

ENVIRONMENTAL ACTIVITIES GRADE 2

SCHEME OF WORK FOR TERM 1

COMPETENCY BASED CURRICULUM

ENVIRONMENTAL ACTIVITIES SCHEME OF WORK GRADE 2 TERM 1

SCHOOL	GRADE	LEARNING AREA	TERM	YEAR
	2	ENVIRONMENTAL ACTIVITIES	1	

Week	Lesson	Strand Theme	Sub Strand	Specific Learning Outcomes	Key Inquiry Question(S)	Learning Experience	Learning Resources	Assessment Methods	Reflection
1	1	Environment and its resources	Weather	By the end of the topic, the learner should be able to: Observe the weather from outside the class and identify the weather.	What are the different weather conditions	Learners to observe and discuss prevailing weather conditions, as an outdoor activity	Our lives today Grade 2 page 3 Realia pictures	Observing the weather Checking answers given by pupils	
	2	Environment and its resources	Weather	By the end of the topic, the learner should be able to: state different	What are the different weather conditions	Learners to observe and discuss prevailing weather	Our lives today Grade 2 page 3	Observing the weather condition the pupils have	

				weather			Realia	given	
--	--	--	--	---------	--	--	--------	-------	--

				conditions		conditions, as an outdoor activity	pictures		
	3	Environment and its resources	Weather	By the end of the topic, the learner should be able to: Take a nature walk and list down the weather condition of the day	What are the different weather conditions	Learners to observe and discuss prevailing weather conditions, as an outdoor activity	Our lives today Grade 2 page 3 Realia pictures	Observing the weather condition the pupils have given	
	4	Environment and its resources	Weather	By the end of the topic, the learner should be able to: state ways of responding to different weather conditions	What do we wear in different weather?	Learners to think, pair and share experiences on how they could respond to different weather conditions (hot, cold, rainy)	Our lives today Grade 2 page 4 Realia pictures	Observe the answers given by pupils on different type of clothes to wear in different days	
	5	Environment and its resources	Weather	By the end of the topic, the learner should be able to: In group of two discuss ways of responding to different weather conditions	What do we wear in different weather?	Learners to think, pair and share experiences on how they could respond to different weather conditions (hot, cold, rainy)	Our lives today Grade 2 page 4 Realia pictures	Observe the answers given by pupils on different type of clothes to wear in different days	
2	1	Environment and its resources	Weather	By the end of the topic, the learner should be able to:	What do we do in different weather?	Using pictures, video clips, learners identify	Our lives today Grade 2	Observe the Respond to given by	

							page 4	pupils on	
--	--	--	--	--	--	--	--------	-----------	--

				Respond appropriately to different weather conditions to limit risks to self, others and the environment		ways of responding to various weather conditions Learners to perform a skit on ways of responding to various weather conditions	Realia pictures	different weather conditions to limit risks to self, others and the environment	
	2	Environment and its resources	Weather	By the end of the topic, the learner should be able to: In pairs discuss and identify the appropriately ways of handling harsh weather conditions to limit risks to self, others and the environment	What do we do in different weather?	Using pictures, video clips, learners identify ways of responding to various weather conditions Learners to perform a skit on ways of responding to various weather conditions	Our lives today Grade 2 page 5 Realia pictures	Observe the Respond to given by pupils on different weather conditions to limit risks to self, others and the environment	
	3	Environment and its resources	Weather	By the end of the topic, the learner should be able to: Appreciate differences in weather conditions	What do we do in different weather	Learners to read or listen to stories about responding appropriately to adverse weather conditions Learners to find out from parents,	Our lives today Grade 2 page 6 Realia Pictures Video	Observe the pupils respond to different weather condition.	

						guardians or community			
--	--	--	--	--	--	---------------------------	--	--	--

						members on how to respond to different weather conditions and report back.			
	4	Environment and its resources	Weather	By the end of the topic, the learner should be able to Discussing how to keep ourselves safe in different weather such sunny, flooding, storms	How do we keep safe in different weather?	Learners to read or listen to stories about responding appropriately to adverse weather conditions	Our lives today Grade 2 page 7 Realia pictures	Observing how the pupil keep themselves safe in weather	
	5	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able to: On your own describe weather conditions at different times of the day	How is the weather today?	Learners to observe the weather at different times of the day as an outdoor activity	Our lives today Grade 2 page 9-10 Realia pictures	Observing the record given by the pupils on weather of the day.	
3	1	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able to: Work in groups and record the weather	How is the weather today?	Learners to observe the weather at different times of the day as an outdoor activity	Our lives today Grade 2 page 9-10 Realia pictures	Observing the record given by the pupils on weather of the day.	

