PAPER ONE

NRBS

1. Explain the role of sweat glands in the soiling of the body
(2mks)
2. Identify any **four** main causes of accidents in the house (2mks)
3. State any **two** characteristics of clothes made of fabric that develop static electricity (2mks)
4. Explain how living a relatively sedentary lifestyle can lead to obesity (1mk)
5. State **two** qualities that make the run and fell (machine fell) seam suitable for making night dress
6. Explain **two** precautionary measures to be taken when cleaning a painted wall
7. Give **two** reasons why low heeled shoes are recommended for a pregnant woman
(2mks)
8. Give **four** uses of fat in flour mixture (2mks)
9. State the **two** main roles of garnishing in food presentation
(2mks)
10. Identify linen using burning test (3mks)
11. Give reasons for using the following processes during garment construction (2mks)
(a) Basting
(b) Trimming
12. Identify any **six** factors that may affect normal foetal development (3mks)
13. Define the term food fortification (1mk)
14. State any **two** dangers of misusing drugs (1mk)
15. State any **two** factors that affect the efficiency of a detergent (2mks)
16. Define the term '**hue**' as used in colour (1mk)
17. State any function of riboflavin (2mks)
18. What are **two** disadvantages of credit buying (2mks)

19. Mention any **two** preparations to be made before carrying out a family wash (1mk)
20. Suggest **two** reasons for using smoking in garment construction (2mks)
21. Give **two** reasons for having a plan for spending the money available to a family (2mks)
22. What are the two forms of “**malnutrition**” (1mk)
23. You have visited your aunt who is sick
- (a) Wash and treat her loose coloured cotton bed sheets (10mks)
- (b) Clean a pair of stainless steel cutlery she will use (5mks)
- (c) Clean her tooth brush (5mks)
24. (a) State **five** factors that affect individual nutrient requirement (5mks)
- (b) State **five** factors to consider when packing meals (5mks)
- (c) State **six** ways of ensuring that a sleeve is well set (6mks)
- (d) Suggest for advantage of blending wool with nylon (4mks)
25. (a) Giving **four** examples explain why some nutritional disorders are referred to as lifestyle related (4mks)
- (b) Discuss **five** precautionary measures to take when using frying as a method of cooking (5mks)
- (c) Explain **five** ways in which consume can protect herself from being exploited (5mks)
- (d) With the aid of diagram explain the procedure of working out wide tucks (5mks)
26. (a) State **five** factors to consider when choosing fastenings (5mks)
- (b) State **five** precautions to take when using kerosene as a fuel (5mks)
- (c) Discuss **five** points to consider when selecting lighting fixtures (5mks)
- (d) State **five** qualities of a well constructed piece of furniture (5mks)

SBC

1. Explain why damp dusting is better than dry dusting in a sick room
2. Mention any **two** results of lack of vitamin C in the diet
3. Give any **two** factors to consider when making a choice of accessories for an evening
Part
4. State **two** disadvantages of concealed drainage system
5. Mention **two** uses of (dhania) coriander leaves in cookery
6. What is the reason for giving a teething baby a hard object to bite on
7. State **two** qualities of a good soup
8. Give **two** areas in a garment where top stitching is done
9. Mention **one** way in which each of the following articles is given special treatment
(i) Tray cloth
(ii) Baby Napkin
10. Mention **two** advantages of blending cotton and nylon fibres
11. Give **two** methods of credit buying
12. Outline **three** points to consider when choosing a work surface in the kitchen
13. Give **one** reason for kneading yeast dough
14. Write down any **two** reasons why it's important to eat raw carrots
15. State **three** qualities to look for in a pair of cutting out scissors
16. Give **two** ways in which a mother can infect her new born baby with HIV/AIDS virus
17. Outline **two** reasons for snipping curved seams
18. Name **three** types of immunization given to children before their first birthday
19. Give **two** reasons for disposing of waste properly
20. (a) Explain the procedure of sweeping a cemented floor

