 marks)
 - c) Describe the relief of the area covered by the map. (6 marks)
 - (d) Explain how drainage has influenced the distribution of settlements in the area covered by the map. (3 marks)
7. (a) (i) Define the term volcanicity. (2 marks)
(ii) State three types of lava associated with volcanic activities. (3 marks)
(b) (i) Identify four types of intrusive igneous landforms. (4 marks)
(ii) With aid of diagrams, describe how a crater lake is formed by violent disintegration. (6 marks)
(c) Explain three economic significance of volcanic activities. (6 marks)
(d) You recently carried out a field study of an area which has been affected by volcanicity.
 - (i) Give two ways in which you prepared for the field study. (2 marks)
 - (ii) Outline two factors that made it difficult for you to collect accurate data during the field study. (2 marks)
8. (a) Study the map of Africa showing the main climatic regions marked 1,2,3,5 and 6.

- (i) Name the climatic regions labeled 1,2 and 5. (3 marks)
- (ii) State five characteristics of the climatic regions labeled 5. (5 marks)
- (iii) Name three factors that influence the climatic region labeled I. (3 marks)
- (b) (i) Name three water towers in Kenya. (3 marks)
- (ii) Give five measures being taken to conserve forests in Kenya. (5 marks)
- c) Describe six vegetation adaptations in Sahara and Namib. (6 marks)
9. (a) Differentiate between mass wasting and weathering. (2 marks)
- (b) (i) Apart from soil creep, name two other processes of slow mass movement. (2 marks)
- (ii) Explain three causes of soil creep. (6 marks)
- (iii) Explain three physical conditions that influence landslides. (3 marks)
- c) Describe the following processes of mass wasting.
- (i) Rock fall. (2 marks)
- (ii) Subsidence (2 marks)
- (iii) Mud flows (2 marks)
- (d) Explain the effect of weathering in the following.
- (i) Tourism (2 marks)
- (ii) Agriculture (2 marks)
- (iii) Pottery. (2 marks)
10. (a) (i) Define the term glaciation. (2 marks)
- (ii) Name three types of glaciers. (3 marks)
- (b) Describe how the following features found in upland glaciated landscapes are formed.
- (i) U-Shaped valley (5 marks)
- (ii) Pyramid peak. (5 marks)
- c) Explain three significance of upland glaciated features to human activities. (6 marks)
- (d) Suppose you were to carry out a field study of a glaciated lowland.
- (i) State two advantages of using oral inter views to collect information during the field study. (2 marks)
- (ii) Name two features found in glaciated lowlands that you are likely to study. (2 marks)

MANG'U HIGH SCHOOL

GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

SECTION A

Answer all questions in this section.

1. (a) Define the term environment. (2 marks)
(b) State two types of environment. (2 marks)
2. (a) Name two areas in Kenya where oil has been prospected. (2 marks)
(b) State two advantages of having petroleum mining in Kenya. (2 marks)
(c) State two conditions necessary for the formation of petroleum. (2 marks)
3. (a) Name three physical conditions that favour sugarcane growing in Kenya. (3 marks)
(b) State three problems experienced by sugarcane farmers in Kenya. (3 marks)
4. (a) List two exotic breeds of beef cattle reared in commercial ranches in Kenya. (2 marks)
(b) State three environmental conditions favouring commercial beef farming in Kenya. (3 marks)
5. (a) State two climatic conditions that favor the growing of oil palm in Nigeria. (2 marks)
(b) Give two problems experienced in the marketing of palm oil in Nigeria. (2 marks)

SECTION B

Answer Question 6 and any other two questions in this section.

6. The table below shows production of three major crops in Kenya in '000 tones between 2001-2004. use it to answer Question (a)

Crop	2001	2002	2003	2004
Tea	5500	4750	4500	5750
Coffee	4000	4750	5000	5250
Wheat	3500	3750	3000	2750

- (a) (i) Draw a divided/ cumulative bar graph to represent the data. (7 marks)
(ii) Calculate the cumulative difference in production between tea and coffee from 2001-2004. (2 mark)
- (b) (i) Name two counties in Kenya where wheat is grown on large scale. (2 marks)
(ii) State two factors which favour wheat farming in Canada. (2 marks)
(iii) Explain three reasons why Canada produces more wheat than Kenya. (6 marks)
- (c) Explain three physical factors that favour tea farming in Kenya. (6 marks)
7. (a) Define the term mineral. (2 marks)
(b) (i) Name two areas in South Africa where diamonds are mined. (2 marks)
(ii) Give four ways in which minerals occur. (4 marks)
(c) (i) Explain three negative effects of mining on environment. (6 marks)
(ii) Identify two methods of mining. (2 marks)
(iii) Name a port through which minerals mined in E. Africa are exported. (1 mark)
(d) Explain four ways in which Soda ash contributes to the economy of Kenya. (8 marks)
8. (a) (i) Define the term forestry. (2 marks)
(ii) Name three forest reserves found in the Coastal region of Kenya. (3 marks)
(b) (i) State three ways in which the clearing of forest has affected the natural environment of Kenya. (3 marks)
(ii) Why is it necessary to carry out afforestation programmes in Kenya? (3 marks)
(c) Explain four factors that have favoured the growth of natural forests on the slopes of Mt. Kenya.

- (8 marks)
- d) Explain three problems that affect forestry in Canada. (6 marks)
9. (a) (i) Give four factors common to Kenya and the Netherlands that have favoured horticultural farming. (4 marks)
- (ii) State three features of horticultural farming in the Netherlands. (3 marks)
- (b) The table below shows the quality and value of Kenya's horticultural exports between June 2008 and June 2009. Use it to answer question b.

Month	Quantity (metric tonnes)	Value (Ksh. in millions)
June 2008	15,300	3,480
July	15,600	3,900
August	14,000	4,000
September	14,900	3,500
October	15,600	4,000
November	14,700	4,020
December	14,000	4,000
January 2009	15,900	4,700
February	16,000	4,100
March	17,500	4,400
April	14,900	3,700
May	15,190	3,800
June	14,600	3,600

- (i) What was Kenya's total value of exports from horticulture between June 2008 and June 2009? (2 marks)
- (ii) Comment on the trend of the quantity of Kenya's horticultural exports between June 2008 and 2009. (3 marks)
- (iii) Using the data provided, draw a simple line graph to represent the quantity of Kenya's horticultural exports. (Use a vertical scale of 1cm to represent 500 metric tonnes. (5 marks)
- (c) Explain four difficulties that farmers in Kenya experience in marketing horticultural products. (8 marks)
10. (a) State the characteristics of nomadic pastoralism. (6 marks)
- (b) (i) Draw an outline map of Africa. On it mark the areas where the following pastoral communities are found. (2 marks)
- Maasai
 - Tuareg.
 - Fulani
- (ii) List down four problems that face nomadic pastoralist in Kenya. (4 marks)
- c) Name three factors that have favoured beef cattle farming in Argentina. (3 marks)
- (d)(i) List down two dairy cattle breeds reared in Denmark. (2 marks)
- (ii) Compare dairy farming in Kenya and Denmark. (8 marks)

STRATHNORE SCHOOL

GEOGRAPHY

Paper 1

FORM 4 - MODEL TEST PAPERS

1. a) What is a line of longitude? (2mks)
b) What is the time at Moyale on 38°E when the time at Tema on prime meridian (0°) is 1.00p.m? (3mks)
2. a) Name two theories of the origin of the Earth. (2mks)
b) Identify three layers of the earth's atmosphere. (3mks)
3. a) Name the scale used to measure the magnitude of an earthquake. (1mk)
b) List three causes of earthquakes. (3mks)
4. a) Identify three ways in which ice moves. (3mks)
b) State three types of glacial moraines. (3mks)
5. a) State five factors that influence mass wasting. (5mks)

SECTION

B.

Answer question 6 and any other two in this section.

6. Study the map of Oyugis (1:50000) sheet 130/1 provided and answer the questions that follow.
 - a)
 - i) Show the latitudinal extent of the area covered by the map. (1mk)
 - ii) Name two administrative district covered by the area shown in the map. (2mks)
 - iii) Calculate the area east of the all-weather Kisii-kabondo road. (2mks)
 - b) Draw a rectangle 16cm by 12 cm to represent the area enclosed by Easting 80 and 88 and the Northing 36 and 42. (1mk)
On the rectangle mark and name the following features.
 - i. Ombeck school (1mk)
 - ii. Migori river (1mk)
 - iii. Secondary trigonometrical station (4946)(1Mk)
 - iv. Ragwe Hill (1mk)
 - c) Citing evidence from the map give three types of crops grown in the area north of Northing 40. (3mks)
 - d) Describe the relief of the area covered by the map south of Northing 26. (4mks)
 - e) Students from Ombek school carried out a field study on vegetation around their school.
 - i. Using evidence from the map explain three factors that may have favored the growth of coffee in the eastern parts of the area covered by the map. (3mk)
 - ii. Give three types of vegetation they would study in the area. (3mks)
 - iii. What problems are they likely to experience in the area of study. (2mks)
7. a)
 - i) Name three types of faults. (3mks)
 - ii) Apart from compressional forces, explain two other processes that may cause faulting. (4mks)
- b)
 - i) With, the aid of a well labeled diagram, describe how a rift valley is formed by compressional forces. (6mks)
 - ii) Explain three ways in which faulting may influence drainage system. (6mks)
- c) Explain three ways in which faulting is of significance to human activities. (6mks)
8. a)
 - i) Identify two processes through which wind erodes the earth's surface. (2mks)
 - ii) Name two major deserts found in Africa. (2mks)
- b) The diagram below represents a barchan. Use it to answer b(i)

- i) Name the feature marked .
J (1Mk)
K(1Mk)
- ii) Describe how the following features found in hot desert are formed.
An oasis (5mks)
A yardang (5mks)
- c) You are supposed to carry out a field study of a semi-arid area in Kenya.
 - i. State three ways through which you would prepare yourself for the field study. (3mks)
 - ii. What information would you collect through observation that would indicate that the area is turning into a desert? (3mks)
 - iii. State three measures you would recommend to be put in place to control desertification in the area. (3mks)
9. a) i) What is natural vegetation? (2mks)
ii) Identify the temperate grasslands found in the following countries.
.Russia . (1mk)
Argentina (1mk)
Australia. (1mks)
- b) i) Describe the characteristics of the tropical rainforest. (8mks)
ii) Explain three ways in which the desert vegetation adopts to the environmental conditions of the region. (6mks)
- c) Explain three causes of the decline of the areas under forests in Kenya. (6mks)
10. a) i) What is micro-climate? (2mks)
ii) State two negative effect of desertification. (2mks)
- b) Draw a sketch map Africa and indicate the ocean currents.
i. Benguela, Guinea, Agulhas/ Mozambique. (4mks)
ii. State two effects of Benguela Current on the adjacent coastlands. (2mks)
- c) Describe the characteristics of the Equatorial type of climate. (8mks)
- d) Explain how the following factors influence climate.
i. Altitude. (4mks)
ii. Distance from the sea. (3mks)

STRATHNORE SCHOOL

GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

SECTION

A.