				of the day					
	2	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able to:	What symbols are used to record different weather conditions?	Learners identify weather symbols from charts and other learning resources	Our lives today Grade 2 page 9-10 Realia	Observing the symbols used to record	

				Describe the symbols are used to record different weather conditions?			pictures	different weather conditions	
	3	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able to: Draw weather symbols to represent different weather conditions	What symbols are used to record different weather conditions?	Learners identify weather symbols from charts and other learning resources	Our lives today Grade 2 page 9-10 Realia pictures	Observing the drawn symbols used to record different weather conditions	
	4	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able ; in pair work in school compound and draw the symbol of one week weather	What symbols are used to record different weather conditions?	Learners identify weather symbols from charts and other learning resources	Our lives today Grade 2 page 11 Realia pictures	Observing the drawn symbols used to record different weather conditions	
	5	Environment and its resources	Recording weather conditions	By the end of the sub-strand, the learner should be able	How could we record weather conditions?	Learners identify weather symbols from charts and	Our lives today Grade 2	Observing the drawn symbols	

			ns	to Create a weather record using symbols for a period of one week		other learning resources	page 11 Realia Pictures Poster phone	used to record different weather conditions	
--	--	--	----	---	--	-----------------------------	--	---	--

4	1	Environment and its resources	Recording weather conditions	By the end of the sub strand, the learner should be able to develop interest in recording weather conditions	How could we record weather conditions?	Learners identify weather symbols from charts and other learning resources	Our lives today Grade 2 page 11 Realia Pictures Poster phone	Observing the drawn symbols used to record different weather conditions	
	2	Environment and its resources	Interpreting weather messages	By the end of the sub strand, the learner should be able to interpret weather charts correctly	How could we use symbols to communicate weather messages	Learners to use weather charts to interpret different weather symbols	Our lives today Grade 2 page 12-13 Realia pictures	Observing the message written by pupils on weather	
	3	Environment and its resources	Interpreting weather messages	By the end of the sub strand, the learner should be able to In groups of two demonstrate how to communicate weather messages accurately	How could we communicate weather messages to others?	In pairs, learners practice using weather symbols to interpret weather messages	Our lives today Grade 2 page 12-13 Realia Pictures Poster phone	Observing the demo done by the pupils	
	4	Environment	Interpreting	By the end of the sub	How could we	In pairs, learners	Our lives	Observing the	

		nt and its resources	weather messages	strand, the learner should be able to develop interest in interpreting and communicating weather messages	communicate weather messages to others?	practice using weather symbols to interpret weather messages	today Grade 2 page 12-13 Realia Pictures Poster phone	demo done by the pupils	
--	--	-------------------------	---------------------	--	--	--	---	-------------------------------	--

	5	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: state why we store water at home and school	Why do we store water at home and school?	Learners to explore and observe various ways of storing water at home and in the school	Our lives today Grade 2 page 15 Realia Pictures Poster phone	Checking the answers given by students on ways of storing water	
5	1	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: state the importance of storing water at home and school	How do we store water?	Learners to explore and observe various ways of storing water at home and in the school In groups, learners to share their experiences on why water is stored at homes and school	Our lives today Grade 2 page 15 Realia Pictures Poster phone	Observing the items given by the pupils	
	2	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able	Why do we store water at home and school?	Learners to explore and observe various	Our lives today Grade 2	Observing the items given by the pupils	

				to: identify ways of storing water in the home and school		ways of storing water at home and in the school In groups, learners to share their experiences on why water is stored	page 15 Realia Pictures Poster phone		
--	--	--	--	--	--	---	--	--	--

						at homes and school			
	3	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: Store water appropriately in the home and school	Why do we store water at home and school?	In groups, learners to share their experiences on how water is stored at homes and school	Our lives today Grade 2 page 15 Realia pictures	Observing how the pupils are storing water at home and school	
	4	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: In group of two store water appropriately in the home and school	Why do we store water at home and school?	In groups, learners to share their experiences on how water is stored at homes and school	Our lives today Grade 2 page 15 Realia Pictures Poster phone	Observing how the pupils are storing water at home and school	
	5	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: Appreciate safe	Why do we store water at home and school?	Learners to use video clips, pictures and photographs to identify	Our lives today Grade 2 page 15 Realia	Observing how the pupils are storing water at home and school	

				water storage to prevent health risks to self and others.		appropriate ways of storing water at home and school Learners to gather more information on ways of storing water in the at home and report back	Pictures Poster phone		
--	--	--	--	---	--	---	-----------------------------	--	--