- (b) Give the procedure of cleaning an enamel plate
21. (a) Describe any **three** types of meal service
- (b) Supporting your answer with four reasons, give a most suitable fabric for an institutions bed linen
- (c) Give **four** ways in which scarcity of time would affect a consumer
- (d) With **two** specific examples, give three uses of permanent stitches
22. (a) Give the systematic order of placing bedding items when preparing a baby's cot
- (b) Explain **three** desirable qualities of ironing board
- (c) Give **three** characteristics of a well- made dart
- (d) Your house is experiencing frequent black outs. Explain how you would clean a hurricane lamp in readiness
23. (a) Breast milk is the best option for any new baby. In which ways would a lactating mother improve supply of breast milk to her baby? (Give **five** points)
- (b) State **five** points to consider when giving general care to all the clothes
- (c) Explain **five** rules to observe when fixing fastenings
- (d) Discuss **five** factors that influence consumer buying

MHS

1. Outline **three** forms of food service (3 marks)
2. State **three** reasons for interfacing collars (3 marks)
3. State **two** properties which make asbestos suitable for theatre curtains and protective clothing
4. State **two** factors that influence choice of a method of controlling fullness (2 marks)
5. State **three** characteristics of a good French seam (3 marks)
6. List down **four** methods of neatening an open seam (2 marks)
7. Mention **three** positive effects of advertisements to a consumer (3 marks)

8. State **two** important rules to observe when darning (2 marks)
9. Give **three** factors determining the choice of color in a sitting room (3 marks)
10. Explain **three** rules to observe during stain removal (3 marks)
11. Mention **four** points to observe when packing meals (4 marks)
12. State **three** principles of wise buying (3 marks)
13. Identify **three** dangers of weaning the baby when it is too late (3 marks)
14. Give **two** reasons why common salt is iodized (3 marks)
15. State **four** disadvantages of using charcoal when cooking (2 marks)
16.
 - a) Launder cotton blood stained sheet (7 marks)
 - b) Describe how to occasionally clean a gas lamp (4 marks)
 - c) Give the procedure for cleaning two Aluminium cups (5 marks)
 - d) Explain briefly how you can carry out spotting on a woolen skirt (4 marks)
17.
 - a) Describe how run and fell seam is made on the side of a cotton skirt (8 marks)
 - b) State **four** functions of tucks in garment construction (4 marks)
 - c) With the aid of a diagram, describe the making of gathers before attaching to the waist band
18.
 - a) Explain points to consider when choosing flowers for flower arrangement (5 marks)
 - b) Describe the procedure of cleaning a wooden polished table surface (7 marks)
 - c) List **four** ways of enhancing personal appearance (4 marks)
 - d) Explain **four** ways of encouraging a child to play (4 marks)
19.
 - a) State **six** points to consider when choosing and preparing weaning foods (6 marks)
 - b) Give **three** desired qualities of a deep frying pan (3 marks)
 - c) State **five** reasons for preserving foods (5 marks)

d) Explain **six** dietary needs of an elderly person

(6 marks)

AGHS

1. List **four** fat soluble vitamins
2. State **two** possible causes of anaemia
3. Give **two** points to look for when buying spinach
4. State **two** effects of strong heat on proteins
5. State **two** disadvantages of suing left over foods
6. State **two** forms in which laundry soap is found in the market
7. Give the steps of removing chewing gum stain from a garment
8. Mention the **three** areas (centres of work that make up the work triangle in a kitchen
9. Suggest **two** measures to take immediately nose bleeding occurs
10. List **two** improvised abrasives in the home
11. Identify **three** tasks that are carried out only during special cleaning of a bedroom
12. Mention **two** dangers of heavy smoking during pregnancy
13. Give **four** methods of advertising
14. State **two** reasons why cotton fabrics are popular for the table linen
15. Give **two** reasons why silk is expensive
16. State **three** qualities of a good tape measure
17. Give **three** reasons for a needle breaking during machining
18. Give **two** reasons why press studs are not suitable for use in children's garments
19. (a) You are arranging dinner for your two friends, describe how to carryout the listed chores.