1. a) What is mining? (2mks)
b) State 3 benefits of soda Ash mining to the economy of Kenya. (3mks)
2. a) State 2 factors that determine the distribution of forest in KENYA. (2mks)
b) State 3 factors that have led to the reduction of the area under forest on the slopes of Mt. Kenya. (3mks)
3. a) State 2 factors that hinder domestic tourism in KENYA. (2mks)
b) Give measures taken by the East African countries to manage wildlife. (3mks)
4. a) Give 2 methods used to reclaim land in Kenya. (2mks)
b) State 3 problems experienced in irrigation farming in Kenya. (3mks)
5. a) A part from floods and environmental pollution, name any other 3 environmental hazards. (3mks)
b) Give 2 reasons why it is necessary for Kenya to conserve the environment. (2mks)

SECTION

B:

Answer question 6 and other two from this section.

6. The table shows the approximate population of four districts in Central Province in 1999. *Use it to answer questions(a) Population for four district in central province.*

<i>District</i>	<i>Population</i>
Murang'a	350,000
Maragua	390,000
Nyandarua	470,000
Thika	650,000
TOTAL	1,860,000

- a) Suggest 2 possible reasons why the population of Thika district is higher than that of Murang'a. (2mks)
- b) i) State 3 reasons why it is necessary for a country to carry out population census. (3mks)
ii) Outline the information that can be derived from a population pyramid. (3mks)
- c) Explain how the following factors have led to the population increase in Kenya.
 - i. Early marriages. (2mks)
 - ii. Improved medical facilities. (2mks)
 - iii. Cultural beliefs. (2mks)
- d) Explain 3 problems which result from a high population growth rate in Kenya. (6mks)
6. e) Students of a certain school intends to carry out a field study on the living standards of Murang'a people.
 - i. State two reasons why it would be necessary to visit the area of study in advance. (2mks)
 - ii. One of the ways they would use to collect the data is through direct observation. Give three disadvantages of direct observation in the study of such an area. (3mks)
7. a) State 3 physical conditions that favour coffee growing in the Central highlands of Kenya. (3mks)
b) Describe the stages involved in coffee production from picking to marketing. (8mks)
c) i) Explain 4 problems facing coffee farming in Brazil. (8mks)
ii) A part from being a beverage, state 2 other uses of coffee. (2mks)
e) Explain 2 significance of coffee industry to the Kenyan economy. (4mks)
- 8) a) i) Define the term fisheries. (2mks)
ii) Give 2 methods used to preserve fish. (2mks)

- b) Explain 4 factors that favor the fishing industry in Japan. (8mks)
- c) Describe purse seining as a method of fishing. (6mks)
- d) i) State 4 problems experienced in the marketing of fish in Kenya. (4mks)
- ii) State 3 ways in which Kenyan Government is promoting the fishing industry in the country. (3mks)
9. Below is a sketch map showing part of the Great lake and St. Lawrence sea way. Use it to answer question. (a)

- a) Name i) The port marked P (1mk)
- ii) The canal marked Q. (1mk)
- iii) The lake marked R. (1mk)
- b) State 3 ways in which the Great St. Lawrence Sea way has contributed to the economy of Canada and the United States of America (U.S.A) (3mks)
- i) Name 3 international airports in KENYA. (3mks)
- ii) Give 4 advantages of Air transport over road transport. (4mks)
- iii) Explain 4 measures that should be taken to improve road transport in Kenya. (8mks)
- vi) Give reasons why there is limited use of river transport in Africa. (4mks)
10. a) Name 3 agricultural food processing industries in Kenya (3mks)
- b) Explain how the following factors have favoured the development of Industries in Thika town.
- i. Proximity to Nairobi. (2mks)
- ii. Availability of water. (2mks)
- iii. The hinter land. (2mks)
- c) Explain 4 ways in which Kenya has benefited from industrialization. (8mks)
- d) i) Name 2 towns in KENYA where motor-vehicle assembling plants are located. (2mks)
- iii) Explain 3 factors which have favored the development of car manufacturing industry in Japan. (6mks)

ALLIANCE BOYS HIGH SCHOOL

GEOGRAPHY

Paper 1

FORM 4 - MODEL TEST PAPERS

SECTION A

1. a) Give two factors that influence Temperature (2marks)
b) State three reasons why weather forecasting is important to farmers (3marks)
2. a) Name two scales used to measure the intensity of earthquake (2marks)
b) Give three natural causes of earthquake (3marks)
3. a) Give two processes of slow mass wasting (2marks)
b) State three physical conditions that may influence landslides (3marks)
4. a) State two conditions necessary for the development of Karst scenery (3marks)
b) Give two reasons why there are few settlements in Karst landscapes (2marks)
5. a) Define the term mineral (1mark)
b) Distinguish between porous and pervious rocks (2marks)
c) List two factors that influence the development of a soil profile (2marks)

SECTION B

MAPWORK: COMPULSORY

6. You are provided with Nkubu topographical map sheet No 122/1/ to answer the following questions
 - a. i) Measure the all weather road from Meru to the Junction at Nkubu (2marks)
ii) Identify the relief features found in arid square 3889 (1mark)
 - b. Give the compass bearing of trigonometric station 122ST8 in grid square 4193 from the air photo principal point in grid square 4698 (2marks)
 - c. i) Using a vertical scale of 1 cm to represent 50m.
Draw a cross section from 4792 to 5390 (4 marks)
On it indicate
 - a) A river valley
 - b) All weather road (2marks)
 - ii) Calculate the vertical exaggeration (2marks)
 - iii) Gradient (2marks)
- d. Give the latitudinal and longitudinal extent of the area covered by the map (4marks)
- e. Describe the drainage of the area covered by the map. (6marks)
7. i) Distinguish between Aridity and desertification (2marks)
ii) Identify two types of desert surfaces (2marks)
iii) State why wind action is most active in hot deserts than cold deserts (4marks)
- b. Explain the following process of wind erosion
 - i) Abrasion (2marks)
 - ii) Deflation (2marks)
 - iii) Attrition (2marks)
- c. i) Give two factors that influence the transportation of material by wind in deserts (2marks)
ii) The diagram below shows some features of wind erosion.
Identify K, L and M (3 marks)

- d. Your class is planning to carry out a field study of a desert environment
 - i) State three ways of preparing for the field study (3marks)
 - ii) Give three features that would be observed in the arid area (3marks)
8. i) Name two types of faults (2marks)
ii) Name 3 features resulting from faulting (3marks)

- b. i) List three horst mountains found in East Africa (3marks)
 ii) With aid of a well labeled diagram, describe how a horst mountain is formed (6marks)
- c. i) State three causes of vulcanicity (3marks)
 ii) Give two characteristics of a shield volcano (2marks)
- d. State three economic importance of faulting to man (6 marks)
9. a.
 i) Define natural vegetation (1mark)
 ii) State four characteristics of natural vegetation found in tropical rain forests (4marks)
 b. Explain 4 ways in which vegetation found in arid areas adapts to environmental conditions of the region (8marks)
- c. Write the names of the following grasslands found in the following areas (3 marks)
 • East Africa
 • Canada
 • Argentina
- d. i) Give two reasons why Tundra region has scanty vegetation (2marks)
 ii) State two topographical factors that influence vegetation distribution (2marks)
- e. State five economic importance of vegetation (5marks)
10. a)
 i) Define the term sea (2marks)
 ii) Give two aspects of an ocean (2marks)
- b) Explain how the following factors influence the salinity of ocean water
 i) Latitude (2marks)
 ii) Ocean depth (2marks)
 iii) Position of the inland water (2marks)
- c. i) List four types of tides (4marks)
 ii) Using a well labeled diagram, describe the formation of a Tombolo (7marks)
- d) Students of a school carried out a field study along the Kenyan coast
 i) Name two features they might have studied which showed emerged coast (2marks)
 ii) State 2 economic benefits of oceans to man (2marks)

ALLIANCE BOYS HIGH SCHOOL GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

SECTION A

Answer all the questions in the section

1. a) Define economic geography (2marks)
 b) Give three natural economic factors of production exploited by man (3marks)
2. a) Give two hardwood tree species in Kenya (2marks)
 b) Outline three characteristics of soft wood forests in Canada (3marks)
3. a) Name two methods of underground mining (2marks)
 b) State three factors that influence mining (3marks)
4. a) Give three ways in which sugarcane farmers benefit from the out growers scheme (3marks)
 b) State two importance of sugar to Kenya's economy (2marks)
5. a) Give two breeds of dairy cattle reared in Kenya (2marks)
 b) State three factors which favour dairy farming in Denmark (3marks)

SECTION B

Answer question 6 and any other two from this section

6. The table below shows horticultural crops production in Kenya in the year 2010.

crop	Quantity in tones
Flowers	52,500
Oranges	32,600
Tomatoes	30,300
Carrots	25,400

- a.
 - i) Draw a divided rectangle 15 cm long to represent horticultural crop production in Kenya in the year 2010 using the data above (8marks)
 - ii) Calculate the range of the above data (2marks)
 - iii) What is the percentage of the horticultural crop with the highest tonnage? (2 marks)
 - b.
 - i) State three advantages of using divided rectangles to represent, geographical data (3marks)
 - ii) State two disadvantages of using a divided rectangle (2marks)
 - c. Explain four problems facing horticultural farming in Kenya (8marks)
7. a)
- i) Name the main area where gold is mined in South Africa. (1mark)
 - ii) State four forms in which diamond exists in S. Africa (4marks)
- b) Explain how Trona is Processed in Lake Magadi (6 marks)
- c) Explain four factors hindering mining in Lake Magadi (8 marks)
- d) A field study was conducted on mining of oil
- i) Name four countries in Africa where the study would have been conducted (4marks)
 - ii) Identify 2 methods of mining the students would have found during the study. (2marks)
8. a) Name two counties in Kenya where sugarcane is grown in large scale (2marks)
- ii) State three physical conditions that favour sugarcane growing in the lake region of Kenya (3marks)
- b) Describe sugarcane cultivation from land preparation to harvesting (6marks)
- c) Explain four problems facing sugarcane farming in Kenya (8marks)
- d) Form three students from Kisumu high school visited a sugar factory for a field study on sugar processing
- i) Outline four stages of sugar processing that the class may have observed. (4marks)
 - ii) Name two by products of sugar that the class may have identified during the study (2marks)
9. a) Differentiate between indigenous and exotic forest (2marks)
- b) The map below shows Kenya's forest zones

Study it to answer the questions that follow

R

M

- i) Identify forests marked M and R. (2 marks)
- ii) State three factors that lead to depletion of forests in Kenya (3marks)
- b) Explain three factors that favours the growth of natural forests on the slopes of Mt Kenya (6 marks)
- c) Compare forestry in Kenya and Canada under the following headings
- i) Distribution of forests (2marks)
- ii) Mode of exploitation (2marks)
- iii) Transport (2marks)
- d) i) State three factors favoring the development of soft wood forests in Canada. (3marks)
- ii) Give there measures used to conserve forests in Kenya. (3marks)
- 10 i) What is desertification? (1mark)
- ii) A part from desertification, identify two other environmental hazards experienced in Kenya. (2marks)
- b i) State there causes of desertification (3marks)
- ii) Explain three effects of desertification in Kenya (6marks)
- c) i) In which four ways can the government of Kenya curb desertification? (3marks)
- ii) State three human activities that may lead to soil erosion in Kenya (3marks)
- d) Explain three methods used in Kenya to control soil erosion (6 marks)

PRECIOUS BLOOD SCHOOL

GEOGRAPHY

Paper 1

FORM 4 - MODEL TEST PAPERS

1. (a) What does the term equinox means? (2 marks)
- (b) Give **three** reasons why Geography is taught in secondary schools.(3 marks)
2. (a) What is tsunamis. (2 marks)
- (b) The time in Tokyo-Japan 140°E is noon of Monday. What is the time and which day is Kingston in Jamaica 77°W. (3 marks)
3. (a) State **two** types of igneous rocks. (2 marks)
- (b) By illustration, explain the formation of Tombolo. (3 marks)
4. Use the diagram **below** to answer the questions

- (a) Name the planetary wind marked **N, P** and **Q**. (3 marks)
 (b) Name the pressure belts marked **X** and **Y**. (2 marks)
 5. (a) State **two** reasons why the mantle is in fluid form. (2 marks)
 (b) Give **three** characteristics of stratosphere. (3 marks)

SECTION B

Answer question 6 (compulsory) and any other two questions from this section.