6	1	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: identify different ways of transporting water at home and school	How is water transported at home and school?	In groups, learners share experiences on various ways in which water is transported at home and school	Our lives today Grade 2 page 16-17 Realia Pictures Water bottles	Observing how the pupils transport water at school	
	2	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to: In group of two identify different ways of transporting water at home and school	How is water transported at home and school?	In groups, learners share experiences on various ways in which water is transported at home and school	Our lives today Grade 2 page 16-17 Realia Pictures Water bottles	Observing how the pupils transport water at school	
	3	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to demonstrate suitable ways of carrying small quantities of water at home and school	How is water transported at home and school?	Using pictures and video clips, learners to identify ways of transporting water Learners read, tell, or listen to stories about transporting water	Our lives today Grade 2 page 18-19 Realia Pictures Water bottles	Observing how the pupils transport water at school	
	4	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to demonstrate suitable ways of carrying small quantities of water at home and school	How is water transported at home and school?	Using pictures and video clips, learners to identify ways of transporting water Learners read, tell, or listen to stories about transporting water	Our lives today Grade 2 page 18-19 Realia Pictures Water bottles	Oral	

		nt and its resources	water	sub-strand, the learner should be able to Appreciate different means of transporting	transported at home and school?	and video clips, learners to identify ways of transporting water Learners read, tell, or listen to	today Grade 2 page 18-19 Realia Pictures	questions and observations on storing and transporting water.	
--	--	-------------------------	-------	--	---	---	--	---	--

				water at home and school.		stories about transporting water	Water bottles		
	5	Environment and its resources	Storing water	By the end of the sub-strand, the learner should be able to Appreciate different means of transporting water at home and school.	How is water transported at home and school?	Using pictures and video clips, learners to identify ways of transporting water Learners read, tell, or listen to stories about transporting water	Our lives today Grade 2 page 18-19 Realia Pictures Water bottles	Oral questions and observations on storing and transporting water..	
7	1	Environment and its resources	Soils Exploring soil	By the end of the sub-strand, the learner should be able to: identify type of soils near the school compound	What are the various types of soils	Learners to identify various types of soils	Our lives today Grade 2 page 21-22 Realia Pictures	Observing the soil samples identified by pupils	
	2	Environment and its resources	Soils Exploring soil	By the end of the sub-strand, the learner should be able to: model objects with different types of soil	What objects could we make with soil?	model objects (balls, ribbons, pots) with different types of soils (clay, loam, sand)	Our lives today Grade 2 page 21-22 Realia Pictures	Oral questions and observations	

	3	Environment and its resources	Soils Exploring soil	By the end of the sub-strand, the learner should be able to: in group of two make soil ribbons.	What objects could we make with soil?	model objects (balls, ribbons, pots) with different types of soils (clay, loam, sand	Our lives today Grade 2 page 23 Realia Pictures	Oral questions and observations on the models made by the pupils	
--	---	-------------------------------	-------------------------	--	---------------------------------------	---	---	--	--

	4	Environment and its resources	Soils Exploring soil	By the end of the sub-strand, the learner should be able to: determine the soil that makes long smooth ribbons	What objects could we make with soil?	In groups, learners to model soil ribbons using the soil samples provided (clay, loam, sand). Learners to observe to find out which soil samples make smooth long ribbons	Our lives today Grade 2 page 23-24 Realia Pictures	Oral questions and observations on the models made by the pupils	
	5	Environment and its resources	Soils Exploring soil	By the end of the sub-strand, the learner should be able to: appreciate different types of soil in the immediate environment.	What objects could we make with soil?	Learners to visit the school neighborhood to observe or take pictures of different types of soils and their uses (sand for	Our lives today Grade 2 page 23-24 Realia Pictures	Oral questions and observations on the models made by the pupils	

						construction, clay for modeling, loam for farming).			
--	--	--	--	--	--	---	--	--	--