- (i) Thoroughly clean a stained melamine cup you will use
 - (ii) Starch a previously laundered cotton tray cloth using boiling water starch
 - (iii) Thorough cleaning the terrazzo kitchen floor
20. (a) Mention **four** ways of improving maize meal porridge
- (b) Explain **three** precautions to take when using an oven to bake cakes
- (c) Explain **six** factors to look for when selecting a frying pan
- (d) Explain **four** uses of carrot in cookery
21. (a) Identify **two** fibers in each case wet the properties listed below;
- (i) Stronger when wet
 - (ii) weaker when wet
 - (iii) elastic
 - (iv) luctious
 - (iv) Flakes with a yellow flame
- (b) Describe the procedure of taking the following body measurements
- (i) hips
 - (ii) Inside arm length
 - (iii) Couch
- (c) Using diagram, describe the procedure of preparing a straight collar without interfacing ready for attachment
22. (a) Discuss **four** desirable qualities of a good clothes line
- (b) Explain **five** ways of disposing of refuse in the home
- (c) Explain **five** factors to consider when selecting an electric coon
- (d) Giving a reason in each case, state three factors to consider when wearing a baby
23. (a) Explain **three** preparations to make on a sewing machine in readiness to stitching
- (b) Describe the procedure of making a single pointed dart

(c) Explain **four** points to consider when selecting clothes for a short plump figure

MUM

1. Mention any **three** classes of stain removers used in laundry work
2. State **two** uses of facings in garment construction
3. State **three** uses of eggs in flour mixtures
4. Give any **two** precautions measures to take when using dry cleaning fluid
5. What is the cause of swelling of body tissues that is symptomatic of kwashiorkor
6. Name any **four** common groups of people that are usually affected by anaemia
7. List **three** functions of water in the bodies of human beings
8. Define the term **essential Amino acids** correctly
9. Why are there more than usual numbers of Tuberculosis victims in today's societies than in the past (i.e. after the 80's than before)
10. What is the work of a thermostat in an electric iron box
11. What are the following parts of an enclosed drainage system ?
 - a) Water closet:
 - b) Man hole
 - c) Septic tanks
12. State **three** general causes of poor sanitation
13. Give **two** advantages of frying as a method of cooking
14. State any **two** common problems that may afflict a pregnancy before its full term
15. Give **two** reasons why the double stitched seam is commonly used on children's garments
16. Explain **two** methods or ways in which the body can gain immunity to help resist

disease attacks

17. Give **two** advantages of using carpets in the home
18. State **two** reasons why wooden surfaces in the home need finishing
19. List **four** points to look for when buying cabbages
20. State **two** measures to take in order to control the incidence of bed sores in bed ridden invalids
21. Your friend is celebrating her seventeenth birthday and you are to help in the preparations.
Describe how you would:
 - a) Launder her loose coloured cotton dress that she is going to wear that afternoon
 - b) Explain how you will thoroughly clean the cemented floor in the living room to be used
22.
 - a) A doctor diagnosed pellagra in a foreign student. Briefly describe **two** symptoms he might have noticed that were affecting his patient
 - b) Explain **any two** common faults often encountered in the making of yeast based mixture products
 - c) Explain **one** disadvantage of advertising
 - d) With aid of a labeled illustration describe how to make an overlaid seam
23.
 - a) Explain **three** causes of dental caries
 - b) Explain **one** main difference between inter facing and interlining
 - c) With the aid of clearly labeled diagrams describe how to work and make a box pleat
 - d) Explain **four** factors to consider before choosing a method for mending a tear in the fabric of an item to be laundered
24.
 - a) Explain **four** points to consider when weaning a baby
 - b) Explain **two** types of play to which growing children are normally exposed AND mention **one** benefit and **one** demerit in each case
 - c) State **four** reasons or ways in which a consumer needs protection from negative market

effects

d) Draw a simple illustration and state the main function of each of the following

tacking stitches

i) Tailors tacking:

ii) Fishbone tacking:

iii) Basting:

MHS

1. Outline **three** forms of food service (3 marks)
2. State **three** reasons for interfacing collars (3 marks)
3. State **two** properties which make asbestos suitable for theatre curtains and protective clothing
4. State **two** factors that influence choice of a method of controlling fullness (2 marks)
5. State **three** characteristics of a good French seam (3 marks)
6. List down **four** methods of neatening an open seam (2 marks)
7. Mention **three** positive effects of advertisements to a consumer (3 marks)
8. State **two** important rules to observe when darning (2 marks)
9. Give **three** factors determining the choice of color in a sitting room (3 marks)
10. Explain **three** rules to observe during stain removal (3 marks)
11. Mention **four** points to observe when packing meals (4 marks)
12. State **three** principles of wise buying (3 marks)
13. Identify **three** dangers of weaning the baby when it is too late (3 marks)
14. Give **two** reasons why common salt is iodized (3 marks)
15. State **four** disadvantages of using charcoal when cooking (2 marks)
16. a) Launder cotton blood stained sheet (7 marks)
b) Describe how to occasionally clean a gas lamp (4 marks)
c) Give the procedure for cleaning two Aluminium cups (5 marks)

FOR MORE E-RESOURCES CALL: 0705525657/0770195807

- d) Explain briefly how you can carry out spotting on a woolen skirt (4 marks)
17. a) Describe how run and fell seam is made on the side of a cotton skirt (8 marks)
- b) State **four** functions of tucks in garment construction (4 marks)
- c) With the aid of a diagram, describe the making of gathers before attaching to the waist band
18. a) Explain points to consider when choosing flowers for flower arrangement (5 marks)
- b) Describe the procedure of cleaning a wooden polished table surface (7 marks)
- c) List **four** ways of enhancing personal appearance (4 marks)
- d) Explain **four** ways of encouraging a child to play (4 marks)
19. a) State **six** points to consider when choosing and preparing weaning foods (6 marks)
- b) Give **three** desired qualities of a deep frying pan (3 marks)
- c) State **five** reasons for preserving foods (5 marks)
- d) Explain **six** dietary needs of an elderly person (6 marks)

TNW

1. Why is figure type an important factor to consider in choice of your clothes? (2mks)
2. What is the importance of learning first aid? (2mks)
3. Which laundry processes are carried out before washing a fast- coloured cotton shirt? (2mks)
4. Differentiate between tear and wear (2mks)
5. Give **two** reasons as to why steel wool is not suitable for cleaning plastics (2mks)
6. Name **two** main methods of purchasing goods and services in Kenya (2mks)
7. What are the advantages of dry cleaning? (2mks)
8. State **two** ways of minimizing wastage of detergents when washing (2mks)
9. Give any **two** uses of running stitches (2mks)

10. How can one identify the warp thread in the absence of the selvedge? (2mks)
11. Which factors make meat dry and tough after roasting (2mks)
12. State **three** points to bear in mind when making seams on under wears (3mks)
13. Define the following terms as applied to meal????? (1mk)
14. Give **one** flavouring that is suitable for salads (2mks)
15. State **two** points to consider when selecting the baby's layette (2mks)
16. Differentiate between complementary and supplementary feeding (2mks)
17. Why is management of fullness important (3mks)
18. Give **two** uses of vinegar in cooking (1mk)
19. Your father is to facilitate a very important seminar. Explain how to:
 - a) Dry clean his tie (5mks)
 - b) Finish his cotton shirt (5mks)
 - c) Clean the leather bag he will use (5mks)
 - d) Clean a pair of shipper he will use (5mks)
20. a) Giving examples in each case explain three changes that take place in a dough during the frying of mandazi (6mks)
 - b) Give **four** faults that could occur in cooking of mandazi (4mks)
 - c) Explain **four** nutritional needs of an adolescent (8mks)
 - d) Explain **four** qualities of a well made vegetable salad (2mks)
21. a) Explain **three** points to consider when using a sewing machine (6mks)
 - b) Mention **six** stitches used during the blouse/shirt construction from cutting to readiness (3mks)

c) Explain the procedure followed in preparation of around patch pocket ready for attaching (6mks)