6. Study the map of Nkubu (Sheet 122/1) provided and answer the following questions.
- (a) (i) Give the adjoining sheet number and name of the map to the North East Nkubu map. (1 mark)
 (ii) Give the longitudinal extent of the area covered by the map. (1 mark)
 (iii) What is the general direction of Kianjogu School farm from Yukuru Church. (2 marks)
 (b) (i) Using the marginal information given, give the magnetic variation of the area as at this year 2012. (2 marks)
 (ii) Measure the distance in kilometers of the all weather road from Nkubu towards Meru. (3 marks)
 (iii) What is the bearing of Yukuru prison from lower Chure Church. (2 marks)
 (c) (i) Citing evidence from the map state **four** economic activities taking place in Nkubu area. (4 marks)
 (ii) Describe the drainage of the area covered by the map. (4 marks)
 (iii) Draw a square measuring 12cm by 12cm and represent the area on the map between Eastings 39 and 42 and Northings 85 and 88 and show the road, lakes, rivers, schools and churches and forest. (7 marks)
7. (a) (i) What is ground water. (1 mark)
 (ii) Explain the origin of ground water. (4 marks)
 (b) With the aid of a well labeled diagram, describe the formation of an artesian basin. (6marks)
 (c) Explain how the following factors influence the existence of ground water.
 (i) Precipitation.
 (ii) Nature of the rocks.
 (iii) Vegetation covers. (6marks)
 (d) State **two** other factors which influence the existence of ground water. (2 marks)
 (e) You are suppose to carry out a field study of the area with ground water.
 (i) Give **two** reasons why you need a work schedule for the study. (2 marks)
 (ii) Write **two** hypothesis for your study. (2 marks)
 (iii) State **two** possible problems you are likely to encounter during the study. (2 marks)

8. The zone on a

diagram **below** represent natural vegetation mountain.

- (a) (i) Name the vegetation zone marked **X**, **Y** and **Z**. (3 marks)
(ii) Describe the characteristics of Savanna Vegetation. (4 marks)
- (b) (i) Give reasons why the mountain top has no vegetation. (4 marks)
(ii) Name **two** type of tropical Savanna Grassland. (2 marks)
- (c) (i) Explain **three** factors that have led to the decline of grassland in Kenya. (6 marks)
(ii) Explain **four** ways in which vegetation in the hot deserts region are adapted to the environment. (8 marks)
9. (a) (i) What is climate. (2 marks)
(ii) Explain the meaning of the term climate change. (2 marks)
- (b) The diagram **below** shows climatic regions of Kenya.

- (i) Name the climatic regions marked **1**, **2**, **5** and **7**. (4 marks)
(ii) Explain **four** climatic characteristics of the region marked **3**. (4 marks)
- (c) (i) Describe the characteristics of desert type of climate. (4 marks)
(ii) Explain **three** consequence of climate change. (6 marks)
(iii) Name **three** countries that experience tropical monsoon type of climate outside Africa. (3 marks)
10. (a) (i) Differentiate between a river confluence and interfluvies. (2 marks)
(ii) Describe **three** processes through which a river erodes its channel. (6 marks)
- (b) (i) What is a river profile. (2 marks)
(ii) Explain the characteristics of a river in its youthful stage. (4 marks)
- (c) Explain how the following features are formed.
(i) Natural levees. (3 marks)
(ii) River braids. (3 marks)
(iii) State **three** significance of a river. (3 marks)

PRECIOUS BLOOD SCHOOL

GEOGRAPHY

Paper 2

FORM 4 - MODEL TEST PAPERS

SECTION A:

Answer all questions in this section

1. Give **five reasons** why afforestation is being encouraged in Kenya. (5 marks)
2. (a) State **two factors** that influence the development of soil catena. (2 marks)
(b) List **three ways** that vegetative cover prevent soil erosion. (3 marks)
- 3.(a) Name **two dairy processing firms** that market products from small scale dairy farmers in Kenya. (2 mks)
(b) Identify **three reasons** why the Kenya highlands are suitable for dairy farming. (3 marks)
4. Highlight **five main methods** of land reclamation in Kenya. (5 marks)
5. (a) State **three problems** facing wildlife conservation in Kenya. (3 marks)
(b) Give **two** human factors that have made Switzerland a major tourist destination. (2 marks)

SECTION B:

Answer question 6 (compulsory) and any other two questions from this section.

6. Study the photograph provided and answer the questions **below**.

- (a) (i) What type of photograph is this? (1 mark)
(ii) At what time of the day was this photograph taken? (1 mark)
- (b) (i) Name the economic activity shown on the photograph. (1 mark)
(ii) Suggest **three** reasons why the animals shown on the photograph are kept. (3 marks)
(iii) Name **one** area in Kenya where the photograph might have been taken. (1 mark)
- (c) (i) State **five** problems that face the economic activity shown on the photograph. (5 marks)
(ii) Suggest **four** ways through which the government of Kenya could assist to improve the economic activity. (8 marks)
- (d) Explain **five** factors that favour beef ranching in Argentina. (5 marks)
7. (a) (i) Identify **three** diseases that affect wheat farming in Kenya. (3 marks)
(ii) Name **two** Provinces in Kenya where wheat farming is grown on commercial scale. (2 marks)
- (b) (i) Explain the factors which enable Canada to produce more wheat than Kenya. (6 marks)
(ii) Explain **four** physical conditions that favour wheat growing in Kenya and Canada. (8 marks)
- (c) Explain **six** problems facing cocoa farming in Ghana. (6 marks)
8. (a) (i) Name **two** crops grown under irrigation in Kenya. (2 marks)
(ii) Explain **four** ways that the government of Kenya have promoted irrigation farming. (8 marks)
- (b) (i) Outline **five** physical conditions which favoured Mwea for establishment of an irrigation scheme. (5 marks)
(ii) Explain the benefits of the Mwea Irrigation Scheme. (3 marks)
- (c) (i) What is a polder? (2 marks)
(ii) Explain the significance of the Delta Plan Project to the Netherlands. (5 marks)

9. (a) (i) What is fish farming? (1 mark)
 (ii) Give **two** fish species commonly reared in a fish farm. (2 marks)
 (iii) Describe **three** measures the government of Kenya have taken to encourage fish farming. (6 marks)
- (b) Explain **three** problems which face marine fishing in Kenya. (6 marks)
- (c) (i) State **two** major fishing grounds in the Northern Hemisphere. (2 marks)
 (ii) Explain **four** physical factors that favour fishing in Japan. (8 marks)
10. (a) (i) Define eco-tourism. (2 marks)
 (ii) Differentiate between a national park and a game reserve. (2 marks)
- (b) (i) Give **five** inland tourist attractions in Kenya. (5 marks)
 (ii) Explain the **main** reasons why domestic tourism is not well developed in Kenya. (5 marks)
- (c) (i) Explain **six** steps the government have taken to market Kenya as a tourist destination. (6 marks)
 (ii) Identify **five** challenges associated with tourism in Kenya. (5 marks)

ALLIANCE GIRLS' HIGH SCHOOL

GEOGRAPHY

Paper 1

FORM 4 – MODEL TEST PAPERS

1. a. Give two forces that are responsible for the shape of the earth. (2 marks)
 b. State three characteristics of inner co (3 marks)
2. a. Differentiate between epicenter and seismic focus . (2 marks)
 b. Give three human causes of earthquakes. (3 marks)
3. a. Name two features that are found on emerged highland coasts. (2 marks)
 b. State three conditions necessary for the formation of a sp (3 marks)
4. a. What is a Karst scenery? (2 marks)
 b. Give three ways in which a spring may be formed. (3 marks)
5. a. Give two main agents of weathering. (2 marks)
 b. State three factors that cause soil creep. (3 marks)

SECTION B : ANSWER QUESTION 6 AND ANY TWO OTHERS

6. Study the map of Busia (1 : 50,000) sheet 101/1 provided and answer the questions that follow.
- a. i. Give the longitudinal extent of the area covered by map. (1 mark)
 ii. What was the magnetic declination as at January 1992? (1 mark)
- iii. What is the direction of Odiado market at grid square 2932 from Burinda School at grid square 3533? (1 mark)
- b. i. Measure the length of all weather road loose surface C 526 from the junction at grid square 2731 to grid square 3936. Give your answer in Kilometers (2 marks)
- ii. Calculate the area west of international boundary on the western side of the area covered by the map to the North of Northing 41. (2 marks)
- c. i. Draw a rectangle measuring 15 cm by 12 cm to represent the area enclosed by Easting 24 and 32 and Northings 30 and 36. On the rectangle, mark and name : (4 marks)
- Funyula market.
 - Samia ridge
 - Odiado hill

- Regional boundary.

ii. Citing evidence from the map, identify three social activities carried out in the area covered by the map. (3 marks)

d. i. Describe the relief of the area covered by the map. (3 marks)

ii. Explain three factors that have influenced settlement in the area covered by the map. (6 marks)

7. a. i. What is magma? (2 marks)

ii. Differentiate between a sill and a dyke. (2 marks)

b. i. Name three volcanic features found in the rift valley of Kenya (3 marks)

ii. Describe how a lava plateau is formed. (4 marks)

c. i. State three characteristics of a composite volcano. (3 marks)

ii. Explain three effects of volcanic mountain to human activities. (6 marks)

d. You intend to conduct a field study on volcanic features in the Rift Valley.

i. Give two methods of data recording you are likely to use during the study. (2 marks)

ii. State three problems you are likely to encounter during the field study. (3 marks)

8. a. i. Differentiate between a watershed and a drainage basin. (2 marks)

ii. State three processes of river erosion. (3 marks)

b. i. Give three ways in which river transport its load. (3 marks)

ii. State four factors which influence river deposition. (4 marks)

c. Give three characteristics of a river in its middle stage. (3 marks)

d. i. Name two features produced by river rejuvenation. (2 marks)

ii. Describe how river capture occur. (4 marks)

iii. Explain two positive effects of rivers to the human environment. (4 marks)