8	1	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: Identify parts of a plant Draw parts of plant	What are the different parts of a plant?	In a nature walk, learners to explore different plants in the immediate environment. Learners to observe parts of the plants (roots, stem, leaves, flowers, fruits)	Our lives today Grade 2 page 26-27 Realia Pictures	Observing the plants identified by the pupils	
	2	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: draw different parts of a plant from the immediate environment	What are the different parts of a plant?	In a nature walk, learners to explore different plants in the immediate environment. Learners to observe parts of the plants (roots, stem, leaves, flowers, fruits)	Our lives today Grade 2 page 26-27 Realia Pictures	Observing the drawing made by the pupils	
	3	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: Take a nature walk and collect plants	What are the different parts of a plant?	Explore different plants in the immediate environment. Learners to observe parts of	Our lives today Grade 2 page 26-27 Realia Pictures	Observing the plants identified by the pupils	

			school compound		(roots, stem, leaves, flowers, fruits) from different types of plants			
--	--	--	--------------------	--	---	--	--	--

	4	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: In group of two Identify plants in school, leaves of the plant, take photograph of the leaves	What are the different parts of a plant?	Using video clip, pictures and photographs learners to identify different parts of a plant. In groups, learners talk about parts of a plant.	Our lives today Grade 2 page 28 Realia Pictures	Observing the plants identified by the pupils	
	5	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: In group of two identify the flower of the plants, take photograph, state the colour of the flower	What are the different parts of a plant?	Using video clip, pictures and photographs learners to identify different parts of a plant. In groups, learners talk about parts of a plant.	Our lives today Grade 2 page 29 Realia Pictures	Observing the plants identified by the pupils	
9	1	Environment and its resources	Plants Parts of plants	By the end of the sub-strand, the learner should be able to: show interest in parts	What are the different parts of a plant?	In groups, learners talk about parts of a plant. Learners draw or take photographs	Our lives today Grade 2 page 29 Realia	Observing the plants identified by the pupils	

				of a plant for learning and enjoyment		of parts of a plant. Learners are guided to display their work for further learning and peer assessment.	Pictures		
--	--	--	--	--	--	--	----------	--	--

	2	Environment and its resources	Animals Categorizing animals	By the end of the sub-strand, the learner should be able to: recognize animals in the immediate environment	What animals are found in the immediate environment?	In nature walk, learners to observe and identify animals in the environment	Our lives today Grade 2 page 32 Realia Pictures	Oral question on animals found in the area	
	3	Environment and its resources	Animals Categorizing animals	By the end of the sub-strand, the learner should be able to: identify the big and small animals from pictures given by the teacher	What animals are found in the immediate environment?	In groups, and referring from appropriate references learners categorize animals using the provided criteria: (domestic/wild, harmful/nonharmful, large/small)	Our lives today Grade 2 page 32 Realia Pictures	Oral question on animals found in the area	
	4	Environment and its resources	Animals Categorizing animals	By the end of the sub-strand, the learner should be able to: categorize different animals in the environment domestic and wild animals	How could we categorize animals in the immediate environment?	In groups, and referring from appropriate references learners categorize animals using the provided criteria: (domestic/wild, harmful/nonharmful, large/small)	Our lives today Grade 2 page 32-33 Realia Pictures	Oral question on animals found in the area	

						large/small)			
	5	Environment and its resources	Animals Categorizing animals	By the end of the sub-strand, the learner should be able to:	How could we categorize animals in the immediate environment?	In groups, and referring from appropriate references learners categorize animals	Our lives today Grade 2 page 32-33 Realia	Oral question on animals found in the area	

				identify the harmful and non- harmful animals		using the provided criteria: (domestic/wild, harmful/nonharmful, large/small)	Pictures		
10	1	Environment and its resources	Animals Categorizing animals	By the end of the sub-strand, the learner should be able to: appreciate different animals in the environment	How could we categorize animals in the immediate environment?	In groups, learners use papiermache, clay or plasticine to model different animals. Learners sing song related to different animals.	Our lives today Grade 2 page 32-33 Realia Pictures	Oral question on animals found in the area	
	2	Environment and its resources	Safety when handling animals.	By the end of the sub-strand, the learner should be able to: identify possible dangers when handling animals	How could we protect ourselves from harm when handling animals?	Learners to share their experiences on handling animals In groups, learners discuss possible dangers that may occur when handling animals	Our lives today Grade 2 page 37 Realia Pictures	Oral question on animals found in the area	
	3	Environment and its resources	Safety when handling animals.	By the end of the sub-strand, the learner should be able to: practice safety measures when handling animals	How could we protect ourselves from harm when handling animals?	Learners to watch video clips, pictures or photographs of safe handling of animals	Our lives today Grade 2 page 37 Realia video clips, pictures	Oral question on animals found in the area	