22. a) Explain **two positive** and **two negative** effects of advertisements on the consumer (4mks)
- b) What precautions would one take when using kerosene (4mks)
- c) Explain **five** advantages of breast feeding (5mks)
- d) What **five** problems could result to a baby during weaning (5mks)
- e) Give **two** reasons for labelling products (2mks)

NDW

1. State the importance of sebaceous glands in relation to a healthy skin (1mk)
2. State **two** qualities that make aluminium popular for household utensils (2mks)
3. Give a reason why nylon is unsuitable for sports wears (1mk)
4. Mention **two** uses of dhania (coriander) leaves in cookery (2mks)
5. Mention **two** advantages of blending cotton and nylon fibers (2mks)
6. State any **two** reasons why a child's growth monitoring is important (2mks)
7. List **four** laundry processes that are harmful to woolen fibres and in each case state the harm caused
8. State **three** ways of providing variety in meal planning and management (3mks)
9. State **two** factors to consider when choosing where to buy vegetables (2mks)
10. Give **two** qualities of a good advertisement (2mks)
11. Explain **three** ways of economizing fuel when using electricity for cooking (3mks)
12. Explain **two** reasons for using interfacing during garment construction (2mks)

FOR MORE E-RESOURCES CALL: 0705525657/0770195807

13. Identify **three** methods of finishing the edges of sleeves other than using a cuff (3mks)
14. State **three** reasons for labeling products in a factory (3mks)
15. State **two** precautions to be taken to prevent bed sores when taking care of the sick persons at home
16. List **two** uses of lamp shades (2mks)
17. State **two** factors to consider when planning lighting for various rooms in the home (2mks)
18. Differentiate between advancing and receding colours (2mks)
19. Give **two** reasons why most women in the rural areas are less groomed (2mks)
20. a) Describe the correct procedure of laundering nylon dress (8mks)
b) Describe the correct procedure of cleaning white canvas shoes without shoe laces (7mks)
c) Give the correct procedure of cleaning two aluminium cups (5mks)
21. a) Mention **two** uses of butter in the home (2mks)
b) Identify **four** major nutrients found in butter (4mks)
c)i) Describe **four** changes that takes place when heating butter (4mks)
ii) Name **four** main groups of fats giving an example for each (4mks)
d) Explain **three** considerations to make when selecting a storage facility for butter (6mks)
22. a) Outline **four** tests undertaken at the clinic to an expectant mother in the first month of pregnancy (4mks)
b) Describe **two** supplementary foods for a baby (2mks)
c) Explain **two** benefits of supplementary food (4mks)
d)i) Explain **four** reasons why a mother may be unable to breast feed
ii) Explain **four** points on care of play items (2mks)
23. a) Explain **four** properties of viscose rayon which are undesirable (8mks)

- b) Suggest **four** features that can be used to finish a night dress decoratively (4mks)
- c) Give **three** reasons for ironing a night dress during construction (3mks)
- d) Explain **five** desirable qualities of an iron box (5mks)

RCH

1. State the importance of sebaceous glands in relation to a healthy skin (1mk)
2. State **two** qualities that make aluminium popular for household utensils (2mks)
3. Give a reason why nylon is unsuitable for sports wears (1mk)
4. Mention **two** uses of dhania (coriander) leaves in cookery (2mks)
5. Mention **two** advantages of blending cotton and nylon fibers (2mks)
6. State any **two** reasons why a child's growth monitoring is important (2mks)
7. List **four** laundry processes that are harmful to woolen fibres and in each case state the harm caused (2mks)
8. State **three** ways of providing variety in meal planning and management (3mks)
9. State **two** factors to consider when choosing where to buy vegetables (2mks)
10. Give **two** qualities of a good advertisement (2mks)
11. Explain **three** ways of economizing fuel when using electricity for cooking (3mks)
12. Explain **two** reasons for using interfacing during garment construction (2mks)
13. Identify **three** methods of finishing the edges of sleeves other than using a cuff (3mks)
14. State **three** reasons for labeling products in a factory (3mks)
15. State **two** precautions to be taken to prevent bed sores when taking care of the sick persons at home (2mks)
16. List **two** uses of lamp shades (2mks)