9. a. i. What is a glacier? (2 marks)

ii. Apart from a valley glacier, name two types of ice masses found on mountains in East Africa. (2 marks)

b. Explain how the movement of a valley glacier is influenced by the following factors:

i. Gradient of the land. (2 marks)

ii. Nature of the surface on which ice is moving. (2 marks)

c. Describe how a hanging valley is formed. (5 marks)

d. The diagram below shows types of moraines in a valley glacier

i. Name the types of moraines marked: (3 marks)

ii. State four positive effects of glaciation in lowland areas. (4 marks)

e. You have been asked to carry out a field study on land use on glaciated lowlands.

i. State three preparations you would make for your field study. (3 marks)

ii. State two possible land use you are likely to identify during the field study. (2 marks)

10. a. i. Name two types of desert surface. (2 marks)

ii. Give two reasons why wind action is effective in the hot desert. (2 marks)

iii. Explain processes of wind erosion in desert areas. (4 marks)

b. i. Apart from rock pedestal, name two other erosional features formed by wind in desert. (2 marks)

- ii. With aid of well labeled diagrams, describe the formation of rock pedestal. (6 marks)
- c. i. State three factors that influence the transportation of materials in the desert by wind. (3 marks)
- ii. Explain three negative effects of desert land forms. (6 marks)

ALLIANCE GIRLS' HIGH SCHOOL

GEOGRAPHY

Paper 2

FORM 4 – MODEL TEST PAPERS

1. a. Give two ways in which minerals occur on the earth crust. (2 marks)
- b. State three negative effects of mining on the environment. (3 marks)
2. a. Apart from providing electric power, state two benefits of the dams along River Tana. (2 marks)
- b. Give three physical factors that affect the location of hydro-electric power stations. (3 marks)
3. a. Name two major imports from Europe to Kenya. (2 marks)
- b. State three factors that influence external trade in Kenya. (3 marks)
4. a. Give two primary sources of population data. (2 marks)
- b. State three ways in which the population of Kenya differs from that of Sweden. (3 marks)
5. a. Apart from windstorms, name two other environmental hazards associated with climatic condition. (2 marks)
- b. Give three effects of air pollution in major urban Centres. (3 marks)

SECTION B: ANSWER QUESTION 6 AND ANY OTHER TWO.

6. a. Use the table below that shows the quantity of fresh water fish landed in tonnes. Use it to answer question 6. a (i).

LAKE	2011	2012	2013
Lake Baringo	4800	3600	3300
Lake Turkana	2600	3900	4000
Fish Farming	1000	1200	1300

- i. Using a vertical scale of 1cm represent 500 tonnes draw a comparative bar graph to represent the data in the table. (9 marks)
- ii. State two advantages of using comparative bar graph as a method of data presentation. (2 marks)
- b. Describe purse-seining as a method of fishing. (6 marks)
- c. State four reasons why fresh water fishing in East Africa is more widespread. (4 marks)
- d. Discuss fishing in Kenya and Japan under the following sub - headings.
 - i. Ocean currents. (2 marks)
 - ii. Market. (2 marks)
7. a. i. State three physical conditions that favor coffee growing in the Kenyan highlands. (3 marks)
- ii. Describe the stages involved in coffee production from harvesting to marketing. (6 marks)
- b. i. State three roles played by coffee in the Kenyan economy. (3 marks)
- ii. Explain three problems facing coffee farming in Brazil. (6 marks)
- c. Your Geography class carried out a field study on coffee farm.
 - i. State three methods the class may have used to collect data. (3 marks)
 - ii. During the field study, the class collected data on quantities of coffee produced in the farm in the last five years. State three methods the class may have used to present the data. (3 marks)
8. a. i. What is forestry? (2 marks)
- ii. State three characteristics of planted forests. (3 marks)
- b. i. Name two soft wood trees which grow in Canada. (2 marks)
- ii. Explain three ways in which coniferous forests are adapted to the cold climate. (6 marks)
- iii. Give four problems facing forestry in Kenya. (4 marks)
- c. State three measures taken by the Kenyan government to conserve forests (3 marks)
- d. Compare forestry in Kenya and Canada under the following sub-headings:
 - i. Transportation. (2 marks)

- ii. Mode of transport. (2 marks)
 iii. Tree species. (1 mark)
9. a. i. Distinguish between transport and communication. (2 marks)
 ii. State two advantages of written communication. (2 marks)
 iii. List two communication services available in Kenya. (2 marks)
 b. Use the outline map of East Africa provided below to answer the questions (i).

- i. Name the railway lines marked Y and Z. (2 marks)
 ii. State two ways in which Kenya would benefit from the construction of the Standard Gauge Railway. (2 marks)
- c. Explain three reasons that hinder the development of River transport in Africa. (6 marks)
- d. The map below shows the Great Lakes and St. Lawrence seaway. Use it to answer questions (i) and (ii)

- i. Name the canals marked J and K. (2 marks)
 ii. Name the towns marked M, N and P. (2 marks)
- c. State four measures that have been taken to solve the challenges that faced navigation along the great lakes. (4 marks)
10. a. i. What is Industrialization? (2 marks)
 ii. Explain how the following factors influence the location and development of industries.
 - Raw materials (2 marks)
 - Water. (2 marks)
- b. i. Name agricultural non-food manufacturing industries in Kenya. (2 marks)
 ii. State four characteristics of Jua Kali industries in Kenya (4 marks)
 iii. Give three problems facing Jua Kali industries in Kenya. (3 marks)
- c. State four ways in which industrialization is significant in Kenya (4 marks)
- d. Explain three factors which influenced the location of iron and steel industry in the Ruhr region of Germany in the 19 Century. (6 marks)

FRIENDS SCHOOL KAMUSINGA

GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

1. a. Name the two layers of discontinuity that make up the interior structure of the earth. (2 marks)
- b. State three characteristics of the outer core in the interior structure of the earth. (3 marks)
2. a. The diagram below shows an eclipse.

- Name the features marked V and W. (2 marks)
- b. State four proofs that the shape of the earth is spherical. (4 marks)
 3. a. Give three causes of earthquakes. (3 marks)
 - b. Name two major earthquake zones. (2 marks)
 4. a. What is weathering? (2 marks)
 - b. State three factors that influence the rate of weathering. (3 marks)
 5. a. What is land breeze? (2 marks)
 - b. Give two ways in which sea breezes influence the adjacent land. (2 marks)

SECTION B : ANSWER QUESTION 6 AND ANY OTHER TWO.

6. Study the map of OYUGIS 1 : 50, 000 provided and answer the following questions.
 - a. i. Calculate the longitudinal extent of the area covered by the map. (2 marks)
 - ii. State three types of vegetation found in the area covered by the map. (3 marks)
 - b. Citing evidence from the map, state three economic activities taking place in the area covered by the map. (3 marks)
 - c. i. List down four proofs indicating that the area receives high rainfall. (4 marks)
 - ii. Measure the length of all weather road bound surface from grid reference 918418 to 930360. State your answer in Kilometers and Meters. (2 marks)
 - d. i. Describe the drainage of the area covered by the map. (4 marks)
 - ii. Using a scale of 1 Cm to represent 50 meters draw a cross-section from Easting 77 to Easting along Northing 25 on it mark.
 - i. A slope (1 mark)
 - ii. All weather road loose surface (1 mark)
 - iii. A hill. (1 mark)
 - iv. Calculate the vertical exaggeration of the cross section. (1mark)

7. a. i. Give three reasons why weather forecasting is important. (3 marks)
 ii. State three conditions that lead to fog formation. (3 marks)
 b. Explain how the following factors influence climate. (6 marks)
 i. Aspect
 ii. Altitude
 iii. Distance from the sea.
 c. Using a well labeled diagram, describe the formation of orographic rainfall. (6 marks)
 d. i. State three advantages of studying weather through fieldwork. (3 marks)
 Students from Kamoshi Secondary conducted a field study on weather in a weather station.
 ii. Formulate a suitable hypothesis they could have used for the study. (1 mark)
 iii. State three follow - up activities they would carry out after the study. (3 marks)
8. a. Differentiate between magma and lava. (2 marks)
 b. The diagram below show some intrusive volcanic features.

- Name the features marked E, F and G. (3 marks)
- c. Describe how the following features are formed and for each give an example from Kenya. (3 marks)
 i. A crater. (5 marks)
 ii. A geyser. (4 marks)
 iii. A lava plateau (8 marks)
 d. Explain four ways in which volcanic features influence human activities. (2 marks)
9. a. i. What is an ice sheet? (2 marks)
 ii. Give two reasons why there are no ice sheets in Kenya. (2 marks)
 iii. Explain three factors that influence the movement of ice from the place of accumulation. (6 marks)
 b. Describe how an arête is formed. (4 marks)
 c. The diagram below shows types of moraines in a valley glacier.

- i. Name the type of moraines marked S, T and V. (3 marks)
 ii. Explain four positive effects of glaciations in lowland areas. (8 marks)
10. a. State two factors that influence transportation of materials from along the coast. (2 marks)
- b. i. Explain three factors that cause movement of ocean waters. (6 marks)
 ii. With the aid of a well labeled diagram , describe the formation of wave cut platform. (8 marks)
- c. i. State two causes of coastal submergence. (2 marks)
 ii. Name two types of sub merged upland coasts. (2 marks)
 iii. State five benefits of coastal landforms. (5 marks)

FRIENDS SCHOOL KAMUSINGA

GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

- 1.a. Define mining. (2 marks)
- b. Give three ways in which minerals occur. (3 marks)
- 2.a. Distinguish between forests and forestry. (2 marks)
- b. State three problems facing forestry in Kenya. (3 marks)
- 3.a. Name the cocoa growing regions in Ghana. (2 marks)
- b. State three physical conditions that are necessary for the growing of cocoa in Ghana. (3 marks)
- 4.a. Name three rivers in Kenya which cause a large scale flooding. (3 marks)
- b. State two problems that affect hydro-electric power production along R. Tana. (2 marks)
- 5.a. Name two tourists attractions located in the Rift valley region. (2 marks)
- b. Give three reasons why wildlife conservation is encouraged in Kenya. (3 marks)

SECTION B

Answer question 6 and any other two questions from this section.

6. The table below shows horticultural crop production in Kenya in the year 2014.

Crop	Quantity in tonnes
Flowers	42,500
Oranges	22,600
Tomatoes	20,300
Carrots	15,400

- a.
 - i. Draw a divided rectangle 15 Cm long to represent horticultural crop production in Kenya in the year 2014 using the data above. (8 marks)
 - ii. Calculate the range of the above data. (2 marks)
 - iii. What is the percentage of the horticultural crop with the highest tonnage? (2 marks)
- b.
 - i. State two advantages of using divided rectangles to represent geographical data. (3 marks)
 - ii. State three disadvantages of using divided rectangle. (2 marks)
- c. Explain four problems facing horticultural farming in Kenya. (8 marks)
- 7.a.
 - i. Name two varieties of coffee grown in western parts of Kenya. (2 marks)
 - ii. Apart from being used as a beverage, state two other uses of coffee. (2 marks)
- b. State three physical conditions that favour coffee growing in the central highlands of Kenya. (3 marks)
- c. Describe the stages involved in coffee production from picking to marketing. (8 marks)
- d. Explain three significances of coffee farming in Brazil. (6 marks)
- e. Your class intends to conduct a field study on coffee farming.
 - i. State two preparations your class will make before the field study. (2 marks)
 - ii. Give two problems facing coffee farming the class will find out. (2 marks)
- 8.a.i. Name three agricultural non food processing industries in Kenya. (3 marks)
- ii. State four ways in which Kenya has benefited from motor vehicle assembling industry. (4 marks)
- b. Explain three problems arising from industrialization in Kenya. (6 marks)
- c. Explain three factors which influenced the location of iron and steel industry in Ruhr region of Germany in the 19th century. (6 marks)
- d. You intended to carry out a field study of a furniture making industry in a local market center.
 - i. State two reasons why it is necessary for you to visit the area of study in advance. (2 marks)
 - ii. You are required to prepare a working schedule for your study. State two items you would include in your schedule. (2 marks)
 - iii. Give two advantages of studying about furniture using fieldwork. (2 marks)
9. a. Define the term fishing. (2 marks)
- b. Explain two ways in which each of the following factors negatively affects fishing in Kenya.

