| 1        | 1          | <b>Sculpture</b> | <b>Toys</b>  | By the end of the of the lesson the learner should be able identify toys, locally available materials and tools for making toys at Inquiry Corner for motivation | What toys have you seen in class' Inquiry Corner            | Guide the learners, as a group, to Inquiry Corner to identify toys, locally available materials and tools for making toys at Inquiry Corner for motivation | Realia<br>a<br>chart<br>s     | Observation<br>Oral questions |            |
|          | 2          |                  | <b>Toys</b>  | By the end of the of the lesson the learner should be able to bserve toys in the physical and/or ICT environment to help in making toys                          | What toys have you seen in class' Inquiry Corner            | Guide the learners, to observe toys, locally available materials and tools for making toys in the physical and/or ICT environment                          | Realia<br>charts              | Observation<br>Oral questions |            |
| 2        | 1          |                  | <b>Toys</b>  | By the end of the of the lesson the learner should be able to collect different types of materials and tools from the environment that can be used to make       | What materials and tools do we have for making simple toys? | Individually, learners make simple toys using available materials and tools                                                                                | Realia<br>a<br>chart<br>s     | Observation<br>Oral questions |            |
|          | 2          |                  | <b>Toys</b>  | By the end of the of the lesson the learner should be able to Make simple toys                                                                                   | What materials and tools do we have for making simple       | In a group, learners display, talk about and appreciate their own and others' work                                                                         | <b>Realia<br/>chart<br/>s</b> | Observation<br>Oral questions |            |

|   |   |  |              |                                                                                                                                                                       |                              |                                                                                                                                                               |               |                               |  |
|---|---|--|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-------------------------------|--|
|   |   |  |              | locally available materials and tools, for playing.                                                                                                                   |                              |                                                                                                                                                               |               |                               |  |
| 3 | 1 |  | <b>Kites</b> | By the end of the of the lesson the learner should be able to identify kites, locally available materials and tools for making kites at Inquiry Corner for motivation | What is a kite?              | \Guide the learners, as a group, to Inquiry Corner to identify kites, locally available materials and tools for making kites at Inquiry Corner for motivation | Realia charts | Observation<br>Oral questions |  |
|   | 2 |  | <b>Kites</b> | By the end of the of the lesson the learner should be able to observe kites in the physical and/or ICT environment to help in making kites                            | What is a kite?              | Guide the learners, to observe kites, locally available materials and tools for making kites in the physical and/or ICT environment                           | Realia charts | Observation<br>Oral questions |  |
| 4 | 1 |  | <b>Kites</b> | By the end of the of the lesson the learner should be able to collect different types of materials and tools from the environment that can be used to make            | 2. Have you ever seen a kite | Individually, learners make simple kites using available materials and tools                                                                                  | Realia charts | Observation<br>Oral questions |  |
|   | 2 |  | <b>Kites</b> | By the end of the of the lesson the learner should be able to                                                                                                         | 2. Have you ever seen a kite | In a group, learners display, talk about and appreciate their own and others' work.                                                                           | Realia charts | Observation<br>Oral questions |  |

|   |   |         |                   |                                                                                                                                                                       |                                 |                                                                                                                                                              |               |                            |  |
|---|---|---------|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|----------------------------|--|
|   |   |         |                   | locally available materials and tools, for playing                                                                                                                    |                                 |                                                                                                                                                              |               |                            |  |
| 5 | 1 | Weaving | Plain Paper Weave | By the end of the of the lesson the learner should be able to identify samples of plain weaves of varied materials and colours at Inquiry Corner for motivation.      | What is weaving?                | Guide the learners, as a group, to Inquiry Corner to identify samples of plain weaves of varied materials and colours for motivation                         | Realia charts | Observation Oral questions |  |
|   | 2 | Weaving | Plain Paper Weave | By the end of the of the lesson the learner should be able to identify locally available material and tools for making plain weaves at Inquiry Corner for motivation. | What is weaving?                | Guide the learners, to observe samples of plain weaves from varied materials and colours in the physical and/or ICT environment for motivation               | Realia charts | Observation Oral questions |  |
| 6 | 1 | Weaving | Plain Paper Weave | By the end of the of the lesson the learner should be able to collect different types of materials and tools from the environment that can be used to make            | How do we identify woven items? | Individually, learners collect different types of materials and tools from the environment and make simple paper table mats using plain weave in two colours | Realia charts | Observation Oral questions |  |
|   | 2 | Weaving | Plain Paper Weave | By the end of the of the lesson the learner                                                                                                                           | How do we identify              | Individually, learners collect                                                                                                                               | Realia        | Observation Oral questions |  |

|   |   |                  |                     |                                                                                                                                                                         |                                                              |                                                                                                                                              |               |                               |  |
|---|---|------------------|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|---------------|-------------------------------|--|
|   |   |                  |                     | should be able to make simple paper table mats using plain weave in two colours from locally available materials and tools                                              | items?                                                       | of materials and tools from the environment and make simple paper table mats using plain weave in two colours                                |               |                               |  |
| 7 | 1 | <b>Modelling</b> | <b>Pinch Method</b> | By the end of the of the lesson the learner should be able to identify items modelled using pinch method, materials and tools at Inquiry Corner for motivation          | What items in Inquiry Corner are modelled using pinch method | Learners are guided, as a group, to Inquiry Corner to identify items modelled using pinch method, materials and tools for motivation.        | Realia charts | Observation<br>Oral questions |  |
|   | 2 | <b>Modelling</b> | <b>Pinch Method</b> | By the end of the of the lesson the learner should be able to observe items modelled using pinch method, materials and tools in the physical and/or ICT environment for | What items in Inquiry Corner are modelled using pinch method | Learners are guided, to observe items modelled using pinch method, materials and tools in the physical and/or ICT environment for motivation | Realia charts | Observation<br>Oral questions |  |
| 8 | 1 | <b>Modelling</b> | <b>Pinch Method</b> | By the end of the of the lesson the learner should be able to model simple objects using pinch method for self-expression                                               | What materials and tools are used for modelling              | Individually, learners model simple objects using pinch method for self-expression                                                           | Realia charts | Observation<br>Oral questions |  |
|   | 2 | <b>Modelling</b> | <b>Pinch Method</b> | By the end of the of the lesson the learner                                                                                                                             | What materials and                                           | In a group, learners display, talk about                                                                                                     | Realia        | Observation<br>Oral questions |  |

|      |  |             |            |                                                                           |                    |                                        |            |            |            |
|------|--|-------------|------------|---------------------------------------------------------------------------|--------------------|----------------------------------------|------------|------------|------------|
|      |  |             |            | should be able to display, talk about and appreciate own and others' work | used for modelling | appreciate their own and others' work. |            |            |            |
| 9&10 |  | ASSESSEMENT | ASSESSMENT | ASSESSMENT                                                                | ASSESSMENT         | ASSESSMENT                             | ASSESSMENT | ASSESSMENT | ASSESSMENT |
|      |  |             |            |                                                                           |                    |                                        |            |            |            |