17. State **two** factors to consider when planning lighting for various rooms in the home (2mks)
18. Differentiate between advancing and receding colours (2mks)
19. Give **two** reasons why most women in the rural areas are less groomed (2mks)
20. a) Describe the correct procedure of laundering nylon dress (8mks)
b) Describe the correct procedure of cleaning white canvas shoes without shoe laces (7mks)
c) Give the correct procedure of cleaning two aluminium cups (5mks)
21. a) Mention **two** uses of butter in the home (2mks)
b) Identify **four** major nutrients found in butter (4mks)
c)i) Describe **four** changes that takes place when heating butter (4mks)
ii) Name **four** main groups of fats giving an example for each (4mks)
d) Explain **three** considerations to make when selecting a storage facility for butter (6mks)
22. a) Outline **four** tests undertaken at the clinic to an expectant mother in the first month of pregnancy (4mks)
b) Describe **two** supplementary foods for a baby (2mks)
c) Explain **two** benefits of supplementary food (4mks)
d)i) Explain **four** reasons why a mother may be unable to breast feed
ii) Explain **four** points on care of play items (2mks)
23. a) Explain **four** properties of viscose rayon which are undesirable (8mks)
b) Suggest **four** features that can be used to finish a night dress decoratively (4mks)
c) Give **three** reasons for ironing a night dress during construction (3mks)
d) Explain **five** desirable qualities of an iron box (5mks)

KKE

1. Why is comfort an important factor to consider during the choice of cosmetics (2mks)
2. What observation should you make when cleaning a house? (2mks)

FOR MORE E-RESOURCES CALL: 0705525657/0770195807

3. What is the difference between drainage and refuse disposal (2mks)
4. Green vegetables should be blanched before freezing. Give three reasons why (3mks)
5. State any two vaccines that every child should receive (2mks)
6. State ways of preventing insect bites and stings in an environment (2mks)
7. Give three uses of facing in garment construction (3mks)
8. Which factors influence the rise of prices of commodities in the market? (2mks)
9. Which precautionary measures should one take to prevent food spoilage during storage? (2mks)
10. Identify two kitchen equipment that occupy small space and are easy to store (2mks)
11. Explain two functions of water in the body (2mks)
12. Suggest two points to observe when cooking beef (2mks)
13. State two nutritional needs of adolescents (2mks)
14. State two reasons why bicarbonate of soda is not popular used in flour mixtures (2mks)
15. Explain how food can be preserved at home without refrigerator (2mks)
16. List three classes of convenience foods (2mks)
17. State the effects of insufficient/light pressure exerted by the pressure foot during stitching (2mks)
18. Give properties that make linen suitable for making kitchen clothes
19. State two qualities of a well made patch pocket (2mks)
20. In the space provided, sketch two pattern marking that will assist in laying of pattern (2mks)
21. You are taking care of an aunt who is recovering from an infection disease:
 - a) Explain how you could launder a white cotton bed sheet (14 mks)
 - b) Describe how you would clean a plastic basin she has used in the room (6mks)
22.
 - a) Mention three methods used to coat before frying (3mks)
 - b) State 4 ways of improving appetite when presenting food at the table (4mks)
 - c) Discuss general points to observe when drying meat (3mks)
 - d) Discuss five important points to observe when planning meals for the elderly (10mks)

23. a) State three ways of transferring pattern markings (5mks)
b) State five advantages of home based care of the sick (5mks)
c) Giving reasons, explain 5 rules to observe when removing stains (10mks)
24. a) explain three roles of play in child development (3mks)
b) Give five qualities of a well made cuff (5mks)
c) With the aid of a well labeled diagram, describe how to make machine fell seam (7mks)
d) Describe how you would clean your wooden locker (5mks)