- i. Agricultural activities. (4 marks)
- ii. Water weeds. (4 marks)
- c. Use the map of north-west Atlantic ground to answer questions c(ii) and (iii).

- i. Give three types of fish species caught in the North– west Atlantic fishing ground. (3 marks)
 - ii. Name the ocean currents marked M and N. (2 mark)
 - iii. Explain two ways in which the convergence of ocean currents marked M and N influence fishing. (4 marks)
 - d. Give three differences between fishing in Kenya and Japan. (6 marks)
10. The pyramid below represents the population structure of country A. Use it to answer the questions that follow.

- a. Describe the characteristics of the population represented by the pyramid. (8 marks)
- b. Apart from migration, explain four factors that influence population growth and structure. (8 marks)
- c. State two positive effects of high population growth. (2 marks)
- d. i. Give five problems that could arise from overpopulation. (5 marks)
- ii. Name two sources of population data. (2 marks)

BAHATI GIRLS' HIGH SCHOOL NAKURU

GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

- 1. a) Identify two types of environment. (2 marks)

- b) Mention two major areas covered under physical geography. (2 marks)
2. a) State any two reasons why the interior of the earth is very hot. (2 marks)
- b) State two proofs that the earth is spherical. (2 marks)
3. a) What is the local time at Alexandria 30°E when the local time at Malindi 40°E is 12.00 noon ? (2 marks)
- b) What is a line of longitude ? (1 mark)
4. a) Give three reasons why it is necessary to study the plate tectonic theory. (3 marks)
- b) Name two types of plate tectonic boundaries. (2 marks)
5. The diagram below shows some features in a limestone area. Use it to answer question (a).

- a) Name the feature marked X, V, W. (3 marks)
- b) What is an artesian basin. (2 marks)
- c) State four factors influencing the development of Karst scenery. (4 marks)

SECTION B :

Answer question 6 compulsory and only other two from the remaining questions.

6. Study the map of Kitale 1 : 50,000 (sheet 7513) provided and answer the following questions.

- a) i) Identify one human made feature found at the grid 360179. (1 mark)
- ii) State two methods used to show relief in the area covered by the map. (2 marks)
- iii) Calculate the magnetic declination as at the time the map was published. (2 marks)
- b) i) Calculate the area of the Kitale municipality. (2 marks)
- ii) Measure the distance of the dry weather road C637 from junction 254285 to 311211. Give your

answer in kilometres. (2 marks)

- c) i) Draw a rectangle measuring 10cm by 12cm between Easting 24 and 29 and northing 12 and 18 (1 mark)
- ii) On the rectangle, mark and name the following : (5 marks)
- seasonal swamp
 - river Koitobos
 - Road C641
 - sandrums bridge
- iii) Describe how relief has influenced settlement in the area covered by the map. (4 marks)
- iv) Describe the drainage of the area covered by the map. (4 marks)
- d) Citing evidence from the map. Identify two economic activities found in the area covered by the (2 marks)
7. a) i) Distinguish between aridity and desertification. (2 marks)
- ii) Identify two types of desert surfaces. (2 marks)
- iii) Give two reasons why wind action is most active in hot desert than in cold desert. (4 marks)
- b) Explain the following process of wind erosion

- i) Abrasion
- ii) Deflation
- iii) Attrition

(2 marks)
(2 marks)
(2 marks)

- c) i) State two factors that influence the transportation of material by wind in deserts.
ii) The diagram below shows some features of wind deposition. Identify K, L and M.

(2 marks)
(3 marks)

- d) Your class is planning to carry out a field study of a desert environment.

- i) State three ways of preparing for the field study.
- ii) Give three information that would be collected through observation in arid area.

(3 marks)
(3 marks)

8. a i) Define the term glaciation.

(2 marks)

- ii) Name three types of glaciers.

(3 marks)

- b) Describe how the following features found in upland glaciated landscape are formed.

- i) U-shaped valley
- ii) Pyramidal peak

(5 marks)
(5 marks)

- c) Explain three significances of upland glaciated features to human activities.

(6 marks)

- d) Suppose you were to carry out a field study of glaciated lowland.

- i) State two advantages of using oral interview to collect information during the field study.
- ii) Name two features found in glaciated lowland that you are likely to study.

(2 marks)
(2 marks)

9. a i) The diagram below shows the hydrological cycle. Name the stages marked E, F and G.
(3 marks)

- ii) Differentiate between watershed and a catchment area.

(2 marks)

- b) i) Describe how an oxbow lake is formed.

(5 marks)

- ii) State five characteristics of a flood plain.

(5 marks)

- iii) Explain two causes of river rejuvenation.

(4 marks)

- c) Your class is required to carry out a field study of a river.

- i) What would be the advantages of dividing the class into groups according to the stages of the long profile of a river ?

(4 marks)

- ii) What would be the disadvantages of using secondary data in this kind of a field study.

(2 marks)

- 10.a) Describe the following characteristics of minerals:

- i) Colour
- ii) Cleavage

(2 marks)
(2 marks)

- iii) Hardness (2 marks)
- b) i) Give two types of igneous rocks. (2 marks)
- ii) Differentiate between the processes of formation of plutonic rocks and volcanic rocks. (2 marks)
- iii) For each of the following sedimentary rocks, name the resultant rock that forms after metamorphism. (3 marks)
- a) Sandstone
- b) Limestone
- c) Clay
- c) State five uses of rocks. (5 marks)
- d) You are planning to carry out a field study on rocks within your school environment.
- i) Give two secondary sources of information you would use to prepare for the field study. (2 marks)
- ii) State why you would need the following items during the field study:
- A fork jembe (1 mark)
- A polythene bag (1 mark)
- iii) Suppose during your field study you collected marble, sandstone and granite, classify each of these samples according to its mode of formation. (3 marks)

BAHATI GIRLS' HIGH SCHOOL NAKURU

GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

1. a) Give any two ways in which minerals occur. (2 marks)
- b) State three problems facing soda ash exploitation in Magadi. (3 marks)
2. a) Define the term agroforestry. (2 marks)
- b) State three reasons why agroforestry is being encouraged in Kenya. (3 marks)
3. a) State two characteristics of market gardening. (2 marks)
- b) Give two reasons why horticulture is more developed in Netherlands than in Kenya. (2 marks)
- c) Cite two advantages of growing horticultural crops in green houses. (2 marks)
4. a) What is energy crisis ? (2 marks)
- b) State any three effects of energy crisis in Kenya in the recent past. (3 marks)
5. a) State two reasons why some industries are located near the sources of raw materials. (2 marks)
- b) State two reasons why the new county government system should encourage the Jua Kali industries in their regions. (2 marks)
6. The table below shows the approximation of population in four counties in Kenya in 1999. Use it to answer question (a)

Population for four counties in Kenya in 1999

COUNTY	POPULATION
MURANGA	350,000
MARAGUA	390,000

NYANDARUA	470,000
THIKA	650,000
TOTAL	1,860,000

- a)** i) Suggest two possible reasons why the population of Thika is high than that of Muranga. (2 marks)
 ii) Using a radius of five centimetres, draw a pie chart to represent the above data. (9 marks)
 iii) Apart from pie charts, name two other statistical methods that can be used to represent the data in the table (2 marks)
- b)** i) Give three advantages of using a pie chart to represent data. (3 marks)
 ii) State three reasons why it is necessary for a country to carry out a population census. (3 marks)
- c)** Explain how the following factors have led to the population increase in Kenya
 i) Early marriages (2 marks)
 ii) Improved medical facilities (2 marks)
 iii) Cultural beliefs (2 marks)
- 7. a)** i) Define the term transhumance. (2 marks)
 ii) State four characteristics of nomadic pastoralism. (4 marks)
- b)** i) Name three dairy breeds kept in Kenya. (3 marks)
 ii) Explain four conditions favouring dairy farming in the Kenya highlands. (8 marks)
- c)** i) State four limitation of beef farming in Kenya. (4 marks)
 ii) Give four similarities between beef farming in Kenya and Argentina. (4 marks)
- 8. a)** Define the term global warming. (2 marks)
b) Distinguish between environmental conservation and environment management. (2 marks)
c) State four reasons why Kenya should conserve her environment. (4 marks)
d) Explain four effects of land pollution to the environment. (8 marks)
e) Briefly explain the main reasons for the following environmental acts in the law of Kenya.
 i) The factories act (2 marks)
 ii) The water act (2 marks)
- f)** Your class intends to carry out a field study on environmental water pollution in the locality.
 i) State one possible objective for the study. (1 mark)
 ii) Give two reasons why you need to conduct a reconnaissance. (2 marks)
 iii) Suggest any two ways to control the environmental problem under study. (2 marks)
- 9. a)** i) Differentiate between primary and secondary industry. (2 marks)
 ii) Identify two examples of agricultural non-food processing industries in Kenya. (2 marks)
b) i) State five characteristics of cottage industry in India. (5 marks)
 ii) State four ways through which Kenya benefits from assembling of motor vehicles locally. (4 marks)
- c)** i) Explain any three factors that led to the development of iron and steel industry in the Ruhr region of Germany. (6 marks)
 ii) Explain three contributions of industrialization to the development of Kenya. (6 marks)

10. SOME NATIONAL PARKS IN EAST AFRICA

- a) Name the national parks marked P, Q and R. (3 marks)
- b) i) Give reasons why game reserves and national parks are located in the marginal areas. (3 marks)
- ii) Apart from wildlife name three other tourist attractions in the Western Kenya circuit. (3 marks)
- iii) State four ways in which tourist attractions in Kenya differ from those of Switzerland. (4 marks)
- c) Explain how the following factors influence the distribution of wildlife in Kenya
- i) Vegetation (2 marks)
- ii) Altitude (2 marks)
- d) Explain four measures that Kenya should take in order to attract more tourist. (8 marks)

NAIROBI SCHOOL GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

1. a) Define the term solar system (2mks)
- b) Give any **three** theories explaining the origin of the solar system (3mks)
2. i) What is faulting (2mks)
- ii) Mention any **three** types of faults (3mks)
3. i) Define a glacier (2mks)
- ii) The diagram below shows types of moraines in a valley glacier (3mks)

Name parts V, T & S

4. State **five** conditions necessary for the formation of a beach (5mks)
5. a) Study the diagram and answer the following questions. (3mks)