							photograph s		
--	--	--	--	--	--	--	-----------------	--	--

	4	Environment and its resources	Safety when handling animals.	By the end of the sub-strand, the learner should be able to: appreciate importance of safety when dealing with animals to avoid risk to self others and the animal	How could we protect ourselves from harm when handling animals	Learners to observe a demonstrate from a guest speaker on safety when handling of animals Learners practice /simulate safe ways of handling animals to avoid harm to self-others and the animal.	Our lives today Grade 2 page 37 Realia Pictures	Oral question on animals found in the area	
	5	Environment and its resources	Safety when handling animals.	By the end of the sub-strand, the learner should be able to: appreciate importance of safety when dealing with animals to avoid risk to self others and the animal	How could we protect ourselves from harm when handling animals	Learners to observe a demonstrate from a guest speaker on safety when handling of animals Learners practice /simulate safe ways of handling animals to avoid harm to self-others and the animal.	Our lives today Grade 2 page 37 Realia Pictures	Oral question on animals found in the area	
11	1	Environment	Safety	By the end of the	How could we	Learners to	Our lives	Oral question	

		nt and its resources	when handling animals.	sub-strand, the learner should be able to: appreciate importance of	protect ourselves from harm when handling animals	observe a demonstrate from a guest speaker on safety when handling of animals	today Grade 2 page 38-40 Realia Pictures	on animals found in the area	
--	--	-------------------------	------------------------------	--	---	---	--	--	--

				safety when dealing with animals to avoid risk to self others and the animal		Learners practice /simulate safe ways of handling animals to avoid harm to self-others and the animal.			
	2	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to: identify different sources of light in the environment	Where does light come from?	Learners to identify and name sources of light	Grade 2 page 38-40 Sun Moon Stars firefly Picture	Oral question on sources of lights	
	3	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to: in groups of two identify sources of lights from school and from home and list them	Where does light come from?	Learners to identify and name sources of light	Grade 2 page 38-40 Sun Moon Stars firefly Picture	Oral question on sources of lights	
	4	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to: demonstrating ways of making light using	How to make sources of light	Learners to identify and name sources of light	Grade 2 page 45 Candles Match box	Observing items brought by pupils for making sources of	

				candle				lights	
	5	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to:	How to make sources of light	Learners to identify and name sources of light	Grade 2 page 46 torch batteries	Observing items brought by pupils for	

				demonstrating ways of making light using torch				making sources of lights	
12	1	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to: discussing how to getting light from electricity	getting light from electricity	Learners to identify and name sources of light	Grade 2 page 47 Electric bulb	Observing items brought by pupils for making sources of lights	
	2	Environment and its resources	Energy: Light Sources of light	By the end of the sub-strand, the learner should be able to: develop interest in different sources of light energy	What are the sources of light?	In groups, learners to discuss different sources of light used in the home	Grade 2 page 47 Electric bulb torch batteries Candles Match box	Observing items brought by pupils for making sources of lights	
	3	Environment and its resources	Forming shadows in light	By the end of the sub-strand, the learner should be able to: explain how shadows are formed in presence of light	How are Shadows formed?	Learners observe different shadows formed by different objects in the school environment	Grade 2 page 49	Using oral questions to find out the knowledge of student on forming shadows	

	4	Environment and its resources	Forming shadows in light	By the end of the sub-strand, the learner should be able to:	How are Shadows formed?	Learners observe different shadows formed by different	Grade 2 page 49	Observing how the pupils are	
--	---	-------------------------------	--------------------------	--	-------------------------	--	-----------------	------------------------------	--

				in group of two demonstrate how shadows are formed in presence of light		objects in the school environment		forming shadows	
	5	Environment and its resources	Forming shadows in light	By the end of the sub-strand, the learner should be able to: manipulate objects to form shadows in presence of light for enjoyment	How are Shadows formed?	Learners manipulate different objects to identify shadows of different shapes and sizes In groups, learners play with objects in presence of light to form shadows.	Our lives today Grade 2 page 49	Observing how the pupils are forming shadows