STK

1. Define the term hue as used in home science (1mk)
2. Give **two** Ways in which the studying of home science benefits an individual (2mks)
3. Give **two** functions of a colander as kitchen equipment
4. Sate **four** basic instructions on the use of medicine (2mks)
5. Name **two** types of accidents that can cause fractures (2mks)
6. State **two** points to consider when choosing a toilet brush. (2mks)
7. Why are clothes dampened before ironing? (1mk)
8. Give **three** precautions to take when cleaning wooden surfaces (3mks)
9. State **three** qualities to look for when buying a sauce pan (3mks)
10. Give **three** uses of eggs in flour mixtures (3mks)
11. Give **two** different methods of identifying linen as a textile fibre (2mks)
12. List **four** decorative methods of disposing off fullness in a toddlers dress (2mks)
13. Give **two** causes of needle breaking when machine stitching (2mks)
14. Suggest **two** reasons why a French seam is suitable for fraying fabrics (2mks)

15. Give **two** points on the importance of consumer education to a consumer .
(2mks)
16. State **three** factors that will affect the efficiency of a laundry soap
(3mks)
17. (a) State **two** reasons for using tucks on children's clothing
(2mks)
- (b) Identify any **four** factors that may affect normal foetal development (2mks)
18. Explain **two** advantages of home-based care of the sick. (2mks)
19. You are taking care of your sister who is recovering from an infectious skin disease
- (a) Giving reasons in each case, explain the procedural steps you would take to launder her
woolen shawl (10mks)
- (b) Thoroughly clean her white canvas shoes with laces (6mks)
- (c) Explain the steps you would take in cleaning her stained melamine cup (4mks)
20. (a) Discuss **five** danger signs of pregnancy
10mks)
- (b) Explain **four** points to consider when buying hand sewing needles (4mks)
- (c) Give **two** common faults and their causes in each of the following flour mixtures.
- (i) A coarse open texture in rubbed –in cakes (2mks)
- (ii) Heavy and close texture in creamed cakes (2mks)
- (iii) Hard and tough pastry (2mks)
21. (a) With the aid of **three** clearly labeled diagrams, explain the working of a lapped seam (8mks)
- (b) Explain the functions of each of the following:-
- (i) Balance wheel (1mk)
- (ii) Bobbin case (1mk)
- (iii) Pressure foot lifter (1mk)
- (c) Explain **four** qualities of a good cutting out shears (4mks)

- (d) (i) Explain **three** points of importance of care labels (3mks)
- (ii) Give **two** undesirable properties of nylon (2mks)
21. (a) Explain **five** changes that occur when cooking ugali using maize flour (10mks)
- (b) Define the following terms as used in home science. Give an example in each case:-
- (i) Food fortification (2mks)
- (ii) Food vehicle (2mks)
- (iii) Food supplements (2mks)
- (c) Explain **four factors** that influence consumer buying (4mks)

STK²

1. Give **two** economical ways of disposing refuse. (2mks)
2. Define the term descaling as used in home science (1mk)
3. Using an example in each case list three types of drainage (7mks)
4. Give **two** use of a mangle (2mks)
5. Name the **three** categories under which clothes should be sorted out in laundry work (3mks)
6. Name **two** inexpensive sponging solutions (2mks)
7. Define the term **natural immunization** (2mks)
8. Give **two** major functions of vitamin **K** (phyloquinone) (2mks)
9. Explain **two** effects of cooking on vitamin **C** (ascorbic acid) (2mks)
10. Give **two** differences between weaning and supplementary feeding (2mks)

11. Define the term **medicine** as used in home science
(2mks)
12. State **two** precautions to take when using grease solvents
(2mks)
13. (a) What is valeting in home science?
(b) Explain it's importance (1mk)
14. List **three** processes through which sodium is lost in the body (3mks)
15. List **three** methods of neatening an overlaid seam
(3mks)
16. Give **two** reasons why consumer education is taught in schools (2mks)
17. (i) Which is the most important meal for the day? (1mk)
(ii) Give a reason for your answer (1mk)
18. You're preparing to entertain visitors in our birthday party.
(a) Sponge your aunties woolen coat to be worn on the day
(10mks)
(b) Launder your white cotton blouse with chewing gum stain (6mks)