Name parts X, Y & Z

b) State any **two** conditions necessary for development of Karst scenery (2mks)

SECTION B

Answer question 6 and any other two questions from this section

6. Study the map of Taita Hills 1:50,000 (Sheet 198/4) provided and answer the following questions.
- a) i) Give the **four** figure grid reference of L.R 3880/s (2mks)
ii) What is the general direction of R. Ruhiaa tributary of R. vol (Goshi) (2mks)
 - b) i) Give the adjoining sheet of Taita Hills on the North Coast part of the map. (2mks)
ii) Measure the length of the Bound surface Road A23 from Mwatake to LC (Level Crossing) (2mks)
iii) Calculate the area of the forest covering Shellemba and Majengo Zones (3mks)
iv) Citing evidence from the map, identify three economic activities carried in the area (6mks)
 - c) Citing evidence from the map, explain any **four** factors that may have influenced Agricultural activities in the Area (8mks)
7. a) Define the term Vulcanicity? (2mks)
b) Distinguish Extrusive and intrusive vulcanicity (4mks)
c) Give any **three** resultant features due to intrusive vulcanicity (3mks)
d) Describe the continental drift theory (3mks)
e) i) State **two** artificial causes of earth movements (2mks)
ii) Explain any **three** significance of vulcanicity to human activities. (8mks)
8. a) What is climate? (2mks)
b) Explain the factors influencing climate under the following sub-headings:
i. Latitude (5mks)
ii. Altitude (4mks)
iii. Ocean currents (4mks)
c) i) Distinguish Aridity and desertification. (2mks)
ii) State any **four** causes of aridity and desertification together with their possible solutions (8mks)
9. a) Name **two** ways of water movement in Oceans (2mks)
b) List any **four** types of tides (4mks)
c) State **four** factors that influence wave transportation (4mks)
d) Yururugirl's school, form 4 Geography class carried out a field study at a wave deposition site at the coast of Mombasa.
i. List any **four** wave depositional features they might have observed. (4mks)
ii. Explain any **two** factors influencing the type of coast they might have studied. (4mks)
iii. Give any **three** benefits they might have enjoyed due to conducting reconnaissance to their place of study (3mks)
iv. List **two** ways the learners might have used in collecting the data (2mks)
v. Mention any **two** types of coral reef they might have studied during the period of their study (2mks)
10. a) Name **three** major deserts found in:
i. Africa (3mks)
ii. Give **two** processes in which wind erodes the earth's surface (2mks)
iii. Explain **three** ways in which wind transport its load (6mks)
b) Using well labeled diagrams, explain how the following desert features are formed.
i. Yardangs (5mks)
ii. Mushroom block (6mks)
c) The diagram below represents features resulting from wind deposition in a desert

Use it to answer questions that follow

- i. Name the above feature (1mk)
- ii. Name the parts marked; J & L (2mks)

NAIROBI SCHOOL GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

SECTION A (25MKS)

Answer ALL the questions from this section

11. i) Mention **two** irrigation schemes established in Kisumu County with the aim of land rehabilitation (2mks)
- ii) What is a polder? (1mk)
- iii) Name **three** crops grown in the polder (3mks)
12. i) Distinguish Horticulture and market gardening (2mks)
- ii) State **three** problem facing horticultural farming in Kenya (3mks)
13. i) Define the term mining? (2mks)
- ii) State any **three** negative effects of mining to the environment (3mks)
14. i) Give **two** indigenous soft wood trees grown in Kenya (2mks)
- ii) State **three** problems facing forestry in Canada (3mks)
15. a) Name **three** types of fish (2mks)
- b) State **three** problems facing fishing in JAPAN (2mks)

SECTION B

Answer question 6 and any other two questions

16. a) Study the information provided. Later answer the questions that follows
Crop production in Kenya between 1998 and 2002 in million bags.

Use a scale of 1cm represents 5 million bags

CROP/YEAR	1998	CT	1999	CT	2000	CT	2001	CT	2002	CT
Maize	27.30		25.00		25.00		30.00		26.00	
Beans	3.00		4.00		3.70		4.10		4.00	
Sorghum	0.90		1.20		0.90		1.20		0.80	
Millet	0.37		0.66		0.40		0.50		0.60	

- CT refers to the cumulative totals
 - i. Using a suitable scale, draw a cumulative bar graph based on data provided above. (10mks)
 - ii. Calculate the maize percentage decline in production between years 2001 and 2002. 2mks)
 - iii. What general conclusion can be made based on crop production between years 2000 and 2001 (2mks)

- b) i) Apart from tsetse fly control mention five other methods used to reclaim land in Kenya (5mks)
- ii) Explain any three control measures applied to eliminate tsetse flies in Kenya. (6mks)
17. a) i) Define wildlife (2mks)
- ii) Distinguish between agame sanctuary and a game ranch (4mks)

iii) Study the following map of East Africa and answer the questions below.

Name National parks marked A, B & c

(3mks)

b) i) Explain four factors showing the future of tourism Industry in Kenya

(8mks)

ii) Explain how the following factors influence wildlife

i. Vegetation

(4mks)

ii. Altitude

(4mks)

18. a) i) What is fishing

(2mks)

ii) Name the two major fishing ground in the Pacific Ocean

(2mks)

iii) Name four fresh water fisheries in Kenya

(4mks)

b) i) Explain four reasons why Fresh water fishing is more popular than marine fishing in East Africa.

(8mks)

ii) Describe trawling as a method of fishing

(7mks)

iii) Distinguish phytoplankton and zooplankton

(2mks)

19. a) i) Name two main types of coffee grown in Kenya

(2mks)

ii) Identify two counties in Kenya where coffee is grown in large scale

(2mks)

b) i) State four factors favoring growing of coffee in Kenya

(4mks)

ii) Describe the stages of coffee processing once it's delivered to the factory

(9mks)

c) i) Explain two benefits of coffee farming in Kenya

(4mks)

ii) State four problems facing coffee farmers in Kenya

(4mks)

20. a) i) Give three by-products of crude oil

(3mks)

ii) List four ways through which occurrence of minerals is influenced.

(4mks)

b) Explain four contribution of mining Industry to economy

(8mks)

c) Name the minerals found in the following areas in East Africa

(4mks)

i. Kariandusi

ii. Kerio Valley

iii. Kwale County

iv. Lake Magadi

d) i) State four factors influencing mineral exploitation

(4mks)

ii) Give two uses of Gold

(2mks)

Answer part of question 6 on the graph sheet below

MOI GIRLS HIGH SCHOOL GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

SECTION A

Answer All Questions

1. (a) Define Geography (2 marks)
(b) Give two reasons to explain why the interior of the earth is hot (2 marks)
(c) Distinguish between meteors and meteorites (2 marks)
2. (a) Identify the types of folds shown (2 marks)

- (b) State three negative effects of folding on human activities (3 marks)
3. (a) State two causes of soil creep (2 marks)
(b) The diagram below shows rock creep. Name the parts marked P,Q,R (3 marks)

4. (a) Identify the features C, D, &E shown in the diagram (3 marks)

- (b) State two causes of river rejuvenation (2 marks)
5. (a) State two physical factors that contribute to the development of Sahara Desert. (2 marks)
- (b) Draw a well labeled diagram to show a Zeugen. (2 marks)
6. Study the map of Kitale scale 1:50,000(sheet 75/3) provided and answer the questions that follow.
- (a) (i) Give the bearing of the trigonometrical station secondary at grid 2823 from the water hole at grid 3127 (2 marks)
- (ii) Give the magnetic variation of the area covered by the map extract (1 mark)
- (b) Name three types of settlement patterns found on the map extract (3 marks)
- (c) (i) Draw a cross section from the grid reference 340280 to Kaipos trigonometrical station at grid square 3932. (Use a scale of 1cm rep. 40 m) (2 marks)
- On your cross section, mark and label the following:
- (a) Dam (1 mark)
- b) River Saiwa (1 mark)
- (c) Forest boundary (1 mark)
- (ii) Calculate the gradient between the dam and the starting point (2 marks)
- (d) (i) Explain 3 factors that favour the growing of wattle in the area covered by the map. (6 marks)
- (ii) Give two evidences showing why the area has a wet climate (2 marks)
- (e) Draw a rectangle 7.2 cm to 10 cm representing the area West of Eastings 30 and South of Northing 20 (1 mark)
- On it mark and label the following
- (a) Kitale municipality (1 mark)
- (b) All weather roads loose surface (1 mark)
- (c) Koitobos river (1 mark)
7. (a) (i) Differentiate between vulcanicity & volcanicity. (2 marks)
- (ii) Draw the map of Kenya. (1 mark)
- On it locate and name:
- M-mau escarpment. (1 mark)
- O-lake Magadi (1 mark)
- Y – Yatta plateau (1 mark)
- (b) With the aid of a well labeled diagram describe how the following features are formed:
- (i) Lava plateau. (5 marks)
- (ii) sill (3 marks)
- (c) (i) Give two characteristics of the Gregory rift valley. (2 marks)
- (ii) You have been asked to carry out a field study on faulting in the Rift Valley, design a working schedule to use during the study. (3 marks)
- (d) Explain three negative influences of vulcanicity and associated features on human activities in Kenya. (6 marks)
8. (a) (i) Differentiate between a barrier reef and a fringing reef (2 marks)
- (ii) Give three causes of oceans currents (3 marks)

(b) The diagram below shows Coastal features. Use it to answer questions b (i).

- (i) Name the coastal features marked H,J,K,L (4 marks)
- (c) With the aid of diagrams describe how a wave – cut platform is formed (6 marks)
- (d) Explain how the following factors influence development of coasts
- (i) Climate (2 marks)
 - (ii) Gradient of the Coast (2 marks)
- (e) Your class intends to carry out a field study on the features along the coast of Kenya.
- (i) Why would they need to carry out reconnaissance (3 marks)
 - (ii) Give three disadvantages of using observation to collect data (3 marks)

9. (a) Distinguish between glacial till and fluvio-glacial deposits (2 marks)
- (b) Explain three factors that determine the rate at which ice moves. (6 marks)
- (c) The diagram below shows depositional features in lowlands

- (i) Name the features marked J, K,L and M. (4 marks)
 - (ii) Describe how the following features are formed:
 - moraine dammed lake (4 marks)
 - outwash plain (4 marks)
- (d) Students from Meru high school intend to carry out a field study on features of glaciations on Mt Kenya
- (i) Identify two methods they will use to collect data. (2 marks)
 - (ii) State one negative effect they are likely to identify (1 marks)
 - (iii) State two follow up activities they are likely to engage in (2 marks)

10. (a) (i) State three characteristics of ITCZ (3 marks)
- (ii) Describe the following factors influence climate
- configuration of the coastline (2 marks)
 - Distance from the sea (2 marks)
- (b) Study the world map provided and use it the answer the questions below.

- (i) Name the climatic regions A,B,C (3 marks)
- (ii) Name the vegetation type marked H&J (2 marks)
- (iii) Explain three ways in which coniferous forests have adapted to the climatic conditions (6 marks)

(c) You carried out a field study in an marginal area experiencing encroachment of desert conditions

- (i) State two objectives for your study. (2 marks)
- (ii) How would you record your findings during the study? (2 marks)
- (iv) Describe three findings on the causes of the encroachment (3 marks)

SUNSHINE SECONDARY SCHOOL GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

1. (a) State any **two** reasons why we study geography (2marks)
- (b) Give **three** forces that are responsible for the spherical shape of the earth (3marks)
2. State three natural causes of earthquakes. (3 marks)
- b) Give two effects of earthquakes in built up areas. (2 marks)
3. Draw a well-labelled diagram of a hydrological cycle (5 marks)
4. (a) List **two** elements of weather. (2marks)
- (b) Name **three** processes through which the atmosphere is heated. (3marks)
5. (a) What is desertification? (2marks)
- (b) State three negative effects of desertification. (3marks)

SECTION B

Answer question 6 and any other two questions from this section.

6. Study the map of KARATINA (1:50000), sheet 121/3 provided and answer the following questions
 - a. (i) Give the latitudinal and longitudinal extent of the area covered by the map. (2marks)
 - (ii) Calculate the area (in square kilometers) enclosed by the property boundary and the district boundary to the south Eastern part of the area shown. (2marks)
 - b. (i) Name the vegetation type in grid square 0045. (1mark)
 - (ii) Describe the drainage of the area covered by the map. Extract. (3marks)
 - c. (i) Using a vertical scale of 1cm to represent a 100 metres draw a cross-section from grid reference 830,500 up to 900,500 along northing 50. (4marks)
 - (ii) On the cross-section; mark and label
 - a) River Rathithi (1mark)
 - b) All weather road D451. (1mark)

- c) Dry weather Road E1710 (1mark)
- (iii) Calculate the vertical exaggeration for the cross-section. (2marks)
- d. Geography students from Ragati secondary school in grid square 9249 decided to carry out a field study in the area around Karatina Township.
- (i) Name two means of transport they are likely to have used to travel to Karatina Township. (2marks)
- (ii) State three social functions of Karatina Township that they identified. (4marks)
- (iii) Identify the adjoining sheet and number to the south east of Karatina. (2marks)
7. a) i) What is folding. (2 marks)
- ii) Differentiate between an overfold and a recumbent fold. (2 marks)
- b) i) Apart from fold mountain, name three other features resulting from folding. (3 marks)
- ii) With aid of well labelled diagrams, describe the formation of fold mountains. (8 marks)
- c) The map below show the location of some fold mountains.

Name the mountain ranges marked P, Q, R and S.

(4 marks)

d) Explain the significance of Fold Mountains to human activities.

(6 marks)

8. a) i) What is a lake ? (2 marks)
- ii) State three sources of water found in a lake. (3 marks)
- b) Describe how the following lakes are formed
- i) Tarn lakes (4 marks)
- ii) Crater lakes (3 marks)
- c) The map below shows some lakes formed by faulting.

Name the lakes marked X, Y and Z.

(3 marks)

d) i) Give four reasons why some Rift Valley lakes have fresh water.

(4 marks)

ii) Explain three negative effects of human activities on lakes.

(6 marks)

9. a) i) State two days in a year when the length of day and night is equal. (2mks)
- ii) Draw a well labelled diagram to show the eclipse of the moon (Lunar eclipse) (3mks)
- b) i) Give **four** characteristics of planet Jupiter. (4 mks)
- ii) Give **three** possible consequences of the revolution of the earth on lengths of days and nights. (3 mks)

- c) i) Name **three** instruments found in a Stevenson screen. (3mks)
 ii) State and explain **four** qualifications which makes Stevenson screen suitable for its work. (4mks)
 d) With the help of a well labelled diagram, explain the formation of frontal /cyclonic rainfall. (6mks)
10. a)(i) State three sources of underground water. (3marks)
 (ii) Explain two ways through which water infiltrates into the ground. (2marks)
 (iii) Using a well-labeled diagram, explain the formation of an artesian basin. (4marks)
 b). With the aid of a well –labeled diagram, explain how the action of water leads to the formation of clints. (4marks)
 c). You have been asked to carry out a field study on underground features in a karst region/scenery.
 (i) Refine a working schedule. (1mark)
 (ii) What is the importance of preparing a working schedule in field study? (3marks)
 (iii) Name three underground features you are likely to study. (3marks)

SUNSHINE SECONDARY SCHOOL GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

1. a) State two human activities that lead to soil erosion. (2mks)
 b) Give three problems experienced by sugarcane growing in Lake Victoria basin of Kenya. (3mks)
 2.a) What is agro-forestry? (2mks)
 b) Give three reasons why afforestation is being encouraged in Kenya. (3mks)
 3.a) State three ways in which a country benefits from urbanization. (3mks)
 b) State two measures that have been taken in Kenya to reduce infant mortality. (2mks)
 4.a)List two benefits Kenya derives from International trade. (2mks)
 b) State three factors that influence external trade in Kenya. (3mks)
 5.a) Apart from the sun, name two other renewable sources of energy. (2mks)
 b) State three advantages of using hydro-electric power over other forms of energy. (3mks)

SECTION B

Answer question 6 and any other two from this section.

6. Study the photograph provided and answer the questions that follow.

- a) (i) Name the type of photograph shown. (1mk)
 (ii) Describe the type of settlement found in this area. (6mks)
 b) Explain four main problems which may be experienced in this area. (8mks)
 (i) Explain four problems resulting from a high population growth rate in the East African Countries. (8mks)
 (ii) State two problems created by the decline in population in developed countries such as Sweden. (2mks)
- 7.a) (i) Differentiate between secondary and tertiary industry. (2mks)
 (ii) Give four reasons why Kenya should become an industrialized country. (4mks)
 b) Explain why some Industries are located near sources of water. (6mks)
 c) (i) Explain four factors which have favoured the development of electronics industry in Japan. (8mks)

(ii) State five ways in Which the government of Kenya encourages Jua Kali Industries.(5mks)

8.a) (i) Why is it necessary to conserve water.

(2mks)

(ii) How does terracing help in water conservation.

(2mks)

b) Explain three measures being taken by East African countries to manage wildlife. (6mks)

c) Explain how climate influences the distribution of wildlife in East Africa.

(10mks)

d) State five effects of air pollution on the environment.

(5mks)

9. The table below shows the 1979 population figures for central province in Kenya per district.

DISTRICT	POPULATION
Kiambu	686290
Kirinyaga	291431
Murang'a	648333
Nyandarua	233302
Nyeri	486477

a) (i) Using a divided rectangle, represent the data given above.

(5mks)

(ii) Besides a divided rectangle, name any three other methods of presenting the data.(3mks)

(iii) State three advantages of using divided rectangles to represent statistical data. (3mks)

b) Explain four ways in which communication contributes to the economic development of Africa. (8mks)

c) Explain three transport problems experienced in the great lakes and St. Lawrence Seaway.

(6mks)

10.a) (i) What is land rehabilitation?

(2mks)

(ii) List three social factors which influence agricultural activities in Kenya.

(3mks)

b) Explain four physical conditions that favour the growing of oil palm in Nigeria. (8mks)

c) (i) Give four reasons why the growing of flowers in green houses is preferred in Kenya.

(4mks)

(ii) Explain four benefits of dairy farming in Kenya.

(8mks)

SACHO HIGH SCHOOL GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

(i) What type of eclipse is represented by the diagram? (1mk)

(ii) Name the features marked D and E. (2mks)

2.(a) State three causes of earthquakes. (3mks)

(b) Give two effects of earthquakes in built-up areas. (2mks)

3.(a) Name three types of weathering. (3mks)

(b) State two ways in which the weathering process is significant to people. (2mks)

4.(a) Differentiate between a ria and a fiord. (2mks)

(b) Describe three ways in which a glacier transports its load. (3mks)

5.(a) List two processes involved in the formation of soil profiles. (2mks)

(b) Classify soils according to soil orders. (3mks)

SECTION B

Answer Question 6 and any other two questions

Study the map of Taita Hills 1:50,000 (Sheet 189/4) provided and answer the following questions.

6.(a) (i) What type of map is Taita Hills? (1mk)

(ii) Identify two ways that have been used to depict relief in Taita Hills Map. (2mks)

(iii) Measure the distance of all weather road A23 (Answer to be Km²) from Mwatate to Voi. (2mks)

(b) Using a scale of 1cm represents 50m

(i) Draw a cross section from grid reference 3MODEL TEST PAPERS0 to 410190. On it mark and name

-Majengo forest

-Motorable track

-A tributary of R. Voi (Goshi) (7mks)

(ii) Calculate vertical exaggeration of the area drawn. (2mks)

(c) (i) Describe the relief of the area covered by the map. (5mks)

- (ii) Identify 3 types of vegetation found on the area covered by the map. (3mks)
 - (iii) Citing evidence from the map identify three economic activities carried out in the area covered by the map. (3mks)
- 7.(a) (i) Explain three human activities that can lead to aridity and desertification. (6mks)
- (ii) State two possible solutions to aridity and desertification. (2mks)
- (b)(i) Explain three processes of wind transportation in deserts. (6mks)
- (ii) State three factors influencing wind transportation. (3mks)
- (c) With the aid of diagrams describe the formation of zeugen. (5mks)
- (d) Give three features resulting from the action of water in arid areas. (3mks)
- 8.(a) Briefly describe the continental Drift Theory. (5mks)
- (b) (i) What is a fault? (1mk)
- (ii) Name three features resulting from faulting apart from the Rift Valley. (3mks)
- (c) With the aid of well labelled diagrams, describe the formation of the Rift Valley due to tensional forces. (6mks)
- (d) Explain three positive effects of faulting. (6mks)
- (e) You are conducting a field study on faulting at the Rift Valley in Kenya.
- (i) State two features resulting from faulting which are associated with the Rift Valley you are likely to identify. (2mks)
- (ii) State two methods you would use to collect data. (2mks)
- 9.(a) (i) Define the term 'leaching'. (2mks)
- (ii) State two factors that contribute to the leaching of soil. (2mks)
- (b) (i) Explain how laterization (ferrallization) occurs. (6mks)
- (ii) State the three types of soil degeneration. (3mks)
- (c) (i) Explain four ways in which vegetation protects the soil and prevents soil erosion. (8mks)
- (ii) State four advantages of mulching soil using organic matter. (4mks)
- 10.(a) (i) What is an ice-sheet? (2mks)
- (ii) Give two reasons why there are no ice sheets in Kenya. (2mks)
- (b) Name four ways in which ice moves. (4mks)
- (c) Explain four factors that influence movement of valley glacier. (8mks)
- (d) (i) State four factors that influence glacial erosion. (4mks)
- (ii) State five significance of upland glaciated features to human activities. (5mks)

SACHO HIGH SCHOOL

GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

- 1.(a) State three ways in which minerals occur. (3mks)
- (b) Name three methods of mining. (3mks)
- 2.(a) Distinguish between fishing and fisheries. (2mks)
- (b) Name three major inland fishing grounds in Kenya. (3mks)
- 3.(a) What is wildlife? (2mks)
- (b) Distinguish between a national park and a game reserve. (2mks)
- 4.(a) What is communication? (2mks)
- (b) Name three main types of communication. (3mks)
- 5.(a) What is trade? (2mks)
- (b) Name three levels of trade. (3mks)
- 1.(a) State three ways in which minerals occur. (3mks)
- (b) Name three methods of mining. (3mks)
- 2.(a) Distinguish between fishing and fisheries. (2mks)
- (b) Name three major inland fishing grounds in Kenya. (3mks)
- 3.(a) What is wildlife? (2mks)
- (b) Distinguish between a national park and a game reserve. (2mks)
- 4.(a) What is communication? (2mks)
- (b) Name three main types of communication. (3mks)
- 5.(a) What is trade? (2mks)
- (b) Name three levels of trade. (3mks)

SECTION B

- 6.(a) (i) Give the meaning of horticulture farming and market gardening. (2mks)
(ii) State five characteristics that distinguish horticulture from other types of crop farming. (5mks)
(b) Give three similarities and three differences between horticulture farming in Kenya and in Netherlands. (3mks)
- (c) Name one horticultural product exported in largest amount from each of the following Kenyan region:
(i) Naivasha
(ii) Kericho
(iii) Kirinyaga (3mks)
- (d) (i) Name any three producers and processors of dairy products in Kenya. (3mks)
(ii) Describe three ways in which the Kenyan government has made effort to solve problems that face dairy farmers in Kenya. (6mks)
(iii) State three problems facing horticultural farming in Kenya. (3mks)
- 7.(a) (i) What is energy? (1mk)
(ii) Name three renewable sources of energy. (3mks)
(b) (i) State four factor that led to the implementation of the seven forks dam project in Kenya. (4mks)
(ii) Explain three benefits of seven forks Dam to the economy of Kenya. (6mks)
(c) (i) Name two countries in Eastern Africa where crude oil has been discovered.
(ii) Describe the mode of formation of crude oil. (4mks)
(d) State five reasons why Kenya is investing in the development of renewable sources of energy. (5mks)
- 8.(a) Give four reasons why the environment should be conserved. (4mks)
(b) (i) Explain four ways in which people are affected by floods. (8mks)
(ii) State five ways in which floods can be controlled. (5mks)
(c) (i) State three ways in which farming activities contribute to water pollution. (6mks)
(ii) Name two major causes of pollution in urban areas. (2mks)
- 9.(a) Name four major fishing grounds in the Atlantic and Pacific oceans. (4mks)
(b) State five main factors favouring these fishing grounds. (5mks)
(c) Name three types of fishing and for each one, state one method of fishing used. (6mks)
(d) (i) Give four reasons why the marine fishing industry in East Africa is not well developed. (4mks)
(ii) State six ways in which the fishing industry is of significance in Kenya. (6mks)

KABARAK HIGH SCHOOL GEOGRAPHY

Paper 1

FORM 4 -MODEL TEST PAPERS

SECTION A: (25 marks)

1. (a) What is an isobar? (1 mark)
(b) (i) Name **one** method used for measuring cloud cover. (1 mark)
(ii) State **three** characteristics of cumulonimbus clouds. (3 marks)
2. (a) The diagram below shows the hydrological cycle. Name the stages marked A, B and C in the cycle. (3 marks)

- (b) Differentiate between a water shed and a catchment area. (2 marks)
3. (a) State any **three** main features of the mantle. (3 marks)
- (b) Give **two** reasons why the crustal rocks are solid. (2 marks)
4. (a) Give **three** processes through which the Earth is heated. (3 marks)
- (b) State **two** factors influencing insolation. (2 marks)
5. (a) Name **two** types of reefs. (2 marks)
- (b) Give **three** conditions that encourage the growth of coral rocks. (3 marks)

SECTION B: MAPWORK

Answer question 6 and any other two questions from this section.

6. Study the map of Kitale 1:50,000 (sheet 75/3) provided and answer the following questions.
- (a)(i) What is the six figure grid reference of the trigonometrical station in Kitale DC? (2 marks)
- (ii) Give **two** districts found in the area covered by the map. (2 marks)
- (iii) Measure the distance of Suwerwa River in the South Western part of the area covered by the map. (Give your answer in kilometres) (2 marks)
- (iv) Calculate the area of land covered by Kitale Municipality. (Give your answer in square kilometres). (2 marks)
- (b) Using a vertical scale of 1cm represent 100 metres draw a cross section along northing 28 from Easting 35 to Easting 41. (2 marks)
- (i) On the cross section mark and name.
- Footpath (1 mark)
- River Saiwa (1 mark)
- Steep slope (1 mark)
- (ii) Calculate the vertical exaggeration (V.E) of the section. (2 marks)
- (c) Describe the relief of the area covered by the map. (4 marks)
- (d) Citing evidence from the map, give **three** reasons why cattle rearing is carried out in Kitale area. (6 marks)

7. Use the table below to answer the questions that follow.

Temp in °C	J	F	M	A	M	J	J	A	S	O	N	D
Temp °C	23	23	23	24	23	22	23	22	23	23	24	23
Rainfall in mm	131 3	140 0	148 0	150 2	146 0	140 0	148 0	148 0	148 0	150 0	150 8	149 0

- (a) (i) Calculate: - The temperature range. (1 mark)
- The annual rainfall. (2 marks)
- (ii) Identify the coolest and driest months (2 marks)
- (iii) Describe the characteristics of the climate experienced in the above climatic region (6 marks)
- (b) Explain how the following factors influence climate:
- (i) Human activities (4 marks)
- (ii) Continentality (2 marks)
- (iii) Ocean currents (2 marks)
- (c) Give **six** effects of climate change (6 marks)
8. (a) The diagram below shows some features formed as a result of faulting process.

Name the features marked **G**, **H** and **J**.

(3 marks)

(b) With the aid of well labelled diagrams, describe the formation of the Rift Valley through anticlinal arching.

(8 marks)

(c) State **five** negative effects of faulting on the human environment.

(5 marks)

(d) You are supposed to carry out a field study in an area affected by faulting.

(i) Apart from the Rift Valley, name **three** other features that you are likely to identify.

(3 marks)

(ii) Explain **three** economic benefits of faulting that you are likely to identify.

(6 marks)

9. (a) The diagram below shows a glaciated upland area. Study it and answer the questions.

(i) Name the features marked **R**, **S** and **T**.

(3 marks)

(ii) Describe **two** distinctive characteristics of a fiord.

(2 marks)

(b) With the aid of a well labelled diagram, describe how the following features are formed

(i) Cirque

(6 marks)

(ii) Hanging Valley

(4 marks)

(c) Explain **two** factors that may influence glacial erosion in uplands.

(2 marks)

(d) Your class intends to carry out a field study on glaciated lowland.

(i) Name **one** type of moraine you are likely to identify during the study.

(1 mark)

(ii) Give **two** reasons why you would need the map of the area.

(2 marks)

(iii) State **three** importance of glacial features you are likely to identify.

(3 marks)

10. (a) i) Define mass wasting

(2 marks)

ii) Name **three** forms of slow mass wasting.

(3 marks)

(b) State **two** conditions which may influence occurrence of land slides.

(2 marks)

(c) Explain **Four** factors which cause soil creep.

(8 marks)

(d) Explain **five** effects of mass wasting on physical environment.

(10 marks)

KABARAK HIGH SCHOOL

GEOGRAPHY

Paper 2

FORM 4 -MODEL TEST PAPERS

SECTION A

Answer all questions in this section

1. a) Name **two** exotic dairy breeds in Kenya. (2 marks)
b) State **three** problems facing dairy farmers in Kenya. (3 marks)
2. a) State **three** factors that favour the growth of forest on Mt Kenya. (3 marks)
b) Name **two** types of indigenous hard wood trees found in Kenyan forests. (2 marks)
3. (a) Give **two** characteristics of horticultural farming. (2 marks)
(b) Name **three** main tea growing areas in the Eastern Kenya Highlands. (3 marks)
4. a) Name **two** provinces where Gold is mined in South Africa. (2 marks)
b) State **three** contributions of gold to South Africa economy. (3 marks)
5. a) Explain **three** reasons why horticulture farming is more developed in the Netherlands than in Kenya. (3 marks)
b) Give **two** reasons why the growing of flowers in greenhouses is preferred in Kenya. (2 marks)

SECTION B: MAPWORK

Answer question 6 and any other two questions from this section.

6. (a) The table below shows green tea volumes delivered to Chebut tea factory by various Lorries versus the acreage from which the tea was plucked. Use the data to answer the questions that follow.

Lorry	Tea delivery in kg	Acreage from which green tea was picked.
A	2,000	20
B	8,240	43
C	11,000	70
D	5,300	35
E	5,700	30
TOTAL	32,240	

- (i) Draw a pie-chart with a radius of 5cm to represent the green tea deliveries by the various Lorries. Show your calculations. (6 marks)
- (ii) State **two** disadvantages of using the above method in presenting data. (2 marks)
- (iii) Identify **three** other methods that can be used to present the above data. (3 marks)
- (b) Students from Kamobo Secondary School in Nandi Central Sub-county went to study tea growing in Nandi Tea Estate.
 - (i) State any **two** preparations made before the field study. (2 marks)
 - (ii) Give any **two** follow-up activities the students are likely to engage in after the study (2 marks)
 - (iii) Identify **three** factors that favour tea growing in Nandi Tea Estate that the students might have found. (3 marks)
- (c)
 - (i) State **three** problems that the students are likely to have encountered during their Nandi Tea estate visit? (3 marks)
 - (ii) Explain **two** ways in which the students would have presented their findings from the study in (b) above. (2 marks)
7. (a)
 - (i) What is forestry (2 marks)
 - (ii) Define Agro-forestry (2 marks)
- (b) Explain how the following factors influence the distribution of natural forest
 - (i) Climate (4 marks)
 - (ii) Altitude (2 marks)
 - (iii) Soil (2 marks)
- (c) Give:
 - (i) State **three** characteristics of soft wood in Kenya. (3 marks)
 - (ii) State **four** characteristics of soft wood in Canada. (4 marks)
- (d) Explain **three** positive significances of forest and forests products in Kenya. (6 marks)

8. (a) (i) Name **three** types of minerals. (3 marks)
(ii) State **three** ways in which minerals occur. (3 marks)
- (b) (i) Describe shaft mining method. (5 marks)
(ii) Outline **three** challenges faced by shaft miners. (3 marks)
- (c) Explain **four** problems facing the mining industry in Kenya. (8 marks)
- (d) Highlight **three** ways in which mining derelicts can be reclaimed. (3 marks)
9. (a) Name (i) **Three** areas in Kenya where nomadic pastoralist is practiced. (3 marks)
(ii) **Three** types of animals kept by pastoralists. (3 marks)
- (b) State **three** characteristics of animals kept by pastoralists. (3 marks)
- (c) (i) Explain **four** problems that face nomadic pastoralists in Kenya. (8 marks)
(ii) Explain **four** ways in which the government of Kenya assists nomadic pastoralists' to improve the quality of their livestock. (8 marks)
10. a) (i) What is fishing? (2 marks)
(ii) Name **two** major fishing grounds in the world apart from the north-west pacific ground. (2 marks)
- (b) (i) Name **two** fresh water fish species caught in the North-West pacific fishing grounds. (2 marks)
(ii) Explain **four** factors favouring fishing in the North-West pacific fishing ground. (8 marks)
- (c) Explain **three** contribution of fishing to the economy of Kenya. (6 marks)
- (d) State **four** possible solutions to the problems facing fishing in Kenya. (5 marks)
